THE POTTER TRESPASS SUIT

Attracting Large Crowds to Court Room No. 2.

TESTIMONY HEARD YESTERDAY

Rev. J. C. Lencock, Deputy Sheriff Bor tree, Dr. Winters and Dr. N. Y. Leet Sworn in the Case. Other Cases on Trial.

Large crowds are anxious to hear the testimony in the Potter trespass suit against the Scranton Traction com-pany and the tipstaffs are kept busy turning persons away from No. 2 court room, where the suit is in progress be-fore Judge Lynch, of Wilkes-Barre. Rev. J. C. Leacock, of the Dunmore Methodist Episcopal church, was the first witness called yesterday morning. He was an eye witness of the accident He was an eye witness of the accident and saw the ladders of the Traction company in the street before Mr. Potter drove along. The witness was firmly of the opinion that the ladders were dangerous and well designed to fright-en even gentle horses. He knows some-

thing about horses and the manage-ment of them.

Deputy Sheriff L. C. Bortree, of Moscow, was put on the stand to give ex-pert testimony regarding the tempera-ment of horses and what would be apment of horses and what would be apt to scare them. The arrangement of the ladders of the Traction company as they were erected on Blakely street, Dunmore, the day Mr. Potter's horse ran away, was explained to him and he responded that any horse would be likely to take fright and run away. The court put a damper on the witness' expert testimony by ruling that certain duties devolve mon juries and certain duties devolve upon juries and in this case it is for the jury to decide whether the street was dangerous or

Dr. Winters Charged Enough. The first witness after noon was Dr. Peter Winters, of Dunmore, who had attended the plaintiff during the sick-ness that the accident superinduced. Attorney I. H. Burns asked him what he charged for his services in attend-ing Mr. Potter and the doctor modestly and candidly admitted that the price was pretty steep. Mr. Burns did not follow the question beyond that. Dr. Winters said he drove past the ladders on Blakely street a short while before Mr. Potter did on the day of the accident, and his horses made an attempt to take the rains to themselves and to take the reins to themselves and run away, but he succeeded in checking them. His animals, he said, have the reputation of being too gentle. He at-tended Mr. Potter after the accident and found him a mass of injuries. His jaw was broken in two places and his face was crushed in; his right leg was broken below the knee and he was rup-tured. He said that Mr. Potter will suffer from the accident as long as he

Dr. N. Y. Leet was next called to the stand by the plaintiff. He attended Mr. Potter before the accident and after the accident. Before it the plain-tiff was an ordinarily healthy man. The testimony in reference to how he has been since, was corroborative of the testimony of Dr. Winters. Dr. Leet will be called to the stand when court resumes this morning. There are up-ward of a score of witnesses, among them well-known local physicians, yet to be heard. The case will last all week Verdict in the Mulholland Case.

The opposing counsel argued to the ury yesterday morning in the case of lenry Mulholland against the Rushrook Water company and a few min wards gave the case to the jury. A verdict of \$400 for the plaintiff was returned in the afternoon.

Then the trespass suit of George W. Kramer and John W. Cure against W.

G. Miller was put on trial before Judge Edwards. The amount of \$1.400 is al-leged for damages in cutting timber on land in Blakely township. Watson & Diehl are attorneys for the plaintiff, and S. B. Since the death of Fechter, there has seen a great dearth of representatives f the romantic school of acting, except he successes reached by James O'Neil and Robert Mantell, but a new Richmond is in the field, and will appear for the first half of the coming week at the Davis theater in a magnificent revival of Dumas' great romantic trama, "The Corsican Brothers." The new star is Harrison J. Wolfe, who has already won his dramatic spurs with Alex Salvini, McKee Rankin, James O'Nell, Charles Frohman and us the stellar attraction of Paul Kauvar. "The Corsican Brothers" will be preby a company of well known artists of recognized ability. The Cincinnati Enquirer says of Mr. Wolfe: "A strong ttraction is on this week at the Grand. It is that most stirring of French tories, 'Paul Kauvar', with Harrison J. Welfe as the star. Mr. Wolfe will be remembered for his excellent work in support of McKee Rankin some time ago at Pike's old theater, sharing as he lid the honors with that old veteran. it is to actors of Mr. Wolfe's class we must look for our future great actors. The regular annual inspection of the main line and branches of the Pennsylvania railroad system by the board of directors of the company will begin on Oct. 14, and will kast from two to three weeks. This inspection is a very thorough one, as it takes in everything in connection with the system. The stations along the line are gone over, and everywhere there should be an improvement it is recommended, and it is generally made when the directors get back to Philadelphia.

It has been decided by a California court that a road has the right to lift a ticket in the hands of an illegal holder, no matter whether the ticket contains coupons reading over other lines. The case came up on a suit of the Los An-males ticket symbors arguest the South case came up on a suit of the Los Angeles ticket scalpers against the Southern Pacific. An employe of a scalper boarded the train at Los Angeles and presented a ticket reading to Denver. The conductor knew the scalper's employe was not the original purchaser of the ticket, which was of the non-transferable form. He consequently took up the ticket and put the employe off the train, when he refused to pay his fare. The decision was to the effect that the conductor acted properly in lifting the ticket, the fact of their being coupons reading beyond the Southern Pacific's lines cutting no figure.

LOOKS STRANGE AT FIRST.

Steam Issuing from the Ground Caused Some Surprise for a Time. Persons not having in mind the fact hat steam supply pipes are now in full operation in this city were surprised on assing along Washington avenue last night to see volumes of steam shooting up from between the edge of the pavement and the curbing, just in front of Connolly & Wallace's store. Workmen of the Steam Heat and Supply company were soon on the ground, and, after tearing up the sphalt and excavating to the pipe, dis-

covered that the escape was due to a defective elbow in the pipe. The workmen were completely enveloped in steam while making the repairs, and it is safe to venture they did not feel that the night was growing colder.

POLITICAL GOSSIP.

POLITICAL GOSSIP.

The interest felt by the general public in the selection of Professor George W. Phillips' successor as superintendent of schools is demonstrated by the amount of schools is demonstrated by the amount of discussion that is heard about town in the resorts where men congregate. The chances of Professor J. C. Lange and Professor George Howell for the position of superintendent are largely canvassed and it is evident that both have many warm ardent friends. The board of control will meet one week from next Monday night, and at that meeting it is expected that Professor Phillips' resignation will be acted upon and his successor chosen. The controllers are divided in their opinion on the question of the identity of the new superintendent. Some are positive that Professor Lange will win, while others are equally confident that Professor Howell is to get the plum and produce figures to show that they are correct. There has been some talk of importing a dark horse, but it is not likely that this suggestion will receive serious consideration. While Scranton has the ability within her borders to fill the position of city superintendent, it is not probable that the members of the board of control will do any importing. The policy they have been pursuing for years is in direct opposition to such action.

The victory of ex-Sheriff Fahey at

The victory of ex-Sheriff Fahey at Tuesday's Democratic county convention made him the most prominent man of the party in the county yesterday. He was frequently congratulated, but did not indulge in any boasting over his victory. "Judge-Smith and others said I could not be chairman of that convention and I wanted to show them that I could. I die and am content." That is the way Mr. Fahey summed up his victory. There is much speculation concerning his choice for chairman of the county committee but he has not yet given public expression to his preference. It is generally understood that the man he decides upon will be named. Tuesday's convention has left much soreness in its wake and the party in more hopelessiy divided than ever with him of the position of county chairmag this year. The outlook is not of an inviting character.

CLOSED UP HIS BUSINESS.

Police Would Mot Let a Vender of Frank furters Anchor His Wagon. The proprietors of the night lunch wagon which usually stood in front of the old Davies & Griffin store was not doing business tast night. Owing to his failure to comply with the regu-lations Chief Simpson left orders for Lieutenant Davis to arrest him if he brought his wagon on the streets. The lunch man was warned not to attempt to do business and heeded the warn-

ing.
Some few days ago he was chased away from his old stand, having falled

The Unterriffed Nominate a Ticket and Adopt a Platform.

Worcester, Mass., Oct. 2.—The Demoeratic state convention was held here today. The following ticket was nom-inated: Governor, George F. Williams of Dedham; lieutenant governor, James S. Grinnell, of Greenfield; for secretary of state, Edward J. Flinn, of Boston; treasurer, Eben S. Stevens of Sudbury; auditor, Alfred C. Whitney, of Boston; afterney general, Henry F. Hurlbut, of

The platform demands the maintennace of the existing gold standard of value and that the government shall keep all its obligations at all times redermable in gold; opposes the free echage of silver, and any further pur-chase of silver buillon on government account; re-affirms the demands of the phriform of last year that the government shall not carry on a banking business; that the untaxed notes of state or national banks shall be the only credit currency, and that the govern-ment shall, with the development of a banking system adequate to the demands of trade, retire as rapidly as possible all United States paper money. History of the Grain Trade.

History of the Grain Trade.

We have received a copy of a unique publication called H. M. Greene & Co.'s "History of Grain and the Grain Trade of the World." It is printed in colors and is illustrated with a picture some 6,000 years old, from the tomos of Thebes, representing the ancient Egyptians elevating their wheat into granaries. There is also a threshing song in bleroglyphics, with the translation of each character. The book covers the prehistoric chanters of the subject. The history of wheat in Greece, Rome, Anticoh, and among the Scythians, Cells, Gauls, Germans, Goths, Scots, Briton, Irish, Affecans, Mound Builders, Peruvians and American Indians, finishes the first part, or Ancient History on Grain. The part called Modern History deals with Venice, the Arabs, carrying of wheat to the New World, the Philippines, the Dutch, Antwerp, and the great modern European and American cities. It is the publishers' desire to present a copy of the work to every miller, grain dealer and interested party in the United States, and all such wishing a free copy should address H. M. Greene & Co., Rialto building, Chicago, Ill.

Cooling drinks are necessary. They are the universal antidote for excessive warmth. Nothing is so popular with the fair sex in Scranton as our soda served in all the various Scranton as our soda served in all the various flavors and with cream for only a nickel a giass. To have their attentions well received, young men should treat their sweethearts coolly, and by inviting them to enjoy our soda, which is really the coolest and most delightful summer drink in the city, wholesome, healthful and invigorating. Soda heads the list of summer beverages, and the feaming stream from our fountain heads the list of all sodas.
