A WOMAN A woman has many pleasures and much to be thankful for; but, alas! she also has many pains. A woman may not be the slave of man, but where her affections are con-cerned she is devoted to him, and often over-taxes herself thereby. A woman will often, without know-ing it, commit slow sulcide for her children. She will think, toil and short-en her life in their behalf. Too often they do not appreciate it.

A woman should not allow her color to fade, her cheeks to become sallow, her strength to be lost. She is de-signed for attractiveness and happiness.

A woman need not allow any of these things to happen if she will only obey the laws of health and use the best means at her command for preserving

it. A woman needs a friend upon whom she can rely, and there is no friend which so surely aids her when she is in need of aid as that great remedy, Warner's Safe Cure. A woman who has never learned this great truth or who has failed to avail herself of it, has lost a fine opportunity and is doubtless less strong and at-tractive today than she deserves to be and might be. A woman who follows the best hints that can be given her, and who takes

that can be given her, and who takes advantage of the latest discoveries of science for helping her, is certain to live longer, appear more attractive, suffer less and enjoy more happiness than one who neglects her opportunities.

company two years ago. He urged the council to proceed cautiously but the majority seemed satisfied that they could revoke the right by motion, and the president let it go at that. The ordinance was then read and this is what followed: Mr. Gilmartin: '7 think this is a

pretty good ordinance." Mr. Wagner: "I think it reads all

right, but we ought to consider a little before passing it." Burgess Burke: "I don't think it's all right. I notice some of those who are now asking this right of way were kicking against the council last year because it gave the right of way over one street to the Carbondale company. This company is asking too much. We don't want any more railways; we have more on our hands now than we can manage."

Mr. Lane: "This company will never lay a track. I know every one in it, and I think this franchise is wanted

just for speculation." Mr. Gilmartin: "But this company binds itself to lay its tracks within two years. Its ordinance is better than the ordinance of the other company." Mr. Lane: "I known its ordinance is better, and I know the company is

better because I am sure it will never lay a rail." Mr. Jones: "I am opposed to the

granting of this franchise as I opposed the last. In the first place there is no necessity for a railway on those streets, and in the second place I be-lieve if there is any compensation to lieve if there is any compensation to be derived from the giving of this fran-chise the borough treasury should be benefitted. I am satisfied that this right is wanted just for speculation, and I feel justified in opposing it." Mr. Gilmartin said there was no need of being in a hurry, and Mr. Wagner agreed with him.
