The Turkish ministers have held another conference, and additional com-munications have been exchanged with the representatives of the fowers, but the representatives of the powers; but these monotonous proceedings no longer attract much attention, and few people believe that any decided change in the condition of the Armenians is likely to occur unless the Porte is forci-

bly compelled to enter upon the work of bringing about reforms in Armenia. There no longer seems to be any doubt that the Armenians anticipated a scrious disturbance when the attempt was made Monday a week ago to pre-sent a petition to the Sultan through the grand visier, and they claim that those of their race who fell in the streets of Constantinople upon that occosion, were martyrs, who gave their lives for Armenia in the hope of forcing the powers to put extra pressure upon the porte in the efforts being made to bring about, reform in the administration of Armenia.

The blockade of the Armenian churches continuos. All the efforts of the authorities and the Armenian Patriarch have failed to persuade the Armenians, who have sought refuge within the walls of the churches, to return to their homes. They put no faith in the assurance of protection given them. The Turks, however, will only allow Armenian ecclesiastics to enter the churches, and when they leave the buildings they are carefully searched.
