

CARBONDALE.

COMMONERS MEET.

Much Business Is Transacted by the Lower House.

Those present at the regular meeting of the council were Messrs. Mills, Baker, Loftus, Kose, Colwell, Glennon, McDonough and Smith.

A committee who were appointed to look over the jail reported. They recommended that the cells be done away with and that cases be adopted. They would probably cost about \$1,000.

Some discussion on the Belmont street pave matter occupied some time. The report of the street committee was read. They recommended that the paving should be deferred until spring. The Park Paving company, who have the contract, would also prefer the work done next spring.

It was finally decided that the work be let go until next year, but it was recommended that the Park Paving company should be communicated with and a definite understanding be known.

A report of the work done on the Church street pave was also read. The committee reported the pave in a good condition, repairs having been made by sub-contractor Atkinson with the approval of Hart & Dunn. The cost was \$24.75 and the council were recommended to pay Hart & Dunn the amount at the earliest moment.

Several bills were then ordered paid. F. C. Baker introduced a resolution that a culvert on John street be opened to the Lackawanna river by laying a fourteen-inch pipe as far as necessary.

FIRE DEPARTMENT REPORT.

Submitted for Approval to the Council at Last Meeting.

At a former meeting of the common council, Chief Moffitt, of the fire department, was asked to make a report of the location and condition of the fire hydrants. The report has been finished and submitted to the council.

There are sixty-two hydrants to which the fire companies have access, the number including those hydrants on the Crystal Lake and Fallbrook and Newton companies' lines.

Some of the hydrants are in the best of condition, some twenty-four needing repairs; the other forty-one are all right and have a good pressure.

The report was the best ever received and it was adopted.

As repairs are needed on several of the hydrants, it was thought best that they should be made at once, before the ground freezes. It was suggested that the fire chief be given power to have the necessary repairs done and the authority was accordingly given the chief.

A letter was read from A. P. Trautwein, informing the council that 200 feet of hose for the Cottage Hose company had arrived, and he would like to know what he should do with it. The hose is supposed to bear a pressure of 400 pounds to the square inch. The fire chief was instructed to look after the matter.

DIPHTHERIA INCREASES.

Five New Cases of the Dread Disease Discovered Yesterday.

The cases reported are at the homes of L. Rehkop, South Main street; E. T. Corby and H. Sampson, of Belmont street; G. Harrison, Park street, and M. Moran, Pike street.

What has caused the disease to break out cannot be accounted for by the authorities. The only reason given is that of the weather conditions, and the large amount of decaying vegetables on all sides. The greatest precautions against the disease should be taken.

Funeral of One of the Victims of the

Dorrance Shaft Disaster.

Llewellyn Owens, of West Pittston, one of the victims of the explosion at the Dorra mine Monday, was laid at rest at Forty Fort cemetery yesterday. The deceased was a son of William D. Owens, who assumed the superintending of the Lehigh Valley collieries in this vicinity after Colonel Mason's death. He was a very bright and promising young man, and had a very large acquaintance throughout the valley, as was shown by the large number in attendance at the last sad rites.

STRIKE AT VALLEY SHAFT.

Men Demand an Increase of Ten Cents

More Per Car and Less Dockage.

The miners and laborers at the Valley shaft, Smithville, yesterday morning went out on strike and the colliery is shut down for the present. The men, who are mostly Welsh, demand an increase of 10 cents per car, and less dockage. The colliery is operated by the Lehigh Valley Coal company, and a strike occurred there several months ago.

The foreigners working in this colliery are the toughest and most reckless class in the community. Many of them are Russians, of the Nihilistic type, and fear nothing. There is always trouble of some kind in the remote locality where they reside, and they are a hard class to deal with. It was this gang that attempted to annihilate Mine Foreman Royer A. Hines last Saturday, for which they were afterward arrested. The company will make an effort to start up the colliery this morning with a force of new men, and trouble is likely to occur.

On looking around they were alarmed to find a tall, fierce-looking man with a gleaming revolver in his hand. Fortunately a few of them were plucky enough to approach the man and ascertain the meaning of the situation, but nothing definite could be understood from the person.
