· There are many GOOD life insurance companies, but among them all there must be one BEST. THE BEST is THE EQUITABLE. If you wish to know why, send for: 1, the report of the Superintendent of Insurance for the State of New York on the examination of The Equitable; 2, for actual results of maturing policies; 3, for statement of death claims paid in 1894. Then you will know the three great reasons of The Equitable's supremacy: 1st, its financial stability; 2d, its great profits and advantages to living policy-holders; 3d, the promptness of its payments and liberality of its settlements.

General Manager Merrill, of the Burl-ington, asserts that fast mall trains over his line make a higher speed than has yet been made on the New York Central. This train, every day in the week, makes the run from Chicago to Council Bluffs, 560 miles, in ten hours,

the Chicago Medi

Statement attributed to Governor Altgeld that he was in favor of a consolidation of the existing companies. The railway list was firmer, but the improvement was fractional. The Grangers were influenced by reports from the west that the truce had been reached in the Colorado rate war. Speculation closed dull and firm. Net changes show advances of ½ to 1%. Chi-cago Gas leading. Total sales, \$5,000 Shares.

shares. The range of today's prices for the ac-tive stocks of the New York stock mar-ket afe given below. The quotations are furnished The Tribune by G, du B, Dim-mick, manager for William Line. Allen & Co., stock brokers, 412 Spruce street, Scranton. On'n- High- Low- Clos-

RAILROAD NOTES.

The Seafoard Air line has a very novel exhibit at the Atlanta exposi-tion in the way of a gigantic relief map. across which miniature trains of cars are moved, with all stops, from Ports-mouth to Atlanta. It is said the New York Central made a proposition to the government to run a fast mail from New York to Chicago on a schedule about the same as that of the Empire State express at 33 per

Philadelphia Inquirer: The anthra ite coal trade continues to improve under the stimulus of cool autumn weather. The retail trade is active all over the country, and dealers are urg-ing the companies to make deliveries. so that the entire production is mov-ing freely. The companies are ship-ping west all the coal they can spare as there are only six weeks more of saf as there are only six weeks more of safe lake navigation, and the storage yards must be filled up. With an active tide-water and line trade, the movement of coal is only limited by the producing capacity of the collieries, which is im-paired by the great scarcity of water. Prices are very firm, and another ad-vance is talked of by some companies. But few orders have been beended But few orders have been booked at the latest circular, as dealers hought very freely at the circular issued on Oct. 1, and the companies accepted sufficient orders to keep their capacity fully employed for a month or six weeks. Even should another advance be made, therefore, it would count for very little, as the year's business has practically been done.
