YOU ARE A WOMAN

2nd for that very reason you must suffer. Why should woman suffer from weakness, pains, bearing down sensations, loss of appetite, energy, despondency, and the thousand ills so common? It is all wrong. The Almighty never intended it to be so. Woman was created for happiness and joy, not for sickness and misery.

If You Stop to Think

You will realize that there is one great cause for all these troubles, which is sammed up in the word weakness. You will also admit, if you stop to think, that there is one great way by which it can all be avoided or cared. That way is by the use of the only one great known remedy for all such troubles, which is Warner's Safe Cure. Ask any physician, male or female, or professional nurse, any scientific man or woman of standing and research, any druggist who is worthy, and you will find that this is true. Why, then, will women suffer when the best of modern and scientific relief is at hand?
