STOCKS AND BONDS.

New York, Oct. 23.—The stock market was weak and lower today and the bear leaders were more active than for weeks past. The inherent strength of the sterling exchange market is creating talk about gold exports and this plays directly into the hands of the bears on stocks. The greatest pressure to seli was against Manhattan and Sugar. The former fell from 1884 to 1074 and the latter from 1974 to 1954. The cotton carrying roads were adversely influenced by the short crops which it is said will make serious inroads on the earnings of these companies. The other prominent railway issues declined to 34 per cent. The anthracite coalers were neglected notwithstanding the advance in coal and the higher prices for the product. The Grangers ran off about a half point, the continued drought in the winter wheat best being used against these shares. The market closed weak owing to the drop in Sugar. Net changes show losses of 423 per cent., Sugar and Leather, preferred, leading.

The range of today's prices for the active stocks of the New York stock market are given below. The quotations are furnished The Tribune by G. du B. Dimmick, manager for William Linn, Allen & Co., stock brokers, 412 Spruce street, Scranton.

HIGHER COAL RATES.

& W. Announces an Increase in the Freight Charges.

The Delaware, Lackawanna and Western Railroad company has just sent out notices to its shippers of an-thracite coal that there will be an advance on this kind of freight on, and after Nov. 1. This circular applies to coal from the mines to tidewater points at New York and to Buffalo. For some kidneys, because it is the kidneys time such a circular has been looked which are supposed to keep the blood for, and during the last month it was intimated that such a move would be made by all the railroad companies that did a coal business. It appears, however, that most of the companies, however, that most of the companies, while agreeing that the freight rates on coal were too low, were reluctant to take the step, and it was put off from time to time. It appears that the same arrangement as was carried out in regard to the advance in the price of coal is to be put into effect in regard to putting up the freight rates on this commodity. That is, one company is to take the initiative and the others will soon follow. The new anthracite freight rates which the Delaware. Lackawanna and Western Railroad company will put into effect on Nov. 1 are as follows:

Destination. New Rate, Old Rate.

The Lehigh Valley Railroad company, which is a competitor of the Delaware. Lackawanna and Western, has not made any change in its anthracite freight rates, but it is understood that freight rates, but it is understood that it will hold a conference with the Reading company, and in all probability will meet the new rates of the Delaware. Lackawanna and Western Railroad company. The Lehigh Valley rate to Buffalo is \$1.75, to Syracuse, \$1.60, and to Perth Amboy, which is considered the same as Hoboken, there is a difference owing to a variety of sizes of coal. On stove, egg, chestnut and broken sizes the freight rate to this port is \$1.50, on pea, \$1.40, and on buckbox. port is \$1.50, on pea. \$1.40, and on buck-wheat, \$1.35. Since the improvement in the coal trade there has been no change made in anthracite freight rates, and now that a start has been made it is thought that these rates will be advanced all around.-Philadelphia Press.

An English paper speaks in flattering terms of English railways because they "do not raise their freights in winter, as they do in some foreign countries." Even on the Great Eastern, the cheapest of the lines into London, it costs more to send a ton of wheat into the metropolis from Norfolk (100 miles) than it does from New York.

hour of need. The liver filters out the poisonous germs which enter the system. Just so surely as the liver regulates the system, so do Dr. Pierce's Pleasant Pellets regulate the liver. Keep this in mind, and you solve the problem of good health and good living. The "Pleasant Pellets" have a tonic, strengthening effect upon the lining membranes of the stomach and bowels, which effectually cures Biliousness, Sick Headache, Costiveness, or Constipation, Indigestion, Loss of Appetite, Bail Taste in Mouth, Sour Risings from Stomach, and will often cure Dyspepsia. The "Pellets" are tiny, because the vegetable extracts are refined and concentrated. Easy in action, no griping as with old-fashioned pills. As a "dinner pill," to promote digestion, take one each day after dinner. To relieve the distress arising from overcating, nothing equals one of these little "Pellets."

Mrs. MRLISSA ATWATER, of Sleuben, Washington Co., Me., writes: "As regards the little 'Pellets,' I think I could not do without them. I do not like to be without them in the house. I have spoken very highly to friends and neighbors of them, and many are taking them.
