GRAVITY IMPROVEMENTS.

A New Head House Will Bo Erected No. 1 Plane. Workmen have been engaged at the healt of No. 1 plane for some time making improvements, A new engine house is being built and the engine seat has been renewed. It is said that

the imperfect construction of the massive foundations is the cause of the many broken engine frames along the The work was done by contract when the foundations were put in many years ago, some traveling men having the job,

and in that way several of the engine seats were slighted. A new drum will be put in at the head of No. 1 also. Quite a great improvement has also en made in the light track a little

this side of Farvlew. A sharp curve has been taken out and in that way the road has been considerably shortened.

A NEW BRANCH

Of the C. M. B. A. Will Be Formed Here. Many Members.

For some time past there has been a movement on foot to form a new branch of the Catholic Mutual Benefit association. The advisability of form-ing this branch has been the means of much discussion and within a month or so we will possess a new branch in this city.

There is already one branch of this society in a flourishing condition in the city, but the new one is not intended to rival it. The constitution of the order also provides that there shall not be two branches in the same parish ex-cept by permission of the grand officers. The branch is now in a most flourish-

The branch is now in a most flourish-ing condition and has a large member-ship. It has also done much good as a whip. It has also used in and has dis-tributed over \$22,000 to the widows and orphans of the city. But this branch is chicity composed of men who enter it for insurance and other benefits de-rived. They are mostly of the older men and it is to get the young men in men and it is to get the young men in that the new society it to be formed. The membership of the branch is now 180 and this makes it too large for the work to be done in a convenient man-

ner. While the new branch will possess all the benefits of the old one it will also have a social feature. This it is though will draw many young men out who otherwise would not join. B. A. Kelly is greatly interested in the organiza-tion and it is chiefly through his efforts that permission for a new branch was granted,
