Deputy Warden Thomas J. Price, of the county jail, has been set right in the false and defamatory slander that assailed his character in the aspersions of John H. Thomas, of the West Side, who is in the county jail on the charge of highway robbery at Olyphant. Thomas yesterday confessed that he lied and knew he lied when he circulated among the other prisoners at the county jail the story that Warden Price was no better than any of them. Price was no better than any of them. The reason he gave was that Mr. Price robbed a customer of \$10 once when he was in the tonsorial line, on North Main avenue. The facis were that a man was robbed of this amount but it was done by another barber by the name of Thomas J. Price, who left town between two days, immediately after he did it. Warden Price's enemies connected him with the thleving episode.

RUINED THE SEWER.

Settling of Mine Workings Causes Trouble on the West Side.

Cellars on Bromley avenue, between Lafayette and Price streets, were flooded yesterday with back water from the sewer, which became blocked in some manner during the night. Foreman George Perigo, of the street commissioners department, visited the scene yesterday afternoon and from evidences of a mine settling judged that the sewer had caved in.

It will undoubtedly be necessary to dig up the old sewer and put in a new one on at least a portion of the block. Repairs will be commenced today.

llow to Get Rid of a Bad Bargain Is Now the Uppermost Thought in the Minds of the Councilmen of the City.

How to best get out of the obnoxious compact by which the city, in 1888, agreed to take care of the West Market street portion of the Providence and Abington turnpike as a return to the company for abolishing their toll gate within the city limits, was the paramount topic discussed at last night's meeting of select council.

Gentlemen: The citizens of South Abington have petitioned to the courts of Lackawanna county for a public road starting from a point on the road leading from Chinchilia to Newton, near J. J. Cransdale's, thence in a southerly course to the city line on the west side of Defaware, Lackawanna and Western railroad. Hoping the city officials and councils will co-operate in the same by continuing iron street of the Third ward in a northerly course to intersect with the proposed road at the line of the city and South Abington.

In a Deplorable Condition. Both Mr. Chittenden and Mr. Roche ubmitted lengthy communications em-West Market street they say is in a deplorable condition. The road-bed is of soft clay and ungraded, and subject of soft clay and ungraded, and subject to extensive damages at every rainfall. The six culverts on the route are in such a condition that they can not be repaired, but must be rebuilt. The expense of putting the road in anything like passable shape would not be less than \$40,000. The committee would in no wise recommend temporary repairs, as in the end they would be the more expensive. expensive.

Both favored opening the new road to connect with the proposed free turn-pike, and also to recede from the con-tract with the turnpike company if it can be legally done. In consideration of the interests of the business men and others who have located at Providence square, the present outlet from the northern county districts, the commit-tee suggested that the matter of open-ing the new road and transfering the business center to Oak street, should be carefully weighed.

Messrs. Roche and Chittenden

Messrs. Roche and Chittenden strongly favored the opening of the new road. By so doing West Market street would be relieved of three-fourths or at least one-half of its present heavy traffic, and in such an event it could be made passable without the big expenditure that the present immense traffic demands.

They also raised the point that if

the provision of the contract with the Turapike company, by which abutting property holders are exempt from any expense for grading or paving could be annuled, it might be advisable to go ahead with the permanent repairing of the road, have it graded, paved and guttered and new culverts built. Attention was also called to the fact that many abutting property holders have overreached on the street, and that a cuim pile also occupies a portion of the upper part of the road.

"Resolved, That the streets and bridges committee in conjunction with the city engineer be directed to make a survey and estimate of cost of opening Iron street, from Oak street to the city line." The resolution was passed.

When the city was sued recently for repairs done by the Turnpike company.

S. B. Price was engaged to represent repairs done by the Turnpike company.

S. B. Price was engaged to represent
the city, owing to the fact that City
Solicitor Torrey, before his election,
was engaged on the other side of the
case. Mr. Price sent an opinion to
council, after a verdict had been rendered against the city, asking authority to take the case to the Supreme
court, claiming that he could have the
verdict set aside and also that he could
prove that the contractbet ween the city
and Turnpike company was not worth prove that the contractbet ween the city and Turnpike company was not worth the paper it was written on. The communication was never read in select council, being simply received and filed. In a somewhat pointed speech last night Mr. Manley referred to the manner in which the communication had been shuffled into a pigeon hole and then asked that the city solicitor be also requested to give an opinion as to whether or not it is too late yet to take the case to the Supreme court.

What Mr. Manley Said.

What Mr. Manley Said. Mr. Manley deplored the position into which the city had allowed itself to be wheedled, muttering as he sat down: "We ought to be shot. We ought to be

shot."

In reference to the construction of the Farber court sewer through the properties of Mrs. McCarthy, H. A. Rifenberg and John Gehrens, City Solicitor Torrey communicated that the property holders in question had agreed to accept \$150 each in payment for damages sustained. They will also sell as much of their land as is needed for opening Vine street and Irving avesell as much of their land as is needed for opening Vine street and Irving ave-nue as folows: Mrs. McCarthy, \$6,000; Mr. Rifenberg. \$7,000; Mr. Gehrens, \$7,-000. The communication was referred to the judiciary committee. The Mayor's veto of the resolution granting an additional sixty days to B. G. Koons for the completion of the Fourteenth ward sewer was approved.

Fourteenth ward sewer was approved of by the judiciary committee and sus-tained by council.

The ordinance regulating the cleaning

The ordinance regulating the cleaning of sidewalks was unfavorably reported upon by the streets and bridges committee. Chairman Chittenden of this committee explained that the only change which this new measure makes in the present regulations is that it prescribes that sidewalks shall be cleaned before 12 o'clock noon, and as this will be a hardship on workingmen who spend the day away from home the committee decided to reject the ordinance. The council adopted the committee's views.

Appropriations About Exhausted. Appropriations About Exhausted.

Street Commissioner Kinsley communicated to council that two appropriations, repairs of bridges and culverts and sewers and drains were about exhausted. When he came into the office, so he states, there was \$2,851.88 in the bridges and culverts funds. About \$1,000 was spent in the

repairs on Stafford Meadow Brook cul-vert and \$300 for re-planking the bridges. On July 1, there was \$3,263 in fund for repairing sewers and drains. The board of health expended \$600 of this amount and the balance is almost ex-hausted in cleaning and repairing sew-

hausted in cleaning and repairing sewers and basins.

There is now in the hands of the street commissioner measures directing that he construct five sewer basins and a pipe drain, upon which no action can be taken until the fund is replemished. Mr. Kinsley estimates that he will need \$2,500 more, \$1,500 for bridges and cuiverts and \$1,000 for sewers and drains. His communication was referred to the committee on appropriations.

New measures were introduced providing for an electric light at the arch under the Delaware, Lackawanna and Western bridge and one in the center of Linden street bridge; providing for the relaying of curb on Adams avenue between Vine and Mulberry streets; providing for the sewering of Colfax and Wheeler avenues; providing for grade on Diamond avenue between Providence road and Court street.

Mr. Clarke introduced a resolution di-recting the mayor to have demolished the house of Mrs. John Moran, at 309 Luzerne street of it is decreed to be a rulsance. This is the first action of this kind under the new law empowering

municipalities to remove unsightly or dangerous bulblings.

The following ordinances were passed on first and second readings: For a drop harmess for General Phinney Engine company; establishing the grade on Prescott avenue, between Mulberry and Cilve streets; for two electric lights in the First word; for laying silewalks on Ladayotte street between Main and Firmere averue; for an electric light on Wates direct; transferring \$1,500 to the fund for improving Robinson and Ninth

the city's claim.

It will be remembered that when City Engineer Phillips made the final estimate of \$23,329.10, City Controller Widmayer deucted \$949.56, the amount of the bill for the inspection of iron at the mills, which was provided for as follows in a clause of the contract: "The city engineer shall engage a competent inspector for the inspection of the iron work at the mills, for which the comwork at the mills, for which the com-pany shall pay."

The city engineer engaged the Ameri-

can Engineering and Inspection com-pany to do the work and they sent in a bill of 80 cents a ton, or the price agreed on, \$940.36, which Controller Widmayer forthwith referred to the bridge company together with a letter calling their attention to the clause printed above.

The Bill Was Returned. The bridge company returned the bill to the city with the information that they were not responsible for the wages of men employed by the city engineer of Scranton, and as to the clause in the contract covering the subject of inspection the company held that the pronoun in the clause "for which the company shall pay" referred to the noun "work" and not "inspection."

This kind of dialing would be enough

This kind of dealing would be enough to make any man warm about the col-lar, and as Controller Widmayer is a very emphatic man, his letter in re-sponse to the Iron company's juggling communication was very concise, and to the point. In brief, it told the com-pany that it could take the amount of the final estimate, less \$940.56, or go to.

Prothingham Theater Is Transferred Into a Modern Eden.

CHRYSANTHEMUMS THE PAD

lardy Flower in All Its Glory Will Until Next Tuesday Absorb Other Interests-Show Is Beautiful and Almost Indescribable.

Scranton's first big chrysanthemum show began yesterday in the Frothingham theater and will be continued each day and night, Sunday excepted, from 9 to 11 o'clock until Tuesday night. The phrase "First Chrysanthemum Show" is used advisedly as the few displays of former years will not stand comparison with the artistic arrangement, surroundings, outlay and personnel of the visitors attending the present show. Over 7,000 plants were brought into the theater during the day and night of Wednesday. They were of every describable shade, size, color and variety and to attempt a description of the transformed interior of the theater would be an effrontery. Really, the entire floor from the wall at the rear of the stage to the tlers of seats back of the circle is an immense and magnificent chrysanthemum bed, divided into oddly shaped plots, crescents, stars, banks and mounds through which one may perambulate and then wonder how beautiful Eden must have been. Nothing will describe a chrysanthemum in all its hardy glory except a chrysanthemum itself, and when a multitude of all its hardy glory except a chrysanthe mum itself, and when a multitude o the popular flowers are arranged to-gether it will be understood why the show must be seen to be comprehended. It Is Very Beautiful.

Many exclaimed "oh, how beautiful," on entering from the lobby to the audi-torium, but the nature of the adjectives torium, but the nature of the adjectives became more intense in meaning according to the length of the visitor's stay. There were little and big chrysanthemums and of all colors from white to a blue black and with petals, straight or twisted into all sorts of fantastic shapes. At the rear of the stage and beneath the bower of blossoms and green stuff, instrumental music was discoursed by the Lawrence orchestra of ten pleces in the evening orchestra of ten pieces in the evening and by the Imperial quartete during the and by the imperial quartete during the afternoon. At intervals during the evening Miss Breakstone, of Wilkes-Barre, recited, and vocal selections were rendered by the Green Ridge Wheelmen's quartette.

To the left of the stage in a nook made by theater scenery and chrysanthemums was set the dinner table displayed of Weichel & Millar and Hill & Connell.

Connell.

A great deal of notice and compliment were bestowed upon the exhibit of heremetically sealed fruits in glass, and the array of vegetables, bulbs and plucked fruit along the rear aisle. The fruit in glass is the exhibit of E. G. Coursen and in addition to what is now on exhibition, Mr. Coursen will show a new line of Teyssonneau importations, including French cherries, fresh as when plucked, in a pickle of Vin Marasquin, brandled peaches, marrons di glace, in the syrup, and figs in their natural shape and state. These are almost curiosities, as they are rarelly even seen except in their candied form. Besides these, are a fine display of select olives, and olive oil in elegant bottles. Another novelty is a rose syrup, for summer drinks, made from distilled essence of rose leaves. distilled essence of rose leaves.

present county clerk, claims his reelection by \$6 majority. By law he is
the sole custodian of the ballot boxes
and returns, until the official count is
made. George Kindel, his opposition
candidate, and supposeury elected,
claims that fraud will be used by Lebert should he remain in sole possession
of the ballots. He demanded admission to the office, but was forcibly
ejected.

Armed men are now on guard to prevent further attempts of persons, other
than the county clerk and his deputies,
entering the office. No official election
results have been announced.

Considerable excitement prevails and
partisan feeling runs high.

DELLA FOX COMING.

Will Produce Her New Opera at the Frothingham. One of the most important events at the Frothingham this season will be the engagement of the Delia Fox Comic Opera company in "Fleur-de-Lis," which comes to this city intact from its long run at Palmer's theater, New York

The same scenery, costumes and effects, as well as identically the same company that scored such a success in the metropolis, will be used. The seats the metropolis, will be used. it is advised that an early applie for the same would be wise.

CHIMES OF NORMANDY.

iung by the Aborn Opera Company at the

Academy of Music. The Milton Aborn Opera company gave a good interpretation of the "Chimes of Normandy" at the Academy of Music last evening. The character of Gaspard, the miser, is not the most desirable to satisfy the mind of the average theater greet, especially if the average theater goer, especially if overdone, but happily no such defect exists in Milton Aborn's impersona-tion of Gaspard's greed for gold.

A fair sized audience witnessed the performance. To-night "Maritana" will

LAST NIGHT'S SOCIAL EVENTS. Mr. and Mrs. H. G. Dunham, of 1831 Capouse avenue, last night gave their first at home since their marriage. They were assisted in receiving by Miss Robinson, Miss Fordham and Miss Dimmick.

Mr. and Mrs. Willard Matthews last night at their home, 324 Quincy avenue, celebrated the first anniversary of their marriage. Mrs. Matthews was Miss Cora Brooks, daughter of Mr. and Mrs. Reese G. Brooks. The anniversary gathering was informal, including only the members of the Matthews and Brooks families.
