NO GRIEVANCE HAVE THEY

Brotherhood of Locomotive Engineer's Convenes Here.

FROM BUFFALO TO HOBOKEN

Every Division on the Entire System Was Represented, but Not a Single Delegate Had Anything of Which to Complain.

Eighty-five locomotive engineers representing every lodge of the brotherhood on the Delaware, Lackawanna and Western road were in this city yesterday afternoon in what is known as a "system meeting."

These meetings are held at irregular periods at various points on the road. The last one was held in Buffalo in September and the next will be held in Elmira, towards the close of the year, the date having not yet been decided upon. They are, as a rule, held on Sun- day and are attended by all the engin- eers who can conveniently do so.

Yesterday's meeting was not as largely attended as the previous one, owing to the busy times that obtain just at present, when almost every engineer, particularly engineers on coal trains, are making overtime. Very often na- tional officers of the brotherhood attend these sessions, but owing to their en- gagement elsewhere yesterday as ar- bitrators or members of grievance com- mittees, and the fact that there is ab- solutely no need for them in such capac- ities on the Lackawanna road, there were none in attendance at this meet- ing.

They Confronted Themselves.

As there were no grievances to be considered the meeting was simply a social gathering, in which the engin- eers congratulated themselves upon their present happy and contented con- dition resulting from the present period of unusual activity and the very friendly relations existing between the men and the company. Several of the speakers touched fittingly upon this remarkable condition of affairs.

The meeting which was held in the hall of Sam Sloan division, No. 276, at 134 Wyoming avenue, lasted about two hours and at its conclusion the visiting engineers were shown about the city until evening, when a special train bore them to Moscow, where as much fun was had as could be properly enjoyed on Sunday.

A Railroad Young Men's Christian as- sociation meeting was held in the Meth- odist church, at which addresses were made by Silas Davidson, of Washington, N. C.; Benjamin Laker, secretary of the Railroad Young Men's Christian association at Hoboken; John Peters, of Jersey City; John H. Trook, of this city, and Bill B. Vail, of Moscow, at whose invitation the engineers took the excursion to the country cousin of the Electric City.

Sunday Morning Was Present.

The day was moreover made memora- ble by the presence of one of the best- known and most brilliant railroad men of the United States Engineer Fennell, of Oswego, known better by his nom- de plume of "Shandy Maguire." He is an orator of no mean ability and an ever ready wit, but his principal fame rests in his poetry, which has won for him renown far beyond the confines of the Delaware, Lackawanna and Western railroad organizations. Several of his works have received the merited dis- tinction of a place in the leading mag- azines and periodicals, yet he is not a party returned to this city at 10.30 o'clock in time for the night trains. All spoke in glowing terms of the hospital- ity and services rendered by the city and Scranton ever wants anything in the way of a national convention it can well high command the votes of all the organizations represented here yesterday.

DESPERATE YOUNG ROBBERS.

They Held Up and Brutally Assaulted John Moran of Minooka.

John Moran, of Minooka, whose wife was killed by a street car last June, was held up, robbed of \$18, and then brutally beaten at Cedar avenue and Brook street, Saturday morning at 1.30 o'clock. Moran was riding in the motor car of the Delaware, Lackawanna and Western and Friday, after receiving his pay, he proceeded to sample the grades of Bellevue liquor. Late in the night he drifted to the central city and after midnight he went into a saloon on Lackawanna avenue, got 30 cents' worth of drinks and returned for them.

Lieutenant of Police John Davis was called in and Moran immediately set- tled up. He then, at the command of the lieutenant, started home. When he got to the boiler room of the Meadow Brook Silk mill, where the blood was washed from him, there were several large flashes in his head. Patrolman Dominick T. Holland scoured the place for the robbers.

DIED OF PNEUMONIA.

Report That Willie Roberts' Death Was Due to Injuries Utrane.

A sensational report prevailed Satur- day to the effect that Willie Roberts, a 15-year-old boy living with his parents at 418 Gibson street, had died during the preceding night from injuries re- ceived in a foot ball game. Credence was given the rumor from the fact that the boy really had died and that his parents were slow to be convinced by Dr. Wentz, the attending physician, that death was due to pneumonia.

Young Roberts was taken ill early last week. He complained of pains in his chest, and when questioned as to the probable cause, said he had re- ceived a violent blow in the chest while playing foot ball the day previous. There was not hemorrhage, bruise or other indication of internal injury, but the boy insisted that the pains in his chest came from a blow.

He grew slightly worse and experi- enced a little difficulty in breathing. Dr. Wentz was summoned and imme- diately pronounced the case pneumonia. The patient's condition grew rapidly alarming and would not yield to treat- ment. His death at 11 o'clock Friday night was unexpected. The funeral was held yesterday afternoon in St. Luke's church.

BOYER A RECORD BREAKER.

Gets Arrested for Wife-Beating Twice in One Day.

Seldom does it happen that a man is arrested and jailed twice in the same day on similar charges, but this was the case with Charles Boyer, of Lakewood, who was arrested for wife-beating twice in one day, yesterday.

At 11 o'clock in the morning Boyer was arrested and locked up by Patrol- man Melner on complaint of Mrs. Boyer, who charged her husband with having unmercifully beaten her. After a four hours' detention at the station- house Boyer secured his release upon making a deposit for his appearance this morning. An hour or so after secur- ing his liberty he went back to his home and again unmercifully abused his wife. Neighbors sent word to the sta- tion house and Patrolman Melner once more responded and placed Boyer under arrest.

He resisted savagely and had to be handcuffed. He begged to be released again, but his prayers were unheeded.

STILL HOLD THE FORT.

Board of Assessors Has Not as Yet Secured the Assessors' Furniture.

The city assessors still hold the fort although another day has passed and no citadel was made Saturday. A gang of six laborers under direction of City Clerk Lavelle invaded the office and after removing what remained of the assessors' books started to take out the furniture. The assessors would not allow this and said so in such deter- mined tones that there was nothing for the laborers to do but get out, and they did.

In the afternoon Clerk Heuser made application to the city clerk for an assessors' book, but was refused. The assessors were very wrath at this and will make the incident the basis of their side of the story which council will be called upon to hear next Thursday night.

BROWN'S "BEE HIVE."

Great Sale of Furs.

On Tuesday, Nov. 12, Brown's "Bee Hive" will open for inspection and sale, a large line of fur capes, coats, etc. He has secured an immense stock, personally inspecting each garment.

The amount of the invoice to the "Bee Hive" was over \$2,000, and that repre- sented but one-half the original whole- sale price as he was able to buy this new and up-to-date stock of medium and high-priced furs at a discount of 50 per cent.

Brown's "Bee Hive" will give their retail customers the advantage of Mr. Brown's wholesale purchase and the immense stock of the very latest styles heretofore unknown in Scranton.

The ladies of Scranton and vicinity are invited to inspect the "Bee Hive" for genuine bargains.

MISS RYAN IS PARTICULAR.

She Refused to Marry Peter Shawcross in the Police Station.

Peter Shawcross, aged 35, the cook at Whyte's Hotel on Franklin avenue, and Susan Ryan, a winsome miss of 44 summers, occupied adjoining cells in the station house yesterday. Procrasti- nation delayed the marriage until Sat- urday. Last Monday they went together to Wilkes-Barre, sought out Clerk of the Courts Davenport and secured a mar- riage license. Peter would be married then and there, but Susan suddenly ex- perienced a feeling of regret for her escape, lost all the romance that was in her and vowed she would be mar- ried at home not at all. Home they came but still Susan held back. She had the marriage license snugly and safely stowed away in her bosom and if Peter at any time became too impor- tunate she could waive the dread cer- tificate over his head and bid him bide her time.

Peter Liked Not Delay.

"He's long deferred, maulth the heart sad, and so it was with Peter. To drown this sadness he adopted the method that often makes men forget their sadness, and Susan was not averse to adopt the same. Susan was mad herself. But there was mad- ness in her method and when they be- came quite thoroughly maddened, Peter upbraided Susan for her delay. Peter got to Susan became demonstra- tive and attracted the attention of a police officer, who placed her under ar- rest. Peter had to wait for a policeman in police court yesterday morning. Alderman Millar fined them \$7.50 apiece. Peter paid his own fine and left his betrothed to ponder over her lot while he pondered on the mad folly of a station house cell.

The alderman was willing to marry them then and there and Peter was agreeable, but Susan would not con- sent to wed in a police court. She had no doubt, ay and many a time, pre- tured that eagerly anticipated occa- sion and the most romantic of her dreamings there was no man but a police officer to make a back- ground. It was not to her fancy and she would have none of it.

Peter Left the Station House.

"Out upon you that mad Peter, striding away. As he left the police court he muttered something about people staying where they were until people came to their senses and mar- ried people that were willing to marry them."

MORGAN'S GRAVE MISTAKE.

Thought He Had the Power to Marry People, but He Did Not.

Ex-Alderman Thomas T. Morgan, of the Fifteenth ward, has solemnly fast- ened himself into a large legal hole and it will require many strong tugs to un- derstand the cords and knots of his blunder. Last spring Mr. Morgan was defeated for re-election to the office of alderman of his ward. Feeling that the knowledge of the law he gained in fifteen years' experience as alderman, should not be wasted, he applied and received a commission as Notary Pub- lic, but has ever since neglected his duty and thus began his present em- barrassment.

It appears that Mr. Morgan was not well versed in the law, and in his new office and he has, since his appointment, performed three marriage ceremonies, but he had no right to do. The mis- take was made in the case of William Notary Morgan filed marriage cer- tificate in the clerk of the courts' office, showing that on October 4 he married John Morgan and Jennie Shiro, both of Eynon street. He thought himself empowered to tie the knot.

When Mr. Morgan was seen by a Tri- bune reporter last evening he was still under the impression that he could legally perform marriages by virtue of his notary's commission. In the pres- ence of the reporter he pulled down from his shelves several volumes of legal lore and searched in vain for the powers that were not there.

In the meanwhile Mr. and Mrs. Mor- gan dived on "lynx" and "fox" and that they are a regular married couple. There are two other couples who have been illegally married by Notary Morgan, but he has not as yet refused to give their names.

McDERMOTT IN THE CITY

He May Be Scranton's Base Ball Manager During 1896.

WILL TALK CONTRACT TODAY

Ex-President Betts Visited McDermost in the St. Charles Yesterday—He Will Call at Mr. Simpson's Office This Afternoon.

M. H. McDermott, this season's Fall River base ball manager, and who may guide Scranton's fortunes in 1896, is in the city. He registered at the St. Charles Hotel Saturday night and had a long talk with the manager, Frank McDermott, but will not confer with Harry P. Simpson, the new Scranton promoter of base ball, until this morning. Until then no one can say that McDermott will be the Scranton manager.

He is one of the most conspicuous figures in the new England league, chiefly because of his connection with a team whose salaries and ex- penses exceeded those of only two teams in the league. He is not a play- ing manager, but a general manager, understood in Scranton. Until 1891 he was a pitcher, but in that year he threw his arm out, and after recuperat- ing many months the following season, in 1893 began to manage the Fall River team and for three years has done so successfully.

McDermott is slender in stature, of medium height and weighs possibly 140 pounds. He looks all his 34 years. Af- ter casual meeting one would imagine him to be a quiet thoughtful fellow, who, if he had a mission to perform, would set about it with deter- mination and with an absence of noise.

Prefers the Eastern League.

It is not known how much figure and terms were considered in the cor- respondence between McDermott and ex-President Betts, who opened nego- tiations before the franchise changed hands, but it is known that he has been paid in the New England league, and when the Brock- ton owners heard of it they immedi- ately refused to let McDermott manage for themselves. But the Fall River manager said he thought the East- ern league is a step higher, and that's why he refused the Brockton offer and came here to talk things over with McDermott. He is the substance of his statement to a Tribune reporter last night.

He reached here late Saturday night, having traveled by the night train, where he is treasurer of a theater, on receipt of a telegram from Mr. Betts. He was visited by Mr. Betts yesterday after- noon and after a long conference with him to Mr. Simpson, whom he will visit this morning. He hopes to leave for home before night. In view of the ab- sence of the former, the arrangements with the Scranton owners be refrained from discussing this city's base ball prospects.

McDermott did make one statement of a color entirely different from the as- sertions of the ex-owners of the Scranton franchise relative to the proposed purchase by Fall River. He said the Fall River parties had not made an offer for the franchise, and did not know anything about what has trans- pired here since the purchase of the club. Clubs He Has Twined For.

In his nineteenth year, in 1874, Mc- Dermott signed as a pitcher with Mil- waukee and has since played that po- sition with the following clubs: 1875-1876, New York; 1877-1878, Philadelphia; 1879-1880, Auburn, N. Y.; and Louisville; 1880, Jersey City; 1881, Portland, Me.

In 1881 his arm gave out and he ended his career as a player after playing fully trying to play his old position in 1892 with Reading. The year following he began managing Fall River.

A YOUTHFUL TRAMP.

Nine-Year-Old Pittston Boy Who Ran Away from Home Caught Here.

On Saturday morning Ralph Under- wood, the 9-year-old son of Dr. Under- wood of West Pittston, ran away from home and walked all the way to this city. When night came on the little fellow sought a sleeping place in the boiler room of the hotel tomorrow morn- ing. He was picked up by an officer early yesterday morning.

Sergeant Deller notified the police of Pittston, and on Friday afternoon the lad's friends came up from him. His mother was almost distracted with grief during Saturday night, when no trace of him could be found. Her grief was as great as her joy had been when she received the comforting news that her boy was safe.

TWENTY-FIVE MORE NEEDED

After One Hundred Names Are Obtained Steps Will Be Taken to Affect an Or- ganization—Saturday's Gathering Was of an Informal Character.

A meeting of the men who are agitat- ing a business men's club was held Sat- urday afternoon in the office of Colonel H. M. Boies. It transpired that as many as seventy-five names had been secured of proper candidates for mem- bership who would pay initiation fees of \$100 and dues of \$50 per year.

The gathering was informal and no temporary organization was even sug- gested. It was the opinion of those present that at least 100 men should become interested before any attempt to bring the club project to a definite issue. This understanding of the meeting terminated, and during this week the necessary twenty-five addi- tional members will be obtained; this done, it is quite probable that a club will be organized.
