

SILKS IN ALL THE LEADING STYLES, KINDS, COMBINATIONS, Shading & Novelty Effects

Now overcrowd the fixtures of our immense silk department to such an extent that we have determined to find relief by offering special values for 10 days, beginning

Tuesday, November 12

During that bargain period buyers will have our price lists pretty much their own way, the values being such as to induce sales, even if not for immediate use. At the same time, purchasers have the satisfaction of knowing that

THE MARKET OFFERS NOTHING NEWER, BETTER OR MORE DESIRABLE THAN CAN BE FOUND IN THE SPLENDID SILK STOCK NOW SUBMITTED FOR THEIR INSPECTION

For Street Wear, For Evening Wear, For Stylish Waists, For Nobby Linings, For Trimmings, For Anything

That silk weaves were ever used for, look our stock through. If your thoughts run in fashion's latest and most approved grooves we can fill the bill to the smallest detail.

Among The Special Values Are:

- 20 pieces 22-inch Gros Grain Silks in black and colored grounds; new and striking broche effects, suitable for waists or complete costumes. Special Price, \$1
15 pieces Fancy Seed Taffetas in fashion's very latest novelties, designed especially for fancy waists and trimmings. Special Price, \$1
20 pieces Tactitas with beautiful seed Camele stripe effects; style reaches its climax here. Special Price, 75c
48 pieces, 3 distinct styles, assortment and shade list unlimited. We had ladies' waists in mind when we bought these. Special Price, 69c
23 pieces, 22 in. Black Gros Grain, Brocades in correct styles for separate skirts, waists, etc. Special Price, 75c
15 pieces, 22 in. Black Gros Grain, Brocades in correct styles for separate skirts, waists, etc. Special Price, \$1

THESE ARE BUT VALUE HINTS Take the hint then and have the whole truth by a visit of inspection.

GLOBE WAREHOUSE

WAITING FOR THE POWERS MOSLEMS WITHOUT MERCY

The Only Hope for Unhappy Christians in Turkey. They Plan and Execute Butcheries with Unparalleled Cruelty--The Powers Must Interfere to Save the Extinction of Christians. Boston, Nov. 13--Reliable correspondents received in Boston from Constantinople states that the attitude of the Moslems in Marash at the end of October was so menacing that the heads of the Moslems called together on the governor asking special measures of protection. On Friday the governor having paid no attention to this request, the Moslems attacked the Christians, wounding quite a number and causing a general flight of all parties to their homes. The heads of the Moslems then sent a new petition for protection, this time in writing, and addressed separately to the governor and the commander of the troops. Still nothing was done to check the Moslems and a general assault was made on the Christian quarter, and a large number of Christians were killed and wounded.

The Armenian bishop and the Armenian Catholic bishop and the Protestant pastors sent a collective telegram saying that the slaughter was not to be allowed to go on, and that it was to be done to stop it. The Turks say that the reason of the massacre is the assassination of four police by the Moslems in Marash. The worst of it is that the Moslems and pashas consider this crime in another place as sufficient to justify the massacre in Marash. There is not a doubt that the massacre was ordered from here. The tone of the remark among the staff at the Sultan's palace has been all along that the Armenians should be killed before the reforms can be executed. Nothing has been done in any place to punish the criminals, but in all the places where the massacre occurred great numbers of Armenians have been arrested as though those who escaped had committed crime in escaping. You must not believe that the Armenians are sent out by the Turks about conflicts at these places where massacres occur. No conflict occurs. There may be some cases in a remote district where the Armenians elsewhere for indignation, but in every case so far where a massacre occurs it is a cold-blooded, deliberate affair, gotten up separately from any alleged cause. The Powers Must Intervene. Unless the powers intervene shortly in a way that will compel the Sultan to order the massacre to cease there is no knowing where the matter will end. The most infamous falsehoods as to attacks of Armenians upon Turkish women and children are being diligently circulated in the city and in the country in order to fire the hearts of the Moslems and the government is openly arming or favoring the arming of the Moslem populace, while searching Armenians to take away even their jackknives lest some Moslem should hurt them when the massacre is undertaken. The effectance here against the Sultan is taking more force. There was some revolt of the Albanian bodyguard of the Sultan and a fight of some importance in the palace grounds. A number of the Moslem patriotic committee attempted to kill the minister of marine. They had previously ordered him to resign on pain of death. It is said that the minister was only wounded, but it is very hard to get accurate information of any of these things. The situation is going to be worse before it is better. The feeling is that an American man of war should be sent to Beyrout, one to Smyrna, leaving at Alexandretta the Marbehead, now there, one to this city, and, if possible, one to the Black Sea coast. Washington, Nov. 13--Secretary Olney was closeted with President Cleveland for an hour this morning. On his return from the white house he stated to the United Press representative that he had received no dispatch from Minister Terrell confirmatory of the startling story transmitted from Constantinople to the United Press regarding the massacre of missionaries in Turkey. Berlin, Nov. 13--A dispatch to the Cologne Gazette from its correspondent in Constantinople says that all the Christian and Armenian teachers between Erzurum and Trebizond have been massacred.

LOSS OF THE KUNG PAI. Particulars Concerning the Destruction of the Chinese Craft. San Francisco, Nov. 13--Meagre particulars of the loss of the steamer Kung Pai, off Kinshaw Bay, received by the steamer Coptic. The Kung Pai belonged to the China Merchants' Steam Navigation company. She blew up when on a voyage from Tien Tsin to Kinshow. She was carrying troops, to the number of about a hundred, and had six foreign officers and one foreign passenger on board. Out of this number nine Chinese and two foreigners only are reported safe. All the rest seem to have perished. The Kung Pai was fifteen years old, having been built in Leith in 1880 and it had long been notorious that her boilers were in a dangerous condition. SHERMAN FOR M'KINLEY. He Will Lead the Protection Forces in Ohio. Los Angeles, Cal., Nov. 13--Colonel H. G. Ochs, editor of the Los Angeles Times, has received from Senator Sherman the following letter in response to a congratulatory note on the senator's decision to lead the military forces in favor of Governor McKinley's nomination for the presidency: "The recent elections have cleared the political sky and I believe fairly open for the nomination of Major McKinley. He will be heartily supported from Ohio, and I trust will be nominated and elected."

MORMONS RIDE ON THE RAIL. Masked Kentuckians Thus Take Two Exports from the State. Ashland, Ky., Nov. 13--At White Post, Pike county, last night a score of armed men, all masked, went into a church and, taking two Mormon exhorters, placed them astride rails and in that fashion escorted them across the river into West Virginia. They then released them with a warning that if they ever returned to Kentucky they would be horsewhipped, tarred and feathered and a rougher ride given them. YALE'S NEW SCHEME. A Second Foot Ball Club Will Play Princeton's Game. New Haven, Conn., Nov. 13--The Yale foot ball management have started a new scheme to develop the eleven for the Princeton game. A captain has been appointed for the second eleven and he will make his men play exactly

the game Princeton played against Harvard and Cornell. As Princeton has been playing strictly the same kind of a ball all the fall it is the opinion at Yale that she cannot completely change her style of play in time to meet Yale, and the Yale varsity, drilled by the second team in this same kind of work, should be better able to defeat it. Alex. Brown, the oarsman, and a prominent candidate for tackle, will be the captain of the second eleven this fall. PHILADELPHIA LEXOW. Additional Testimony Is Introduced in the Investigation of the Quaker City Municipal Affairs. Philadelphia, Nov. 13--The State Senatorial committee, which is investigating the municipal affairs of Philadelphia, continued its session this afternoon. Addison F. Bender, who during the past ten days has been examining the cleaning of asphalt paved streets in Philadelphia on behalf of the citizens' Municipal Association, was the first witness. He told at some length of the insufficient force employed in doing the work, which is contrary to the specifications of the contracts. The witness further testified to the unsatisfactory manner in which several streets are being paved. Bernard Bowen, who classifies as a practical pavier, whose occupation as walking delegate of the National Paviers and Ramblers association, testified that it would cost \$4 per yard to pave the streets according to the contracts, and that at the present price at which the work has been awarded (\$2.87 per cubic yard) the contracts could not be carried out. He told of the inferiority of paving blocks used in Philadelphia to those used in New York. Mr. Bowen testified to having sent several sworn complaints to the authorities regarding inferior paving, but that the complaints availed nothing. Dennis Mahoney, a contractor, stated that no "bitter" Belgian paving blocks were used in Philadelphia, as required by law, only rough paving blocks being utilized. Mr. Mahoney created a slight ripple of laughter when he declared that fitted paving blocks were used in New York and Boston because no other kind would be tolerated. The witness testified to the non-fulfillment of contracts as regards the removal of ashes, the cleaning of streets and the cremation of garbage. John Mancey, an ex-inspector of the collection of garbage, told of the feeding of the garbage to hogs in Delaware county, in May and June last, the American Incineration company and the United States Fuel and Manufacturing company, instead of cremating it. The board of directors of the city, who were also testified to the non-fulfillment of contracts as regards the removal of ashes, the cleaning of streets and the cremation of garbage. John Mancey, an ex-inspector of the collection of garbage, told of the feeding of the garbage to hogs in Delaware county, in May and June last, the American Incineration company and the United States Fuel and Manufacturing company, instead of cremating it. The board of directors of the city, who were also testified to the non-fulfillment of contracts as regards the removal of ashes, the cleaning of streets and the cremation of garbage.

Charles A. Richardson, who is affiliated with the Citizens' Municipal association, testified that the paving of streets by the street railways (the thoroughfares occupied by the railways) is done in a haphazard manner, and he also related an incident where he and other members of the association had in 1893 with the city authorities in the city and in the country in order to fire the hearts of the Moslems and the government is openly arming or favoring the arming of the Moslem populace, while searching Armenians to take away even their jackknives lest some Moslem should hurt them when the massacre is undertaken. The effectance here against the Sultan is taking more force. There was some revolt of the Albanian bodyguard of the Sultan and a fight of some importance in the palace grounds. A number of the Moslem patriotic committee attempted to kill the minister of marine. They had previously ordered him to resign on pain of death. It is said that the minister was only wounded, but it is very hard to get accurate information of any of these things. The situation is going to be worse before it is better. The feeling is that an American man of war should be sent to Beyrout, one to Smyrna, leaving at Alexandretta the Marbehead, now there, one to this city, and, if possible, one to the Black Sea coast. Washington, Nov. 13--Secretary Olney was closeted with President Cleveland for an hour this morning. On his return from the white house he stated to the United Press representative that he had received no dispatch from Minister Terrell confirmatory of the startling story transmitted from Constantinople to the United Press regarding the massacre of missionaries in Turkey. Berlin, Nov. 13--A dispatch to the Cologne Gazette from its correspondent in Constantinople says that all the Christian and Armenian teachers between Erzurum and Trebizond have been massacred.

Wanamaker Pays a Debt That the Republican Committee Repudiated. Indianapolis, Nov. 13--John Wanamaker, ex-postmaster general, has made his word good by sending his personal check to W. T. Durbin, of Anderson, for \$10,000, the amount repudiated in 1882, when Mr. Wanamaker was passing through this city, the State Republican committee asked him for \$10,000. Wanamaker refused to advance it and he would see that the national Republican committee repaid them. On this assurance Durbin, then an officer of the committee, borrowed \$10,000 for campaign use. The national committee repudiated the debt. Thus after three years and considerable pressure run through the line Mr. Wanamaker has made good his guarantee. LYNCHING IN GEORGIA. Negro Assailant of a Little Girl Hanged and Riddled with Bullets. Atlanta, Ga., Nov. 13--Homerus G. La., comes to the front with another lynching. Lewis Jefferson, the negro who last Thursday night attempted to assault little Miss Wilson Probel, after having been pursued for a determined posse, was captured and placed in jail. He made a full confession. While he was being taken before the magistrate at Ayrault for a committal trial, the officer in going through a thicket near town was suddenly attacked from behind by parties unknown, who were armed with revolvers and shot him in the back and the body riddled with bullets. DECISION ON BEANS. United States Supreme Court Says They Are Vegetables and Not Meats. Washington, Nov. 13--The United States Supreme court decided officially that beans are vegetables. The question arose in the case of Hyman Sons and others against the collector of the port of New York. The plaintiffs sought to recover duties paid upon beans under the vegetable classification, claiming that they should be admitted free. Chief Justice Fuller read the opinion of the court, holding that as beans are regarded as vegetables by common usage they should be so considered by customs officials. THEY SAW THE BROWNIES. Mrs. Cleveland and the Babies Are Spotters at a Matinee. Washington, Nov. 13--Mrs. Grover and Esther Cleveland were spectators at the matinee of Palmer Cox's Brownies in the Lafayette Square theater this afternoon. It was the first time the children had ever seen a stage performance. These Postoffice All Right. Washington, Nov. 13--A list of postoffice inspectors and notaries, found in an excellent and satisfactory condition in Pennsylvania, was given out by the postoffice department today. They are: Chamberburg, Shenandoah, Shick, Mahanoy City, Reading, Carlisle, Franklin, Beaver Falls and Huntingdon. Memorial Services. Reading, Pa., Nov. 13--Memorial services were held in Christ cathedral today in memory of the late Bishop Howe, in the presence of a large number of clergymen prominent in the Episcopal church. Bishop Potter, of New York, delivered the principal address. Senator Sherman Ill. Washington, Nov. 13--Senator John Sherman of Ohio, is suffering from a severe cold and intermittent fever. Although there is said to be nothing serious in his condition, he denies himself to callers.

MECCA OF THE AFFLICTED Invalids Continue to Flock to Denver in Great Droves. RAILROADS GIVE FREE FARE

The Miraculous Cures Imputed to Schlatler Bring the Deaf, Dumb, Halt and Blind from All Sections Seeking a Healing Touch. Denver, Nov. 13--At the Union Depot yesterday the scenes related those at the Grout's sanitarium, so graphically depicted by Zola. Every train that arrived, from the first break of day to midnight, was filled with its quota of sick, feeble, and emaciated invalids who have come for treatment by Schlatler, the New Mexico healer. This is the last week of the healer in Denver and the visitors are afraid that when he reaches a larger city it will be next to impossible to approach him for the laying on of hands. The invalids are as numerous as the able bodied among the travelers, and the lower hotels are turning away guests who desire to be within reasonable distance of the healer. In the early hours of the morning and they get ready to take their position in the almost endless line that haunts the healer's neighborhood. Colorado does not deter them from reaching in the early hours of the morning, and the residents of the vicinity do a thriving trade in hot bricks, and coffee to cheer the pilgrims. Big Unpaid Insurance. One special train arrived last evening carrying 300 people from along the line of the Union Railway company, to whom free passes had been given by the management. The conductor and the railway men had the supernatural healer. A circular had been issued by the Union Pacific announcing that the train would leave Omaha Saturday night and that all who suffered among the road's employes would be carried to Denver free of charge. When they arrived here last evening the interior of the depot resembled a hospital. They came with broken limbs, distorted arms, and fractures of various members that defied the best surgical skill of the best of our physicians. It is stated that this extraordinary faith of a corporation is due to the remarkable cure effected in the case of the wife of General Manager Dickinson in the latter part of 1894. She was a sufferer from a deafness that deprived her of the pleasures of life. No medical or surgical aid proved effective. She was taken to a hospital, but to the healer. When she departed she said she felt better already, and her friends noticed an improvement. But the change of course brought her into the hospital, and she was not to expect an instantaneous cure. Superintendent Dickinson is so overjoyed that he has issued a general order that as fast as the men can be taken from the hospital and returned to their homes they are to be allowed to come with their sick to Denver and return as speedily as possible, that others may take their place in the line before the Mexican Messiah. They were scattered all over town last night in the cheap lodging-houses. BASE BALL POW-WOW. Magnates of the National, Eastern and Western Leagues Meet in New York Powers Wants Repatriation. New York, Nov. 13--The annual meeting of the National Base Ball League was commenced to-day at the Fifth Avenue Hotel. The board of directors went into session first and got through the executive business. The treasurer's account was approved and accepted. A number of appeals from players asking to have fines cancelled during the past season remitted, were refused. A letter was received from John M. Ward, ex-captain of the New York Giants, that he had been discharged from the reserve list of players, as he has retired permanently from base ball, and keeping his name on the reserve list injures him in his present profession. Ward was referred to the National board meeting on the first of January. Baltimore was declared the winner of the championship of the league. The question of fines, umpires and Sunday playing were discussed, but no decisions were arrived at and they remain in exactly the same position as before. The meeting then adjourned until 11 o'clock to-morrow morning, when the first business to be taken up will be the election of a new president. A very important deal was made during the afternoon. Billy Nash, the captain and third baseman of the Boston team, was traded to the Philadelphia club. There were rumors of other deals but this was the only one consummated. Jack Doyle, ex-captain and ex-manager of the New Yorks, in great command, but Manager Irwin thought that if he was considered such a prize by others as might prove useful to the Boston team, he would not deal with him. There was a very strong delegation from the Eastern and Western Leagues in the hotel to-day. President P. T. Powers and his associates will apply for representation on the National board. The board has the jurisdiction over all matters concerning the minor leagues and the latter think they should have a personal representation when matters concerning them are discussed. SCHULER'S AWFUL CRIME. Murders His Wife and Eight-Year-Old Daughter and Then Shoots Himself. Evidence of Insanity. Laredo, Tex., Nov. 13--Last Monday evening a tall, fine-looking man, according to a woman, in great attire, the Hotel Hamilton was a very pretty girl, 3 years old. Yesterday at 3 o'clock the man hired a buggy and took the woman and girl to the depot despite the inclement weather. At 5 o'clock he returned the buggy and sat supper at the Hotel Hamilton, retiring afterwards. Last night A. Shepherd discovered two bodies lying in the brush in Chacon Bottom, just beyond a small reservoir, on the ground. Being afraid to touch the bodies he came in and notified recorder Pierce what he had seen. Officers proceeded at once to the place and searched the bodies of the woman and child. They were identified as the persons who had gone riding with Schuler yesterday evening. While the news of the murder was flying over the city another chapter in this horrible story was enacted at the Hotel Hamilton. At 8 o'clock this morning the proprietor of

the hotel knocked at Schuler's room and asked him where his family were. He replied that he had taken them last evening to Astec, where they had taken the limited to the city. "I think you are mistaken," said the proprietor. "Your family is not in Mexico." Schuler shut the door and drawing a revolver, shot himself through the heart. On his person was found a cigar case with over \$1,000 in greenbacks. The cigar case contained the name of Sam Kuntz. It is believed his brother is in Fort Worth and he was at once notified of the tragedy. Schuler stated during his stay here that he had been married to a woman named Schuler spent most of his time in saloons and his actions indicated that he was either unbalanced or meditating the horrible murders which he committed yesterday. Robbery the Motive. Later developments make it appear that robbery was the motive for the murders. The wife of Schuler was a woman named Mrs. Caroline Menn, Dallas, Tex. Her child was a girl of about 10 years. The murderer is supposed to be William or Sam Kuntz, of Kansas City, who was seen here at a railroad, and letters were found in his trunk addressed to William Kuntz, Grand avenue, Kansas City. In the murdered woman's trunk was found a marriage license bearing the names of Catherine Menn and Theodore Menn. A letter was found in the woman's effects, dated Oct. 4, from G. B. Brown, a Fort Worth, Tex., merchant, addressed to Mrs. Caroline Menn, Dallas, Tex., the merchant requesting her to send a check for \$25. From this it is inferred the woman had a bank account. She stated that Mr. Christen, her son, kept a hotel at Fort Worth, and it is believed Kuntz stopped at this hotel, found out the woman had money, enticed her to come here to murder her and a child of 5 years of age. Kuntz received her today from Fort Worth, adding that Mrs. Menn's son has left this city to come here. An insurance policy for \$3,000 in his own favor, a deed of trust, executed by Catherine Menn on property in East St. Louis, a photograph of Kuntz and pictures of a handsome young woman and a child of 5 years of age, were in Kuntz's trunk, besides the letters addressed to William Kuntz, Kansas City. FIVE LIVES LOST. A Steam Oyster Boat Sinks Near Rockaway Beach in a Heavy Sea. New York, Nov. 13--Five lives were lost this morning by the capsizing of the steam oyster boat James W. Boyle, near Rockaway Inlet. A strong wind from the northeast was rolling up a big swell over the shores which separated the ocean and the lower bay when the boat was blowing in. The tug boat Mutual, returning to the pier, saw a string of city-refuse scows saw the oyster boat headed to the eastward and making for the mouth of the inlet. The tugboat, seeing the oyster boat, which is the entrance to Jamaica Bay, that was at 7 o'clock. The tide was half ebb, and the tug was struggling against the waves, making slow headway. Half an hour later Captain Deakin saw the oyster boat steaming around the bell buoy, which marks the channel, and leading to the northwest for the inlet. The tugboat, seeing the oyster boat, which is the entrance to Jamaica Bay, that was at 7 o'clock. The tide was half ebb, and the tug was struggling against the waves, making slow headway. Half an hour later Captain Deakin saw the oyster boat steaming around the bell buoy, which marks the channel, and leading to the northwest for the inlet. The tugboat, seeing the oyster boat, which is the entrance to Jamaica Bay, that was at 7 o'clock. The tide was half ebb, and the tug was struggling against the waves, making slow headway. Half an hour later Captain Deakin saw the oyster boat steaming around the bell buoy, which marks the channel, and leading to the northwest for the inlet.
