Miss Stewart has stipulated that she shall have sole charge, occupying in addition to istruction, the position so ably filled by Mrs. C. L. Frey last winter. She will have associated with her Mrs. N. Y. Leet and Mrs. C. B. Scott, chairman of the Home's entertainment committee. The three will be unhampered by any unwieldy organization and will select their own aides and committees. THE RELIGIOUS WORLD

No little importance is attached to the proposed lecture by Rev. Dr. Chas. Parkhurst, of New York city, in the Frothingham, Dec. 17. A large number of cities have tried to secure Dr. Parkhurst for lecturing purposes, but have falled, and his consent to come to Scranton is a compliment to the city and the men whose overtures have secured the presence of one so noted. He differs in one important particular from most political reformers in that they are heard for a brief period and are then forgotten. Dr. Parkhurst has been heard for three years and has succeeded in bringing about one of the greatest municipal reforms ever known. He is still on the tidal wave of his own fearless fight and whether he will be finally successful cannot be determined until several years hence. Meanwhile no leader is thought of to supplant him. It may be that Scranton will not for a long period have an opportunity of seeing and hearing so powerful and tenacious a charcter, and it goes without saying that on the night of the lecture the theater will be nacked from pit to dome by persons night of the lecture the theater will be packed from pit to dome by persons who sympathize with him and persons who differ from him, and from persons of bad as well as good inclinations. The mixture of the audience will best testify to the greatness of the man who is probably more respected and hated than any public character in this country today. Y. W. C. A. State Convention.

Much importance is attached to the annual state convention of the Young

annual state convention of the Young Women's Christian association, which begins in Bloomsburg today and ends Monday, Miss Mary Dunn, the state secretary, was present at last Tucsday's quarterly Scranton convention, and gave an outline of contemplated work at the state meeting. The committee of '96, the body directing the work for the state convention of the Christian Endeavor Union to be held here next year, met in the Young Men's Christian association hall Mon-day evening. The important feature of the meeting was the inviting of the Tri-County Union to this city for its semi-annual convention on November 29. Mr. J. C. In the fall of 1889 he began to suffer from stone in the bladder, and his miseries were indescribable. Consulting an eminent physician in Philadelphia he was told that a surgical operation was necessary. So much did he dread the result, for if unsuccessful it meant death, that he put off the evil day as long as possible. While in this frame of mind, he chanced to see a notice of Dr. David Kennedy's Favorite Remedy. Although disheartened with his many futile attempts with medicine, he was futile attempts with medicine, he was induced to make one more trial. On July 1, 1893, he bought a bottle of

No Evidence of Healthy Growth.

An Evidence of Healthy Growth. St. Luke's church proposes to erect a four story stone parish building along-side the church on Wyoming avenue. Plans for the building show it a gothic Plans for the building show it a gothic structure, in keeping with the grand lines of the church. The women of the church have taken upon themselves the effort of securing the necessary \$25,000 for building. They propose to raise this sum by selling 1,000 subscription shares at \$25 each. The plans provide for an industrial school room, kindergarten room, gymnasium, auditorium and rooms for the church guilds and societies. St. Luke's church property is already classed in value with that of the Catholic cathedral parish, the First already classed in value with that of the-Catholic cathedral parish, the First Presbyterian and Elm Park churches. The new building will increase the value \$25,000, but it is more important in evidencing the fact that St. Luke's is properly practical and in touch with the emand of the world that the church must not be in the rear. Scran-ton is growing; so is St. Luke's.

M. Quad, the Detroit Free Press Man, Made Well by Paine's Celery Compound.

Mr. Charles B. Lewis is more familiarly known to the thousands whose life he has cheered as M. Quad. It must be more than a score of years since the country was laughing over the sayings of his honor and Bijah, chronicled by Mr. Lewis to the Detroit Free Press. From that time until now M. The Metropolitan Traction company reports gross earnings first seven days in November increased \$29,000, an average of over \$1,000 a day. At the same rate the month will show an increase of over \$120,000. A director says: "The system is now earning 7 per cent, per annum on its capital stock, and steady increase is expected."

The new railroad shops to be built at

steady increase is expected."

The new railroad shops to be built at Alexandria, Va.. by the Southern Railway company will be among the largest and best equipped establishments of the kind in the country. Officials of the system say that the establishment of these shops will not affect those already in operation at Manchester, just across the river from Richmond; that on account of the important connections of the Southern at Richmond the maintenance of the shops at Manchester is made necessary.

That the Great Northern people are still of the opinion that they will be successful in obtaining control of the Northern Pacific can be seen by the remarks of a director of the Great Northern company. He says: "The deal for the control of the Northern Pacific by the Great Northern company may be delayed a year or two, but its consummation is inevitable. In the end the security holders of the Northern Pacific must recognize that it is necessary to have the backing of a strong corporation to re-establish the company's credit. Nothing whatever can be done until the United States court hands down a decision on the appeal in the suit to restrain the Great Northern Pacific's interest. The lower court has already decided in favor of the guarantee and it is believed the deision will be sustained by the higher court."
