of Christian Missionaries.

Berlin, Nov. 17.—Prince Von Hohen-lohe, since his conference with the em-peror on Thursday, has intimated to Count Goluchowski, Austrian minister of foreign affairs, that Germany will consent to discuss the question of unit-ed action on the part of the European powers toward Turkey, so far as pro-viding protection to Christians and maintaining order are concerned. Although this assent does not com-mit Germany to any definite policy be-yond participating in negotiations, it

attitude of the government, which has hitherto been reluctant to admit that anything like coercion of the Sultan is likely to be necessary. The expecta-tion which is entertained in official quarters, that this decision of the gov-ernment will influence the Sultan is based upon the belief that the kaiser retains the friendship and confidence of the Turkish emperor. Since he and the empress visited Constantinople in 1889 the German emperor is the only Euroempress visited Constantinople in 1889 the German emperor is the only Euro-pean monarch the Sultan has person-ally met and the two sovereigns have every year since the visit exchanged friendly greetings. But the most potent factor in con-vincing the Sultan of the desire of Ger-many for a policy of moderate inter-vention in Turkey is the information which has been conveyed through

Armonians Massacred.

Armenians Massacred. The United Press reporter at Con-stantinople reports that at 6 p. m. on last Thursday M. A. Jewett, United States consul at Sivas, sent a telegram to Minister Terrell, informing him that 800 Armenians and ten Turks had been builded at Sivas had been 800 Armenians and ten Turks had been killed at Sivas, and that a large body of Kurds was said to be then approach-ing the town. This seems to show that the Turkish allegations that that Ar-menians were the aggressors are abso-lutely untrue, and that the Armenians were deliberately magsacred. Minister Terrell has also received a despatch from Harput, in the Fashalik of Diarbekir, dated Nov. 13, which says that in the fighting there 500 people were killed. One of the party, who is an old-time guide, fisherman and hunter, says that the boat he was in he thought was being twisted by some unseen hand, and for about fifteen seconds he thought the bottom was going out of the lake. The vibration seemed to go from southeast to northwest. It was distinctly felt in the villages of Sloatsburg, Hamapo, and Suffern, and occurred at 8.45 in the evening.

Last evening at about 10.30 o'clock the inhabitants of the mountain districts southwest of this village were startled by a shock similar to the one referred to above, but of not so long duration. It was noticed by a few only of the residents outside of the mountains. The shock seemed to be more distinct in the mountain districts in the neighborhood of the iron mines, and, as the mines are not in active operation at pres-ent, the shocks were without doubt caused by carthquake.

LIFE-SAVING SERVICE.

Interesting Figures Concorning the Work of a lieroic Body of Men-Their Small Compensation.

Washington, Nov. 17.—The annual re-port of the general superintendent of the life saving services shows that dur-ing the last fiscal year the number of disasters within the scope of the ser-vice exceeds that of any previous year by 79. This large excess is in a meas-ure found to be due to the extension of the service, but principally to the con-ditions of weather which prevailed dur-ing the year. While the work of the service is thus shown to have been in-creased it is satisfactory to know that the record of the year shows a smaller proportion of loss in both life and prop-erty than any previous year since the general extension of the service, except, as regards life, the year 1884. At the close of the last fiscal year the establishment embraced 251 stations-184 being on the Atlantic, fifty-three on the lakes, thirteen on the Pacific and one at the falls of the Ohio at Louis-ville, Ky. They will be taught to construct model roads on the farms of their experi-ment stations or on their college grounds, where they can be regularly used and thus become a lesson to all farmers who visit them. The secretary condemns the gratul-tous distribution of the publications of the department. In the year 1894-5 they aggregated in bulk \$00 tons, the ns, the distribution of which added to the de ficiency of the postoffice department. de

WATCH OVER HIS REMAINS.

Rich Brickmaker Had a Notion That He Might Bo Buried Alive.

Might Bo Buried Alive. Newburgh, Nov. 17.—John B. Rose, the wealthy brick manufacturer, before he died gave specific orders to have a watch put over his remains, for he al-ways had a presentiment that he would be buried alive. To this end the family of Mr. Rose ordered that the death watch be placed over his body at the Cedar Hill cemetery. Mr. Rose ex-pressed as his wish that this watch con-tinue for thirty days and thirty nights, but the other day the remains began to show signs of decomposition, and the two watchmen were discharged. The remains were placed in a receiving vault and the door left unlocked. The screws of the casket were, according to Mr.

and the door left unlocked. The screws of the casket were, according to Mr. Rose's directions, to be left loose, so that, in the event of his being in a trance and awakening, he could get up and make his way out with little or no trouble. The other day, when the death watch was discontinued, Joseph Rose, a son, ordered that the body be con-signed to the family plot in the ceme-tery. The grave had, in his absence, beeen lined with brick from the Jove ward an conception concern in the same

yard, an opposition concern in the same village, where Mr. Rose did business.

village where Mr. Rose did business. Young Rose promptly ordered that the grave be torn up, and all the Jove brick thrown out, to make way for brick from the Rose yard. This was done, and the final interment took place.³ In Mr. Rose's will his ecccentricity crops out. He leaves his favorite son, John B., who is now a Yale student, \$8,000 per annum, and the remaining three children are poorly cared for financially. There is already talk of a contest of the will, which was drawn by Lawyer E. A. Brewster. The village of Lawyer E. A. Brewster. The village of Roseton was founded by Mr. Rose. He was a strict Prohibitionist, and once became involved in a lawsuit through his efforts for the cause. Some brew-

the consignee arrived, and it was all thrown overboard. A \$5,000 monument has been ordered over his grave.

SCRAMBLE FOR LAND.

Seenes at Oklahoma Linble to Be Re peated in Woshington.

Spokane, Wash., Nov. 17.-The rush to the Nez Perce reservation is prov-ing even greater than was expected. From and through this city by every road leading to the garden spot are long road leading to the garden spot are long trains of "prairie schooners" and every imaginable description of vehicle car-rying loads of homeseckers. It is es-timated that when the opening gun is fired at Monday noon rext at least 6,000 people will begin the wild scramble for choice locations. The demand for humber has cleaned out the local desters, and it is now be-ing shipped into the points nearest the reservation from this and other points. By Monday might it is estimated that 2,000 homes will have been erected on the promised land.

WAR ON PULLMAN RATES.

Railroads Desiro a Reduction in Prices

Railroads Desire a Reduction in Prices of Upper Berths. Chicago, Nov. 17.—A morning paper says: All the railroads in the United States using the Pullman sleeping cars are about to present a unanimous peti-tion to the company to have the price of upper berths in its sleping cars low-ered at least 25 per cent. The Pennsylvania Railroad company has started the war against the Pull-man rates.

man rates. The matter has been kept extremely secret, only the general passenger agents knowing anything about it. A meeting of the general passenger agents of all the roads in the country using these cars will probably soon be called to take final action on the ques-

The Ultimate Issue.

The Ultimate Issue. St. Potersburg, Nov. 17.—The Russian newspapersdeclarethat the situation in Turkey is rapidly drifting to an acute phase that will inevitably culminate in the disruption and abolition of the Ottoman power in Europe. The Novoe Vremya says: "We are glad to ob-serve that Englishmen are becoming accustomed to the not distant prospect of Russia occupying Constantingle, for that must be the ultimate issue of the eastern question,
