BIG ATTENDANCE.

The Fire Laddler Fair Well Patronized by Their Friends.

The Mitchell Hose company's fair in the Watt building seems to be most popular, judging from the large number of people who are found there each evening. Saturday night was banner night as far as attendance goes, and it is thought that nearly 1,500 people were present.

is thought that nearly 1,500 people were present.

The entertainment furnished by the company each night is of the highest order, and is well received by the audience. Last night Professor Renic gave a piano selection in his usual excellent style. A recitation by Joseph Jenkins shows him possessed of good elocutionary abilities. David Lewis' fine voice showed off to excellent advantage in a tenor solo.

The programme was closed by "The Fishing Clown," by Ed. Weaver.
People are looking forward to Thursday evening, which will be firemen's night. On this night there will be a grand street parade, in which companies from Forest City, Carbondale, Vandling, Archbald and Jermyn will participate.

and Ribs Broken.

James Norton, who is employed at the Wilson Creek mine, met with a bad accident Saturday, and the report was circulated that he had been killed. However, though very severe, the injuries he received are not fatal, and he will ultimately recover, though it will be some time before he again does any work.

Mr. Norton was on his way home from work at the time when his light went out. At the same time he heard a trip of cars approaching, and for a moment was paralyzed, as he knew it meant death or severe injuries unless he could chance to find a place which he could get into. This was almost impossible in the darkness, and he had no time to light his lamp again. However, he squeesed up against a pillar as tight as he could and waited. The place was not quite wide enough, and place was not quite wide enough, and he was hit by the cars. Several ribs op the left side were fractured, and his right shoulder was dislocated.

The death of Gideon Winans, one of Meshoppen's most prominent business men, occurred yesterday, after an illness of several days. For many years he conducted the sole hardware establishment of the town, and not only built up a flourishing trade; but established a very enviable reputation for character and integrity. At the November election, 1894, he was a candidate for associate judge upon the Democratic election, 1894, he was a candidate for associate judge upon the Democratic ticket, and his successful opponent, Judge Lacey, says of him: "I considered him the hardest man in the county to beat. I couldn't say anything bad about him." At the time of the great fire, three or four years ago, which nearly swept Meshoppen out of existence, his business place was among those burned, and he never resumed the hardware trade aagin, but contented himself with doing a sort of private banking business. He was just in the prime of business life when death overtook him, and his loss to Meshoppen is a serious one. He left a wife, but no children. The funeral will be held at 1 p. m. to-morrow.

A drunk and disorderly from the west side of the river made things generally unpleasant on the streets Saturday evening, until finally a constable collared him, and, with an assistant, started for the jail. On the way, the inebriated individual fished an old revolver out of his pocket and essayed to blow his escort full of holes.. He was unfeelingly depied that privilege, and after spending the night in a cell, paid the burgess \$5 to settle the matter.

Attorney Paul J. Sherwood, of Wilkes-Barre, is here this week conducting the suit of Cynthia H. Decker, of Pittston, against the Lehigh Valley Railroad company. The action is brought for damages in the sum of 25,000 for the killing of the piaintiff's husband, Lewis W. Decker, at the Water street crossing, Pittston, Dec. 24, 1892. The claim is based upon the alleged negligence of the employes of the railroad company in running trains at a reckless rate of speed and failing to give proper signals. Decker was driving a span of horses, and while crossing the tracks the watchman suddenly closed the safety gates down and penned him in. Before he had a moment's opportunity to extricate himself, an engine bore down upon him,
