#### THE WORLD OF BUSINESS

#### STOCKS AND BONDS.

New York, Nov. 20.—It was generally expected in stock circles that the formal agreement of the Trunk Line representatives to maintain rates and the expected in stock circles that the representatives to maintain rates and the sound money speech by Secretary Carliste at the chamber of commerce dinner would have a good effect on prices this morning, but these favorable factors were offset by renewed foreign liquidation. The sales for London and Paris account about 15,000 shares in the aggregate, were all taken and after a slight dip the list improved. In addition to these liquidations the sum of \$1,000,000 gold was withdrawn from the sub treasury and it was common report that at least \$1,500,000 more will be forwarded on Saturday. This also operated against the market in a mild way. Near midday a moderate selling movement in the low-priced issues set in. Northern Pacific preferred fell to 14½ and leter railled to 15½. The weakness of the stock is due to fears of a heavy assessment. The Grangers were in the main firm and closed higher except for Eurlington and Quincy, which lost ½ per cent. The Gould stocks were firmer, Manhattan rising to 100 and Western Union to 88%. The Industrials were arratic, but left off firm. In the afternion a recovery of %a1% per cent. followed. The closing was firm in tone. Net changes show advances of ¼a1% per cent, Western Union leading. Sales were 188,775 shares.

The range of today's prices for the active stocks of the New York stock market are given below. The quotations are furnished The Tribune by G. du B. Dimmick, manager for William Linn. Allen & Co., stock brokers, 412 Spruce street. Scrange. est. est. lag.

The Reading coal tonnage for the week ended November 16 amounted to 327,859 tons, an increase over the same week last year of 5,420 tons. For the year to date shipments have aggregated 13,068,593 tons, an increase as compared with the same period last year of 1,189. 558 tons.

The Lehigh and Wilkes-Barre, according to the Hazieton Standard, is having a slope sunk on the Lykens Valley vein, which was discovered at No. 8 Honey Brook a short time are Vactorial the Brook, a short time ago. Yesterday the coal was reached in the new slope, and it will now be but a matter of a few weeks until it has reached the depth desired. In all there has been three veins weeks by the gang of drillers engaged there. One was thirteen feet in thickness, on which the new slope is being driven. Another was nine feet and the third one four feet in thickness. After the Lykens Valley is thoroughly opened the Lykens Valley is thoroughly opened up attention will be given the other two veins. With each of these seams in working order, the Honey Brook col-llery will have a supply of coal that can-not be exhausted for many years.

#### RAILROAD NOTES.

The business of the Burlington road The business of the Burlington road during October was unusually heavy and has never been exceeded but once, which was in 1892, when it handled 116,000 cars, or 10,000 more than this year, the aggregate being 106,000 cars. The road has introduced great economies in the handling of freight within a year, which have reduced the cost 25 to 50 per cent, per puls. This bear been to 50 per cent. per mile. This has been accomplished by making each train haul a scheduled number of tons, instead of twenty-five to thirty cars, as in the past, when part of them were empty. The operation of the road has also been fortunate in having no bad wrecks.

The Toledo-Ann Arbor Reorganiza-tion committee made application yes-terday at the New York Stock Ex-change to have the preferred and com-mon stocks and bonds listed. The ex-change of the old certificates for the new has been going on since Nov. 1 and is about half completed.

A satisfactory adjustment of the dif-ferences existing over emigrant busi-ness between the Canadian Pacific and the Grand Trunk roads has been reached at a meeting in Chicago. No progress, however, has been made in the attempt to get the Southern Pacific road into an agreement.

The decision of the United States Supreme court yesterday sustaining the Anderson act requiring the Union Pacific Railroad company to operate its own lines of telegraph will have the effect of giving to any other telegraph commany than the Western Union equal facilities for the transmission of dispatches to and from the Pacific coast.

The marriage of Miss Mary McAndrew, daughter of Anthony McAndrew, of Brownville, and John Leonard, of Scraton, took place yesterday aftermoon at St. Mary's church, Rev. M. F. Crane officiating. A reception was tendered the bride and groom at the residence of the bride's parents. Many people from Scranton wer present.

At about 12.30 yesterday morning fire broke out in the rear of the new silk mill, and in a very short time gained considerable headway. The fire company promptly responded and in a few minutes a stream was turned on the flames. The damage done will amount to about \$300. The origin of the fire is unknown. Some think it was caused by the overheating of the stored lime which had become damp. The brick-layers had just completed their work and had gone to their respective homes. A large number of spectators were present and considerable anxiety was expressed, for at times it seemed as if the whole structure would be destroyed. Misses Janet Allen and Mary A. Ward were visitors at Scranton yesterday.

The marriage of William Brown, a prominent young man of this town and Miss Maggie McArt, of Pittston, will be solemnized this evening at 7.30 o'clock at the home of the bride, on Railroad street. A large number of people from this town will attend the reception.

it builds the flesh up to a safe and healthy standard—promptly, pleasantly and naturally. The weak, emaciated, thin, pale and puny are made strong, plump, round and rosy. Nothing so effective as a strength restorer and flesh maker is known to medical science; this puts on healthy flesh not the fat of cod liver oil and its filthy compounds. It rouses every organ of the body to activity, purifies, enriches and vitalizes the blood so that the body feels refessied and strengthened. If you are too thin, too and strengthened. If you are too thin, too weak, too nervous, it may be that the food weak, too nervous, it may be that the food assimilation is at fault. A certain amount of bile is necessary for the reception of the fat foods in the blood. Too often the liver holds back this element which would help digestion. Dr. Pierce's Golden Medical Discovery stimulates, tones up and invigorates the liver, nourishes the blood, and the muscles, stomach and nerves get the rich blood they require.
