Mr. Gift did not hesitate to condemn the present indiscriminate immigra-tion system, while admitting that this country is free to all the world; but he argued that the constitutional and other haws would not condone the ad-mission of any but "true men." In reference to the meetings the fol-lowing has been received by The Tri-bune from Rev. Mr. Miller: "In schuling the announcement of ad-dresses to be delivered in Trinity church on the subject of "Unchastity," it may be necessary to add a word of explanation: It is not intended to inaugurate a regu-lation crusade against the social evil in this city, but rather to warn those whose hearts are not yet seared by this body and soul-destroying fame of hell. Under the conviction that prevention is far better than cure, and that the Christian ambas-sador dare "keep back nothing that is profitable," it is purposed to deal plainly with a subject upon which there is, too often, criminal silence. The national association numbers 5,000 members; therefore they have suffered from lack of organization. He urged that men be sent out to carry the gospel of organization. He spoke eloquently on the need of a home for travelers in their old age, and he resented the imputation that it would degrade into an asylum for bummers and srots. He was proud to say that the clement of this character in the asso-ciation was in no time more than a handful, and that even that small per-centage is fast dwindling away. For this reason the sermonic discourse for the general public is to be followed by separate meetings of men and women, to be addressed by well known and highly respected persons, whose opportunities for presenting needful facts are necessarily large. They say that Luther once threw his inkstand at the devil. However that may be, printers ink, if it reflects sound moral principles, is good stuff to throw at the devil of uncleanness. If it does not kill, its blackness rives his disguise the color of his real self, and thus alarms the unsupecting. It is therefore hoped that the usual help of the city press will be extended this effort in the interest of good morals, and that there will be no attempt to give this matter a sensational, and thus doubtless a harmful, coloring. Lovers of finished acting will enjoy a treat Wednesday evening, when Robert Mantell, the celebrated romanic actor comes to the Academy in one of the chirch. He preached morning and eve-ning to congregations that occupied every seat in the church. His morning discourse was on the text, "And when they had lifted up their eyes they saw no one save Jesus only." The transfiguration of Christ, said the speaker, was a sign to His apostles of his divinity, that they would understand his presence among them was about to cease; but His word was left for them to preach to all mankind. Rev. Mr. Nordt told his congregation that he had not come among them to preach any new doctrine; they shall hear from him only teachings laid down in the word of God. He touched brief-ly on the past troubles in the church and advised that the past be forgotten; the present can be made fruitful and with God's help the future will be bright. In the evening his text was, "Come strongest plays of the present day. It is entitled "The Husband," by Espy Williams, and gives Mr. Mantell ample winnams, and gives Mr. Manten ample opportunities to produce some most ef-fective acting as it is upon the "Fed-ora" order, the play in which Mr. Man-tell made his big success some years ago.
