INOUIRY

All the Evidence Placed Before Mayor Connell Last Night.

LITTLE MORE THAN A PARCE

Attorneys Will Make Their Arguments Next Week-Evidence Falls to Involve Either Lieut, Davis or Patrolman Block-Dr. Robinson Present.

The hearing upon the pulpit charge made by Rev. Dr. Robinson of the Second Presbyterian church, against Lieutenant of Police John Davis and Patrolman Block was continued last night before Mayor Connell in his reception office in the city hall.

Attorney Hawley, for Dr. Robinson had rested his case just before the close of Thursday night's session. The witnesses examined last night were nearly all brought forward by the defense, although several were called in rebuttal for the prosecution.

As on the preceding night the pre-ponderance of the testimony seemed to favor the accused men. This was the general opinion of disinterested spectators; their verdict is that a case has not been proved against the officers, but that Dr. Robinson had made his charge upon the flimsy assertion of one individual, and that their other witnesses were obliged to cover themselves with mire without being able to give evidence of a damaging nature against the

two officers. Dr. Robinson was present and sat near his counsel. He was alert to everything said and done, but might have been designated as only an interested spectator privileged to a good seat near the chief actors in the investigation, as he did not often offer a suggestion to his counsel or give other sign that he was one of the parties chiefly concerned. A spark of sensational testimony now and then perhaps caused him to turn his head and look at the witness closely, but generally he sat with a leg crossed and in an easy attitude and seemed to take the inquiry as a very ordinary thing. His expression seldom changed.

Mr. Guernsey entered the room about 9 o'clock and joined Dr. Robinson and Mr. Hawley. He had been in his store on Washington avenue with the four young men, witnesses of the complainant, who were waiting any possible summons to appear. They came with him to the city hall. The other principals of the inquiry were the same as on Thursday night.

Argument on Next Friday.

At 9:30 o'clock the evidence was all in and Attorney Scragg for the defendants said he was willing the mayor should make his decision without delay or arguments by counsel, or he was willing to argue his case at once. Attorney Hawley stipulated that arguments should be made but not until the evidence had been transcribed by the official stenographer. It was ascertained that transcribing the evidence would occupy several days, and Friday evening of next week at 7:30 o'clock, was decided upon as the time for arguing

the case. Colonel E H Ripple was the first witness called by the defense. When was heard mention of so prominent a personage there was a hum of expectancy among the spectators. Mr. Scragg explained that the good character of the accused was to be shown by Colonel Ripple's testimony. Mr. Hawley waived such evidence, saying the character of the defendants was not involved, that the prosecution was endeavoring to prove only one specific charge. However, Col. Ripple was ex-

George Marshall's Testimony. The evidence of George Marshall for the defense was the lengthlest of the evening, and was as favorable to the accused as it was damaging to the defense. He is one of Mr. Guernsey's Sunday school scholars, and has been a companion of the four young men whose affidavits led to the investigation. He was solicited to make affidavit but his admissions failed to meet the needs of the prosecution, and he was set aside. His examination by Mr. Scrage

Will you tell us about it? Coming out of the hall, Karcher stepped into one of the pariors. I walked on out. There was a young fellow there by the name of Armstrong. The two gentlemen came out of the hall and argued there. I saw three or four officers across the street. I told them to keep still; that there was some cops across the street. One of them said he didn't care for the cops and started the racket on the porch, and they came the racket on the porch, and they came over and nabbed them, and there was also a woman taken out of the parior. Palmer's testimony admitted that he had conversed with the band men, and explained the object of the talk. He stopped them to notify them of the arrest of an acquaintance of theirs from Binghamton. He did not

notice the others who were standing near at the time. Wallace Moir, a son of Captain Jame Moir, was called by the defense and testified that George Young said he was sorry he signed an affidavit, and had to appear as a witness against the officers, and that he would like to have a talk with Patrolman Block about

How Raids Were Made.

Chief of Police W. T. Simpson was called by the defense. His testimony showed the system of making police raids on disorderly houses and was intended to show that Patrolman Block could not have told Young, as Young intimated, whether or not a police raid would or would not be made on certain nights. Chief Simpson said the captain of police might know of an intended raid at 6 o'clock in the evening; the lieutenants might know of it an hour or so before it occurred, but the patrolmer vere ordered to assemble at police headquarters in ignorance of the duty to be performed and never knew the objective house until on the way there and seldom were aware of the place until it was reached. He admitted it was pos sible a lieutenant might reveal an intended raid an hour or so before action, but such a thing was not probable.

Young Koehler was called in rebuttal and denied telling George Marshall, the witness for the defense, that he, Koehler, would be "amply rewarded" for asdsting the prosecution. He said Mr Guernsey had promised him that his name would not be known in the matter, that he would not have to testify and that only Mr. Guernsey and Dr. Robinson would know anything about it. The witness said he had told Mr. Guernsey since the investigation began that no was willing, under the circumstances,

to give evidence in public. J. W. Guernsey was called by Mr. Hawley, Questions by Mr. Scragg to George Marshall, which Marshall had refused to answer, had left the inference that Mr. Guernsey had been paying the tuition of George Young, one of the prosecution's witnesses, at the Scran ton Business college. Mr. Guernsey' testimony was contained in an answel to a question by Mr. Hawley; he said he does not pay Young's tuition. He was not examined by Mr. Seragg.

RELIGIOUS NEWS OF WEEL

Thoughtful Article on the Lord's Supper by Miss Emilie Byans.

ANNIVERSARY OF ELM PARK

It Was Observed at the Church on Wednesday Evening - Anniversary Sermons Will Be Delivered on Sunday-Notes of Church Work.

The December number of "Wawr" a religious magazine issued at Utica in the interests of the Weish Baptists the country, contains an article on "The ord's Supper," from the pen of Miss Emilie Evans, daughter of School Controller James A. Evans, of North Hyde Park avenue. Miss Evans read the article at a recent convention of the Welsh Baptist churches of Northeastern Pennsylvania, held at Plymouth. The attempt shows careful thought and is well written. Miss Evans first snows the connection that exists between Bap-tism and the institution of the Lord's Supper. "One is the outgrowth of the other. One is the birth or manifestation of a new life, the other the continued nourishment of that life among those who are partakers of the Divine nature. Our Lord not only instituted these two sacraments, but also advocated their form and office. The Lord's Supper was clearly intended as a mean of Christian instruction. As a picture when looked at by the eye of faith, this memorial is infinitely inspiring." Miss Evans then tells of the spiritual effects of the sacrament. In conclusion sh writes: "How many of our ministers say as plainly and often as they ough to say that neglect of the Lord's per is in a Christian a sin which leaves him without the ald of Christ's proffered life, and is the sure forerunner of many other, sins? How many do we hear urging as earnestly and frequently as they should that we are weak and inconsistent, worldly and unhappy, because we habitually neglect to seek the communion of Christ's life which is offered to us in the Lord's Supper. If we had more of such teaching, we would not have to lament, as now we too often must, the inconsistency of Christian lives and contempt of Christian orai-

Serious Trouble. A crowd at the corner of Division street and Main avenue thought itself justified in severely beating Edward Kellet, a Taylor constable, at 11.30 'clock last night.

Kellet had assisted Conductor Dwyer in ejecting an intoxicated passenge

saved the Taylor arm of the law from being more seriously damaged. He was permitted to board a car for home.

Study No. 1.

Man, mind thyself, is an old unwrit-ten commandment which every spender of money should keep before them. Turnquest, the jeweler, 205 Washington avenue, believes he can save you money in the purchase of diamonds, watches or jewelry. If he can't, he advises you to buy where you can get better values than he form.

GRAND AND PETIT JURORS THE WORLD OF BUSINESS

New York, Dec. 6.—The buils in the industrials had a field day at the stock exchange, they had their opponents on the run from start to finish of the session. Sugar was taken in hand and marked up 1% to 105%, a decline to 104% followed, but just at the close a big buying order was placed in the room and the stock soared to 107%@%.

ulation in the railway list was checked at one time by the engagement of \$2,-600,000 gold for export to Europe tonorrow, but in the afternoon session a better demand prevailed and on cover-ing of shorts an advance of %@% per cent. took place, the improvement ing well distributed. The closing was strong under the influence of the spurt in Sugar. Net changes show gains of 140% per cent. in the railways and 1404% per cent. in the industrials.

Total sales were 295,007 shares. The range of today's prices for the active stocks of the New York stock market are given below. The quotations are furnished The Tribune by Will Linn, Allen & Co., stock brokers, 412 Spruce street, Scranton.

> INDUSTRIAL. cliowing is a comparative table of Scranton Traction company's oper-us for the month of November and

30. The percentage of operating expenses to gross earnings is a feature of the showing; for the month of November it was only fifty per cent; for the five months ended November 30 it was somewhat less than fifty per cent. The conditions for economy in operation are, of course, present in an exceptional degree, the item of coal being (not as usual with other companies) of small consequence. The showing for the month of November and for the five months ended November 30 is given in detail, as follows:

In Massachusetts the share of women In Massachusetts the share of women in the management of industrial enterprises is increasing. In the case of partnerships this share is small, amounting to only 2.48 per cent. In 1894, and that percentage showed a decrease as compared with the preceding year. In the case of corporations, however, the share of women is greater. For example, women constitute 32.55 per cent. of the total number of stockholders in 1894, as compared with 32.13 per cent. in 1893. The percentage of increase was greater proportionately in the case of greater proportionately in the case of women stockholders than in the case of men, for while the number of male stockholders increased from 21,927 in 1893 to 21,610 in 1894; a gain of 1.47 per cent., the number of females increased from 11,919 to 12,461, an increase of 4.55 per cent.

The total amount of wages paid in Massachusetts in 1894 was \$111,103,085, a decrease of \$11,392,852, or 9,30 per cent., as compared with the preceding year. In every one of the leading industries already mentioned a decrease was noted ranging from 1.93 per cent. in the case of boots and shoes to 16,34 per cent. in the case of carpetings. The average yearly earnings for all classes per cent. In the case of carpetings. The average yearly earnings for all classes of wage-earners in the industries cov-ered was \$421.81, which represents a decrease of \$14.32, or 3.28 per cent. as

RAILROAD NOTES. President Chauncey Depew, in a speech recently at Buffalo, N. Y., said: "The whole of the tonnage on the oceans of the world last year was about 140,-000,000 of tons, while the tonnage of the rallways of the world caried 100 miles was about 1.400,000,000 of tons. There are 400,000 miles of railways in the world, of which 180,000 are in the United States. Of the 1.400,000,000 of tons carried 100 miles last year on the railways of the world 800,000,000 of tons ways of the world 800,000,000 of tons railways of the world caried 100 mile were carled on railways of the United States. You take the 600,000,000 of tons carried 100 miles on the railways of the world outside of the United States, and world outside of the United States, and then you add to it 140,000,000 carried on the ocean in the commerce of the world upon the seas, and we still have in the 800,000,000 of tons carried on the rail-ways of the United States 60,000,000 of tons more than on all the railways of the world outside of the United States and in all the ocean commerce of the world put together. To this must be added the tonnage of the lakes, rivers and canals. This traffic is carried by the American railways at an average of 8 mils per ton per mile, while the railroads of Great Britain charge 2 cents and 2 mills, the government-owned roads of Germany 2 cents and 6 mills, of Italy 2 cents and 5 mills and of Russia 2 cents and 4 mills,

The Western roads have finally succeeded in forming a Transcontinental Passenger association with the Canadian Pacific as a party to the agree-ment. It will deal only with through business from Chlcago, St. Louis and St. Paul to the Pacific coast, and, it is St. Paul to the Pacific coast, and, it is
the understanding, will not cover immigrant traffic. The chairman is to
be B. D. Caldwell, who has occupied
the same relation to the old Western
Passenger Association Trunk Line
committee. There still remain to be
secured the signatures of some smaller
roads, of which the most important is
the Denver and Rio Grande. If any
of these raise objections another will of these raise objections another will have to be held, but it is believed that all will assent to the plan.

Arrangements are now being made for the Gulf passenger department for an interchangeable mileage book, which is to be good on Gulf. Union Pawhich is to be good on Gulf. Union Pa-cific and Fort Worth lines. The Gulf will honor Union Pacific mileage and also mileage issued by ne Fort Worth branch, and in return the Union Pacific onor both Gulf and Fort Worth mileage.

Texas courts have just decided that railways are bound to furnish cars suitable for the transportation of the particular freight, and that they are not relieved of such liability even when the shipper examines the car and does not object to its suitability.

In the federal courts it is held that the fact that the local rate is higher than the corresponding part of the through rate is not in itself proof of unjust discrimination.
