RAILROAD NOTES.

The conductors on the northern divi-sion of the Delaware, Lackawanna and Western railroad are much annoyed over a mythical story which appeared in the Hallstead Herald of recent date. The story was to the effect that one of the passenger conductors was carrying on a flirtation with "a young woman who wears very fashionable clothes and a gutta percha smile and whose custom it is to board a train at Nicholson." What then takes place is deson." What then takes place is de scribed by the Herald as follows: "The scribed by the Heraid as follows: "The scheme is for madam to take a seat by herself and allow no one else to sit with her, until the gallant conductor has finished punching the tickets, when he comes back and drops into the seat with her, and words cannot tell what a nice little chat they have." A long and harrowing tale is then related concerning the way the heartless woman with the "gutta percha smile" freezes everyone else out of the seat that it may be one else out of the seat that it may be reserved for this conductor. Of course the story is a fabrication pure and simople for no other than the editor of the Herald has seen such conduct on the part of any of the northern division passenger conductors. At the same time such statements should be frowned equal property at Crystal Lake in upon as they tend to cast odium on value. The new management of the Atcheson, Topeka and Santa Fe Railway com-pany has decided to cancel on January 1 every contract of every description held by or against the old company and begin over again. This decision applies to traffic contracts with other corpora-tions, railroads and otherwise, and in fact contracts of every kind. Wheeler H. Peckham, of New York, counsel for the Union Trust company, holds that the foreclosure sale wiped out every-thing in the shape of contracts, lia-bilities, liens and obligations of all kinds, and the purchaser starts out entirely fresh. The first announcement is that the contract with the Pullman | Pine street, company has been broken. This does not mean, however, that Wagner cars will be put on the Santa Fe in the fu-ture. On the contrary the contract with the Pullman company undoubtedly will be renewed. The contract with the Wells Fargo Express company will he the next one to be abrogated, but it also will be renewed. There is a general impression that contracts may be the company.

The Menorgabela River Railroad company, a line closely identified in ownership with the initituors and Ohio, has purchased the West Virginia coal land controlled by the Menongahela Coal and Coke company. The railroad line runs from Clarksburg to Fairmount, W. Va., touching the Baltimore and Ohio system at both of these points. Short branch line extensions will be constructed to tap the field at numerous points. The output will reach the market over the Baltimore and Ohio lines, though officials of the latter company disavow any closer connection with the

The Pennsylvania company will dispose of all of its old style passenger quipment, and in its place put the most nedern equipment, even to the express and baggage cars. The passenger coaches are to be similar to those ex-hibited at the World's Fair. It is proposed to have western Pennsylvania lines as well equipped as are the Pennsylvania lines east of Pittsburg.

An American company has been incorporated to complete and operate a railroad from Bogota, the capitol of Colombia, to Giradot, distance ninety-three miles. When finished this line will afford easy travel between the capital and Cartagena, on the Atlantic coast. The company intends to pur-chase the new locomotives and cars in

A Birmingham special says it A Birmingham special says it is learned on reliable authority that the IIlinois Central and Southern railway, have about concluded the joint purchase of New Orleans and Northeastern, the Alabama and Vicksburg and the Vicksburg, Shreveport and Pacific railroads with a total mileage of about 500 miles in Mississippi and Louislana.

It is asserted that no attempt will be made at this session of congress to se-cure a repeal of the anti-pooling clause of the interstate commerce law. The reason assigned is that congress will be too busily engaged this session in considering political and financial quesons to find time for the enactment of railroad legislation.

It is understood that the officials of the Pennsylvania railroad are among the foremost in the efforts to secure more profitable westbound freight te for anthracite and will exert considerable pressure upon their associ-ates at the meeting to be held on Fri-
