COMMITTEES OF THE HOUSE

Speaker Reed Announces His Assignments for the Present Term.

MR. DINGLEY IS THE LEADER

He Is Made Chairman of the Ways and Means Committee--Ex-Speaker Grow and Congressman Scranton Are Remembered--Other Selections.

Washington, Dec. 22.--Speaker Reed cleared the way yesterday for action by the house of representatives by announcing the list of committees for this congress. Several surprises were occasioned by the reading of the list, but generally the assignments made had been discounted by current rumor. There was general satisfaction with the work of the speaker and he was commended on all sides for the fairness and ability as well as the consideration for public interests displayed in discharging the delicate and arduous task.

The message of the president urging congressional action to relieve the present financial distress was read and referred to the committee on ways and means, as was also the resolution providing for a holiday recess. It was said by the leaders of the house that it was probable that the president's recommendation would be followed and no holiday recess taken. Messrs. Bankhead and Clark (Dem., Ala.) and Hutchins (Dem., Tenn.) were sworn in on the floor for the first time this session and were sworn in.

The chaplain referred in his prayer to the grave and momentous problems facing the nation. For the solution of these he prayed for guidance from on high, "so that peace and tranquility may once again be made manifest on the land."

After the reading of the journal Executive Clerk Pruden was announced with the president's financial message sent yesterday to the senate. Immediately thereafter a message was received from the senate announcing the passage of the house bill appropriating \$100,000 for the expenses of the proposed Venezuelan boundary commission.

The message from the president was heard with respectful attention, and with its close the speaker said that it would be referred to the committee on ways and means, and announced the composition of the committee. This having been done the full list of committees was read by the speaker.

PHILADELPHIA WAS QUIET

No Cars Were Operated by the Traction Company Yesterday.

PEACE CONFERENCE IN SESSION

Traction Officials Refuse to Recognize Representatives of the Amalgamated Association--Business Has Been Killed by Strike--Trouble Ahead.

Philadelphia, Dec. 22.--For the first time since Tuesday when the strike of the motormen and conductors of the Union Traction company began peace and quiet reigned in the streets of Philadelphia. This was due to the decision of the Traction company to make no attempt to run any of its cars today. This decision was adhered to since Tuesday the police force of the city has been on duty almost continuously and the lull in hostilities today afforded the men a much needed rest.

SELLING OUR STOCKS.

Speculators Will Make Money on American Securities at Berlin--The Bears Are Aided by the Press.

Berlin, Dec. 22.--Public interest in Berlin in the quarrel between the United States and Great Britain has never been highly strained and bids fair to become rapidly lessened here, in regard to the political aspect of the question. On the other hand, however, financial anxiety is on the increase. The operations on the stock exchange in Frankfurt and Vienna, on Saturday, showed a great tendency to take the situation seriously. It is true that the situation like a war panic prevailed, but the selling movement was not in such a measure as to indicate that the financial position must become much worse than it is, whatever may happen in relieving the political difficulty.

THE MAN RESPONSIBLE.

Schomburgk, Who Drew the Venezuelan Line, Once Sold Tobacco.

Washington, Dec. 22.--An interesting fact in connection with the famous Schomburgk line which has escaped our notice is that the man who provided the British government with that boundary came to this country from Germany when he was twenty-two years old after working for some time as a clerk in Boston and Philadelphia, became a partner in a Richmond, Va., tobacco manufactory in 1828.

The factory was burned down and Schomburgk drifted to the West Indies, where, after unsuccessful ventures, his botanical work attracted the attention of the London Geographical Society and secured means to explore the unknown region of the Orinoco, where he traveled from 1833 to 1839, when he discovered the Victoria Regia Lily and numerous other plants. This work led the British government to commission him to suggest a boundary between Venezuela and Guiana and to make further explorations. The line was drawn and he was knighted by the Queen for his services.

WILL HAVE NO CHRISTMAS

Congress Will Devise Means to Fill the Financial Staking.

VARIOUS REMEDIES PROPOSED

Amendments to the Tariff Law Will Probably Be Made for the Purpose of Increasing Revenue--Silver Schemes in the Senate.

Washington, Dec. 22.--For the first time since the short session of the Forty-seventh congress, in the winter of 1882-3, congress will enter holiday week tomorrow with the intention of sitting through the season usually devoted to recess. The occasion for this unusual zeal and devotion to public interests was President Cleveland's message of Friday last, which asked the congress not to take its usual respite from labor at this season of the year, but to remain assembled until the legislation necessary to relieve the financial situation of the government. The house will enter upon this work promptly tomorrow, though its committee announced on Saturday. The ways and means committee will meet at eleven o'clock and proceed as rapidly as may be with the consideration and preparation of a bill to meet the condition which confronts them.

The measure of relief which it is expected the committee will propose will include, either in one bill or several, as may be deemed most expedient, some revision, such amendments to expire at the end of thirty months; authority to the secretary of the treasury to issue a three per cent bond for the purpose of maintaining the gold reserve and for no other purpose, with a proviso that the redeemed greenbacks shall not be used as currency; and other measures which should be retained as long as necessary as part of the redemption fund; authority to issue to national banks circulating notes up to par of the bonds deposited as security therefor, and to reduce the tax on national bank circulation; and authority for the issue of certificates of indebtedness to meet temporary deficiency in the receipts until the revenue can be provided.

WRECK OF THE WILLOWBANK.

Members of Her Crew, with One Exception, Were Saved.

Plymouth, Dec. 22.--The British cruiser Blake arrived here today from Chatham. She reports that while off Portland at 5 o'clock this morning she passed a large steamer, the Berlin, which signalled that two of her boats had been searching for three hours for the British bark Willowbank, bound for Glasgow, with which vessel the Berlin had been in collision. No trace of her could be found. The Blake afterwards saw an empty boat belonging to the Willowbank.

Berlin had a hole in her bow. She proceeded through the channel. Those on the Blake could not say whether the Berlin was the steamer of the same name belonging to the International Navigation company. This steamer sailed from Antwerp for New York yesterday, and was reported to have passed Dover today.

Shot Her Assault. A Duluth School Teacher Uses a Revolver on a Highwayman.

Duluth, Minn., Dec. 22.--A highwayman was shot and wounded last evening by Miss Mary G. Miller, a teacher in the public school, while attempting to rob her on a deserted street in West Duluth.

Queen and the Trouble. She is Showing Much Anxiety Over the Venezuelan Difficulty.

London, Dec. 22.--The Queen is showing the keenest anxiety over the Venezuelan difficulty. Lord Salisbury was closeted Saturday at the Foreign Office, not seeing the Queen until the evening.

NEED NO RECRUITS.

The Red Cross Society Has Plenty of Trained Assistants.

Washington, Dec. 22.--So many applications for accompanying the Red Cross on the proposed Armenian relief expedition are coming from nurses, doctors and people of all other vocations, and all nationalities, nearly that the following general reply has been prepared:

At the present time it is not possible to determine the number of assistants that may be required, nor of the character of the help that will be needed. The Red Cross has a dozen trained active field service in a dozen great disasters, has drawn into its ranks a staff of faithful and devoted helpers, and every year at a day's notice, and that staff, for the present, seems all sufficient.

A Report That She Has Offered to Act as Arbitrator in the Trouble.

Paris, Dec. 22.--The Temps publishes a dispatch from Rome saying that Italy has offered to act as arbitrator of the difficulty between Great Britain and the United States.

SPAIN WANTS MONEY.

Madrid, Dec. 22.--The government is endeavoring to raise a loan of 50,000,000 pesetas from the Spanish banks for the purpose of prosecuting its campaign in Cuba.

General Martinez Campos has been authorized to reduce the duties upon imported railway material upon his representation that the perfection of the Cuban railway system is imperative to the interests of Spain.

RAPID FIRING GUNS.

The Driggs-Schroeder Type Stands the Test Well.

Washington, Dec. 22.--The reports of the ordnance board charged with conducting tests of four-inch rapid firing guns submitted for acceptance by the army have been received by the chief of ordnance and show that two of the guns tested burst during their trials. The other gun presented--that of the Driggs-Schroeder type--stood the test well and as a result of its inspection the ordnance board reports that the gun has shown itself to be a simple, safe and efficient mechanism for a rapid fire gun of this character. In the rapidity test the total time for the twenty-five rounds fired was two minutes and thirty-four seconds.
