GOLDEN MEDICAL

DISCOVERY

Many years ago Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., compounded this medicine of vegetable ingredients which had an especial effect upon the stomach and liver, rousing the organs to healthful activity as well as purifying and enriching the blood. By such means the stomach and the nerves are supplied with pure blood; they will not do duty without it any more than a locomotive can fun without coal. You can not get a lasting cure of Dyspepsia, or Indigestion, by taking artificially digested foods or pepsin—the stomach must do its own work in its own way. Do not put your nerves to sleep with so-called celery mixtures, it is better to go to the seat of the difficulty and feed the nerve cells on the food they require. Dyspepsia, Indigestion, Biliousness and Nervous Affect.on, such as sleeplessness and weak, nervoe feelings are completely cured by the "Licovery." It puts on healthy flesh, br nge refreshing sleep and invigorates the whole systems.

Pirs. K. Hanke, of No. 896 North Halsted St., Chicago, Ill., writes: "I regard my improve-ment as simply wonderful. Suce taking Dr. Pierce's Golden Medical Dis-covery in connection with his 'Pleasant Pellets'! I have onin. with his 'Picasant Pellets' I have gain-ed in every respect, particularly in flesh and strength. My liver was dreadfully enlarged and I suf-fered greatly from dyspepsia. No phy-sician could give relief.

A Dwelling House Destroyed by Fire on Sunday.

An alarm of fire was sounded Sunday night pust as the people were going home from church. The alarms that are generally sounded nearly always prove to be of the fake variety, but this was an exception. The alarm was sounded for the Fourth ward and the sounded for the Fourth ward and the Columbias and Mitchells were soon tearing toward the fire. It proved to be a house situated on Cottage street, owned by Thomts Gilmartin and occupied by a family named Cook. The house was totally destroyed, as the flames had gained such headway when discovered that it was impossible to flames had gained such headway when discovered that it was impossible to extinguish them. The Cottage Hose company, who were first on the scene, deserve great credit for the work they did. The fire had such headway, however, that little could be done except to keep it in check until the arrival of the other companies. The house was a two-story frame structure with kitchen attached and was worth about nine hundred dollors. It is not known how the fire was started as there was no one in the house at the time. It is thought, though, that a lamp which had been left burning exploded.

FRANK SMITH FOR MAYOR. Will Probably Be the Republican Candi-

date at Spring Election. probable that Frank Smith will be the Republican candidate for mayor in the coming election. A memorial is now being circulated through the city now being circulated through the cash which has already been signed by a good many of the prominent Republicans, asking him to become the candidate for mayor.

This has become necessary in order to prevent disaster overcoming the Republican ranks. Two men were canus-dates for the office, each believing he was the people's choice. Of course this factional difference was not promising for the Republicans and they urged the choice of some man who possessed qualities for a successful administra-tion and who was not counceted with any faction. In looking around for some one who would fill these requirements, some one proposed the name of Frank Smith. This met with general approval and the general sentiment was voiced in the petition which is now be-ing circulated.

The Mission Closes.

The St. Rose mission, which has been in progress for the past two weeks, under the direction of five Paulist fathers from New York city, was brought to a close Sunday evening. The farewell sermon was preached by Father Burke, who took for his text the fifty-ninth verse of the sixth chapter of St. John: "He that eateth me, the same also shall live by me." The sermon was a most eloquent one and the large congregation of men listened with large congregation of men listened with the greatest interest. It was full of patriotism. "Catholics," said he, "should be first to spring to the defense of their country if her safety or honor de-manded it."
