Scranton. At about 3 o'clock yesterday morning our town escaped one of the most dan-gerous conflagrations in its history Fire broke out in the rear of Thomas Newton's residence and being aided by the explosion of a barrel of oil, gained considerable headway before a stream could be turned on. Had it not been for the timely arrival of the hose com-pany, the flames could not be fought and the whole street, including the business portion of the town, would have been wiped out. The fire occurred on the same site that was visited about nine years ago, when seven or cight large buildings were destroyed. Mrs. Newton lost two hundred dollars in cash, which she had put away only a
