It was given by children of both Methodist and Presbyterian Sunday schools and the choruses were full and well rendered. Five solos were sung by little girls with clear, sweet voices. In the dialoges clear, sweet voices, in the dialogs all spoke and acted in the most natural Christmas enthusiasm. The most amusing feature was when about thirty little people, becoming tired of waiting for Santa Claus, went to sleep waiting for Santa Claus, went to sleep on the platform, some in chaira and some in groups on the floor. While thus waiting seven fairles clothed in white appeared and waved their wands over the sleepers, at the same time singing softly. After they disappeared the children awoke and looked for them. RAILROAD NOTES.

It is reported that the Eric railroad, under its new organization, has discontinued the payment of mileage to Fullman's Palace Car company for hading its cars over the Eric tracks. When the Eric railroad went out of the hards of the receivers the new organization, it is alleged, threw out the contract with the Pulman company which tract with the Pulman company which had been in vogue with the old company. The Pullman company, it is said by District Passenger Agent Seely, of Elmira, N. Y., was notified on November 2s that unless the company desired to run its care over the Erle lines without charging mileage their use would be discontinued. It is reported that the Pullman company was given forty-eight hours to decide whether or not to accept the proposition. In the many have fifty cars ready for instant use. Before the forty-eight hours had ex-pired the Pulman company is said to have accepted the situation.

Advance figures furnished by the Railway Age, of Chicago, show that the railway foreclosure sales in 1895 far cellused those of any other year in respect to mileage and capital involved. During the year fifty three reads were sold, aggregating 13,129 miles of lines and representing \$333,716,000 of bonded debt and \$424,060,000 of capital stock making a total of \$775,776,000 of bonds and staock. In respect to the railway insolvencies the record for 1895 is more favorable than for the three preceding years. Receivers were appointed for thirty-one roads, with 4,019 miles of lines, involving \$222,211,000 of bonds and \$147,858,000 of capital stock, or a total of

\$369,075,000. Surveyors are at work on a line which is said to be intended to parallel the Lake Eric and Western railroad. The Cincinnati, Hamilton and Dayton company is back of the project, and it is said to be prompted by a desire to re-taliate for the paralleling of the Cincinnati, Hamilton and Dayton by Sena-tor Brice, president of the Lake Eric and Western.
