Officers of St. Brenden Council of the Y. M. I. Installed-Exercises Followed by a Banquet.

St. Brenden council. Young Men's institute, installed officers last evening and, in honor of the event, an entertain-ment and banquet were held in their elaborate suite of rooms on South Main avenue. The evening's pleasure was enjoyed by over one hundred members of the council with a few invited guests. After the officers, the names of whom After the officers, the names of whom have appeared in The Tribune, had been duly installed, the entertainment was begun. P. F. Calpin presided in the absence of President McAndrew. Leo Crossin gave a plane solo and Rev. McNally addressed the young Father McNally addressed the young men, giving advice and encouragement. Then came a vocal duet, entitled "Larboard Watch," by Michael Sullivan and Edward Walsh. The familiar song was well sung and was followed by applause. Mr. Walsh followed with a solo. "My Pretty Irish Maid." Mr. Walsh has achieved a local reconstitution. Walsh has achieved a local reputation as a sweet singer. He was appreciated last evening. A declamation by Thomas Larkin, a rising young elecutionist, was considered one of the best efforts in the declamatory line that has been given in the history of the society. The piece selected was the well known and often abused "Spartacus to the Gladiators." The speaker showed unusual intelli-gence in interpretation and his gestures and voice fitted the words to a nicety. He will be heard from in a more pre-

tentious way one of these days.

Edward O'Malley sang "Gathering the Myrtle with Mary" in good voice. He was followed with a solo by Michael Sullivan. A recitation of the famous Patrick Henry's address on Liberty was well given by James A. Quinnan. William Youston, a member of St. Patrick's church choir, pleased the audience with a tenor solo and was accompanied by John Conway. P. McNamara sang a song of olden times which ap-pealed especially to the older persons "Sentenced to Death," a solo, was nicely sung by Dominick Gibbons. Anthony Martin talked to the young men, which closed the entertainment. enjoyed. It was a hugely enjoyed affair and stamps the council as a band of entertainers. The committee in charge was P. F. McCoy, Charman; T. J. Carr, P. J. Hogan and F. L. McLane.

In lionor of a Friend.

SOUTH SIDE NEWS.

Complaints About the Service on the Electric Road - Machinists Laid off at the Mills

The usual first-class service provided for its South Side patrons by the Scranton Traction company has taken a slump for the test three days and there has been a good deal of complaint entered against the unsatisfactory way in which the cars have been run. Last evening between 6 and 9 o'clock it was a common thing to see four cars going one way and three the other, the cars about a block apart.

The street car crews complain that the schelule is arranged in such a way that not enough time is given to run between some switches and between other switches more time than is really necessary is allowed.

Machinists Laid Off.

Machinists Laid Off.

It is not a good sign of early resumption at the South Steel mill that the machinists have been laid off. This was done yesterday, and there are only a dozen men now at work around the mill. The outlook for starting the wavels of industry in motion is not very bright at present. The North works are in the same list.

The annual meeting of the congregation of the Presbyterian church for the election of two trustees and hearing the report of the committee who were appointed to secure a pastor, will be held in the lecture room this evening at 7.39 o'clock. As this is of personal interest to every one, a full attendance is desired.

The extreme cold wave which visited this section the last few days and made the thermometer register 10 degrees blow zero have set the plumbers and water company to hustling repairing damages to exposed water pipes and sewers and putting rosy cheeks on lads and lassies who indulge in the healthy exercise of skating. The regular weekly meeting of the Epworth league will be held this evening at the lecture room of the Methodist church. Charles G. Cole has returned to his studies at Princeton college, after spending the last two weeks with his parents.

WAR CLOUDS MOVING.

The Silver Is Already Revealed in the Venezuelan Controversy - Penceful

London, Jan. 6.—The American com-missioner of the Daily Chronicle cables to that paper from Washington today.

The tide of opinion here regarding

Engiand seems to me to be distinctly turning, owing, I believe, both to the Chronicle's utterances and to Eng-land's anxious foreign crisis. Yesterday I quoted sympathetic words from the New York Sun. Today the Tribune says there is something magnifi-cent in the way the British themselves face their international situation. The Tribune speaks of the everlasting birthright of the Britisn people in the memories of Agincourt, Plassy, and Trafalgar, and declares that the present opportunity is equally momentous and advantageous to both countries. It adds that worthy diplomacy should now make easy the way for an equitable and amicable settlement with Great Brit-

ain. Upon the governments of Wash-ington and Westminster it rests to de-termine whether this noblest opportunity of the age shall be neglected or shall be improved to the perpetual profit and giory of both the great divisions of the English speaking race." "Many similar utterances prove the

truth of my assertions that all the best American opinion is earnestly desirous of a friendly and dignified settlement. Today I had a conversation on this sub-ject with Senator Gray, of Delaware, an intimate and devoted friend of Mr. Cleveland, and a prominent member of the foreign relations committee. Senator Gray said: I don't think the president made or intended to make a threat towards the British government in his message, but he did mean to ex-press in the strongest way possible his own feeling and what I believe to be the feeling of all the people of the country regarding supposed British refusal of arbitration in the Venezuelan matter. except with reference to an arbitrary line made by the British government itself. I know there is sincere regret and dismay among all right minded people here that a conciliatory disposition was not accepted by Lord Salis-bury in regard to the general principle of arbitration. If the British government should show a kindly disposition towards this principle I believe it would be greatly welcomed by the people of this country. So far as there being any loss of prestige to the British government in this course, it would make me more hopeful that the great principle of arbitration will find expression in a convention between the two countries covering all questions that might arise.' "The New York Times also describes my statement of the American case as

superior and entirely truthful. "The present moment is a golden one to secure American good will. Can Eng-land afford to lose it? If Lord Salisbury takes no step and sees no way then let him reflect that his attitude is identical with that fatal one which lost Great Britain her American colonies more than a century ago. The American people are eagerly listening for some word from him. The cost of it would be slight and the gain colossal."

SPRECKELS ROUTED.

His Rebellious Sons Pay Up and Win the Battle.

San Francisco. Cal., Jan. 6.—Sugar Millicnaire Claus Spreckels, who has been waging war for nearly a year with his two younger and rebellious sons. August and Rudolph, expected to score heavily against them on the day after New Years. But these calculations have been upset, and for three days the old man has been on a still hunt to lo-cate capitalists who helped his two sons to defy him.

Two years ago, when all was at peace in the Spreckels family, Gus and Ru-dolph bought from their father threefourths of the capital stock of the Ha-wallan Commercial company. They paid a certain amount and \$700,000 was left as a balance, which was to be paid payment was made January 2, 1895. At that time the sons were in harmony with their father. Afterwards war was declared and the sons have scored every time in the fight.

A Bank Failure.

AN INVESTIGATION DEMANDED.

A general banking business is done by the human system, because the blood de-posits in its vaults whatever wealth we may gain from day to day. This wealth is laid up against "a rainy day" as a reserve fund —we're in a condition of healthy prosperity if we have laid away sufficient capital to draw upon in the hour of our greatest need. draw upon in the hour of our greatest need. There is danger in getting thin, because it's a sign of letting down in health. To gain in blood is nearly always to gain in wholesome flesh. The odds are in favor of the germs of consumption, grip, or pneumonia, if our liver be inactive and our blood impure, or if our flesh be reduced below a healthy standard. What is required is an increase in our germ healthy standard. increase in our *germ-lighting strength*. Dr. Pierce's Golden Medical Discovery enriches the blood and makes it wholesome, stops the waste of tissue and at the same time builds up the strength. A medicine which will rid the blood of its poisons, cleanse and invigorate the great organs of the body, vitalize the system, thrill the whole being with new energy and make permanent work of it, is surely a remedy of great value. But of it, is surely a remedy of great value. But when we make a positive statement that of per cent, of all cases of consumption can, if taken in the early stages of the disease, be cured with the "Discovery," it seems like a bold assertion. All Dr. Pierce asks is that you make a thorough investigation and satisfy yourself of the truth of his assertion. By sending to the World's Dispensary Medical Association, Buffalo, N. Y., you can get a free book with the names, addresses and photographs of a large number of those cured of throat, bronchial and lung diseases, as well as of skin and scrofulous affections by the "Golden Medical Discovery." They publish a book of 160 page medical treatise on consumption, bronchitis, asthma, catarrh, which will be mailed on receipt of address and six cents in stamps.
