ascertaining how the hard conditions that have come can be relieved and this foundation occupation restored to

its former prosperity and thrift.

The cost of the fertilization of the

farms in Pennsylvania and the develop-

ment of the virgin soils of the far west are mentioned as one of the chief

causes of loss to the farmers of this

state. The growth of cities, together with the development of manufactur-

ing and other industries has also brought about a rise in the price of labor upon

which agriculture is dependent. There

is also the uncertainty of the climate occasioned by the clearing off of our

forests and the consequent interfer-ence with the water supply as well as the danger from sudden flood.

The growth of great trusts which manipulate the sale of farm products is also one of the evils complained of.

Board of Trade Approves of the Oliver Viaduet Plan-Will Try to Secure Council's Fovorable Action.

Viaduct talk was the order at last evening's West Side board of trade. The meeting was the most largely attended of any in recent years. Those present were: President, T. F. Mason, secretary, Charles E. Daniels; D. M. Jones, A. M. Morse, E. M. Clarke, Dr. P. F. Struppler, W. R. Williams, Dr. M. J. Williams, William Fairell, City Engineer Joseph Phillips, Alfred Twining, Jenkin Reese, M. E. Worden, Hon. John R. Farr, ex-Mayor John H. Fellows, D. D. Evans, and the father of the present viaduct scheme, Joseph Oliver.

The result of the meeting was an

The result of the meeting was an unanimous action in favor of Mr. Olivver's plan. As chairman of the streets and bridges committee City Engineer Phillips reported that, per the request Philips reported that, be the tast meeting he had staked out the line of the proposed grade on South Lincoln avenue and that the present aspect was favorable to the grading of the street. Mr. Farr reported that \$300 in pledges had been se-cured toward the founding of the West Side Miners' hospital. He thought that the amount of pledges should reach \$1,000. A meeting of the directors of the projected hospital will be held in the immediate future. Common Coun-cilman Oliver stated that the heirs of cilman Oliver stated that the heirs of the Fellows cemetery on South Main avenue, were favorable to the sale of the plot. The bodies now interred in the cemetery could be removed. For a number of years the board has tried to have a sidewalk placed in front of the cemetery, but so far it has been unsuc-cessful. On motion a committee was appointed to see the heirs of the estate relative to the purchase of the property. The committee consists of John H. Fellows D. D. Evans, and Joseph Oliver and President Mason. Mr. Farr report-ed concerning the deeding to the city of the much wanted land on Robinson street, owned by the Traction company, for the purpose of paving the thorough-fare. He detailed at length the recent conferences with the Traction people, which were duly reported in The Tri-

Then arose the viaduct discussion. Father Oliver explained his scheme for the bridging of West Lackawanna ave-nue. He stated that the idea was not original, but he had introduced it in councils at the instigation of several West Siders. The new plan has been explained in the daily papers. He computed that 29,000 people would use the viaduct. His idea is to bond the city in the sum of \$150,000. With this money the stove works and other properties on the southerly side of Lackawanna avenue, between Ninth and Seventh streets, would be purchased and a 60 foot viaduct erected over the land. He thought if a viaduct were erected in the center or on one side of the avenue that damages to the amount of between \$10,-000 and \$200,000 could be claimed by the property owners on the street. But by leaving the road clear for traffic no suits were liable. Mr. Oliver stated that the purchase price of the property would be about \$125,000. Nearly all of the gentlemen present spoke on the subject at hand. Mr. Phillips stated that Mayor Connell, the city solicitor, the city con-troller and Mr. Phillips had been appointed a committee to secure options on the pieces of the properties, accord-ing to the demands to Mr. Oliver's viauct resolution now in council. Mr. Farr spoke in behalf of the new

He recommended that the board take definite action and that an endeavor be made to bring the bond issue before the people at the next election. He favored West Lackawanna avenue as a place for a viaduct. Mr. Farr dwelt at length upon the necessity of the viaduct. The sentiment of the members was in favor of Mr. Oliver's plan and on motion by Mr. Farr, seconded by several members, the board endorsed the proposed vladuct. A committee consisting of Messrs. During the meeting the following printed circular was read by the secretary:

Now that politicians have had their say and by their intemperate actions have endangered the peace between the two English-speaking nations, it is suggested that the business men of this country speak out as loudly and effectually. The interests of the people in both countries are so closely interwoven by social and commercial ties that the very suggestion of an internecine war is almost criminal. True patrotism and diplomacy will always exhaust every possile means for the solution of international differences before resorting to the savagery of arms. Greater difficulties than the present have been amicably and honorably arranged with Great Britain by arbitration. This has become the accepted mode. With great deference I take the liberty of suggesting that you give expression to the friendly feeling which is at the bottom of our business relations by sending a message, by cablegram or otherwise, addressed to some particular or kindred board of trade on the other side, you making the selection, giving assurance of fellowship and good will. In order to get Druggist D. W. Humphrey's business again going. Dr. J. A. Manley has set a force of men to work removing the debris left after Monday morning's fire, and by tomorrow it is thought that Mr. Humphrey will be able o open up for prescription trade.

The basement of the building is filled The basement of the building is filled with half-burned timber and the stock and furnishings in the drug store. Mr. Humphrey's loss at the lowest estimate will not fall short of \$1,000. Dr Manley's office, until the building is renewed, will be in his residence next door. The rooms of the Young Men's Institute are opened up again. The damage done there was to the paint on the walls and ceiling by the smoke; this can be repaired at any time without much inconvenience. The families of L. F. Carey and John Smith, who occupied the second floor, have gone into their home again. The damage done in their rooms was not over \$100.

It is absolutely unknown, what caused the fire. Dr. Manley thinks it may have been from the explosion of chemicals in the basement or the ignition of the woodwork from the furnace pipes.

WHIPPED THE DETECTIVE.

Philadelphia Sleuth Hound No Match for This Woman. Williamsport, Pa., Jan. 7.—A Phila-delphia detective, who says his name is Miller, received a horse whipping here at the hands of an indignant woman. He was employed by W. H. Bloom to watch his wife, who has begun divorce proceedings. Mrs. Bloom has apart-ments in the Stearns block, and declares that she and her daughter have been hounded by the detective.

Last night, in a hallway, Detective Miller brushed against Mrs. Bloom, and the woman, who is physically mor than the little detective's match, clutched him by the collar and rained stinging blows on his face and shoulders with a raw-hide. The detective begged for mercy, and when the infuriated woman allowed him to go, he fled to the city half for police protection.
