that it is more than likely the bill drawn by the Anti-Immigration association of Massachusettes will be passed. It com-pels all immigrants to be able to speak, read and write their own as well as the English language. If such a bill had been passed years ago it would have been a good thing for this country. There are thousands of foreigners who have been in the United States for many years who are still unable to speak the English language, much less write or read it. The colleagues of Congressman Scran-ton in the house are criticizing him oute severely for failing to support nominees of the recular Republican city convention in Scranton. They say it is indicative of political weakness. Mr. Scranton will re-ceive a warm reception from his fellow-members when he returns to Washington. r. members when he returns to Washington. Senator Quay has gone to Florida on a two weeks fishing trip. Before he left a conference of prominent politicians was held at his residence at which the presi-dential situation was discussed at some length. Among those present were Gen-eral Clarkson, Chauncey L. Filley, State Senator Andrews and several other well-known national characters. Before leaving Senator Quay denied most emphatically the report that he had made peace with David Martin and other members of the Philadelphia combine. Quay's friends claim he will control sixty of the sixty-eight delegates to the national convention. W. R. B.

Now with reference to the tune of "God Save the Queen," which is the same tune as our "America," some claim that it is German in origin, and others that it is French. Dr. S. F. Smith says that he discovered it in an old German music book, in 1832. Duffield, in his "English Hymns."

Now with reference to the tune of "God Save the Queen," which is the senate committee. After out the opinions gathered by him, Mr. Norman continues:

They also as-sert that the words, "Grand Dieu, sau-vez le Roi." "Great God, Save the King"-were comoposed by Madame de Brinon. Further it is said that the tune was composed by Jean Baptiste Lully, born at Florence, 1633, but who went early to Paris, and who became the friend and musical collaborator of Moliere. Lully obtained a place in the orchestra of Louis XIV, and it is claimed the tune was sung by 300 young ladies before that monarch at St. Cyr. F. S. Key when he met with the More Trouble in Guiana. It is cabled today that the British Guiana police have occupied the ex-treme limits of the territory claimed by Venezuela. The American government has brought heavy pressure to bear to prevent the Venezuelan government from committing any over act and thus from committing any over act and thus precipitating a hostile situation. The Originator of the Baby Incubator by Democrats. Congressman Leisenring will shortly in-troduce a bill in the house for a new pub-lic building at Wilkes-Barre. He hasn't yet made up his mind as to just how much of an appropriation he will ask for. He thinks 5500,000 would put up a building in keeping with the ideas and tastes of the average Wilkes-Barrean, but he will be mighty lucky if he gets one-tenth of that amount. It is amusing to note the ridiculous ness that is often manifested with refness that is often manifested with ref-erence to the tune under consideration. In 1891, a correspondent of the City Press, of London, made a "startling" discovery. Writing from Brooklyn, N. A CHEMICAL TRANSFORMATION.

At the conclusion of the lecture a lady and gentleman who were among the first to leave the hall had reached the open air, when the lady were among the first to leave the hall had reached the open air, when the lady caught her escort staring at hey. "What is the matter?" asked the madame, in surprise. "Pardon me,but you are quite blue!., The lady returned to the hall and approached a mirror. She started back in horror. The rouge upon her cheeks had been converted into a beau-tiful blue by the chemical decomposition which had taken place under the influ-ence of the gases which had been gen-erated during the lecture. The majority of the women in the audience had suf-fered in a similar manner. There were all sorts of colors-blue, yellow, violet, and black.
