

How Are You?

YOU HAVE often been asked this question, but have you ever realized its serious meaning? If you were asked it at this very moment, could you candidly reply, "I am feeling quite well"? Might you not be forced to answer, "I am not feeling so well as I ought to feel"?

THIS IS a serious question for you to consider, because this is a dangerous time of the year. Wintry weather is a severe strain on the system, and alarming results are very apt to follow a sudden cold or chill.

ARE YOU experiencing any symptoms which show there is a weak spot in your system? Do you feel weak and shivery in these cold winter days? Do you have pains in the back, headaches, stomach troubles, dizziness, loss of appetite? Are you a sufferer from constipation, biliousness, restlessness and many other miserable feelings caused by derangements of the liver and kidneys?

IF YOU are feeling like this, and realize that your system lacks tone and strength, remember that you cannot expect to get well without the aid of a reliable remedy. Something is needed to arouse nature by stimulating the great organs of the body—arousing the circulation and renewing the vital powers. For this purpose nothing has ever equaled Warner's Safe Cure, the great restorer and health-giver. Its effects are immediate and lasting. It speedily puts the liver and kidneys in good order, purifies and enriches the blood, and drives out every dangerous germ of disease that lurks in the system. There is nothing like it for building up the strength and regulating the digestive organs. It is not an experiment, but a standard remedy, endorsed by the world's greatest physicians. No other remedy has ever received such an enormous number of testimonials from people whom it has made strong and well.
