INCOME OF RAILROADS

Interesting Figures From the Interstate

Commerce Commission. The preliminary report of the statistician of the interstate commerce com-mission for the fiscal year ending June 30, 1895, just issued, shows some interesting figures regarding the income ac-States. The number of roads covered is 650, representing 164,529,38 miles of line, and, as the aggregate of operated mileage for the previous year was 175.-690.36. It appears that not more than 150,000 miles are not represented in the report. Following shows the gross and net earnings from operation and the increase or decrease per mile as com pared with the previous year:

Regarding these figures the report says;

The most significant fact as throwing light upon the effect of commercial depression upon railway management is found in the movement of operating expenses. In last year's preliminary report attention was called to the fact that a reduction in operating expenses follows rather than accompanies a decrease in gross earnings. The present report seems to indicate that when the managers of railways are forced to reduce operating expenses the cut is made decisive and final. Thus the decrease in the operating expenses for the fiscal year 1894, as compared with 1893, was \$713 per mile of line, the corresponding decrease for the year ended June 30, 1895, as compared with the fiscal year 1894, was but \$44 per mile of line. This indicates that the reduction in operating expenses which, as shown in the final sweet for the year ended June 30, 1895, as compared with the fiscal year 1894, was but \$44 per mile of line. This indicates that the reduction in operating expenses which, as shown in the operating expenses which, as shown in the final report for the year ended June 39, 1894, occasioned a reduction of 94,000 in the number of employes, has been accom-plished, and that no further sweeping re-ductions are to be expected. It is facts of this sort which warrant the resumption of business by manufacturers with confi-dence in the future.

Wall Street Review.

New York, Jan. 13.—The more pacific advices from Europe today regarding the Venezuelan and South African questions; the statement by Mr. Morgan that the new government bond issue will be placed beyond a doubt and higher prices for American securities in London led to an advance in all the prominent issues dealt in at the New York Stock Exchange today. The improvement ranged from 14 to 375 per cent. and was most pronounced in the international and Granger stocks. Lake Shore rose 3% to 141; Louisville and Nashville, 212 to 4514; St. Paul. 134 to 6314; Baltimore and Ohio. 3 to 41; Kansas and Texas, preferred, 134 to 2534, and Denver and Rio Grande, preferred, 1 to 43. The strength of these issues led to covering in other parts of the list and as a result prices were advanced about 142 per cent. all along the line. The Industrials were irregular and rather feverish. Leather, preferred, after an early advance to 6334, dropped to 574, and later returned to 532,2535. The stock continues to be affected by the uncertainty regarding the dividend Manhattan fell from 9914 to 4754, and later returned to 9914 to 4754, and later returned to be affected by the uncertainty regarding the dividend Manhattan fell from 9914 to 4754, and later returned to be stock continues to be affected by the uncertainty regarding the dividend Manhattan fell from 9914 to 4754, and later returned to second the announcement that the assessed valuation of the property had been increased about 100 per cent., as compared with 1835. The selects of the stock contended that this would increase the charges for taxation something like \$275,000 and considered it a bear argument. Business was light, only 165,133 shares having changed hands.
