CULM DUMP CASE IN COURT

William Repp, of Old Forge, Sues the D., L. & W. for Taking the Heap.
SHIFFER TOOK OFF HIS COAT
 He Told the Court He Preferred to Sit in His Shirt Sleeves—Judge Albright, of Allentown, is Assisting the Local Judges.

January common pleas court opened yesterday and will last for three weeks. This week Judge Edwin Albright, of Allentown, is specially presiding. Three courts are in operation. Judge Archbald in the main room, Judge Albright in No. 2, and Judge Gunster, in No. 3.

Last in the afternoon a jury was sworn in the trespass suit of the Morris and Essex Mutual Coal company against the Delaware, Lackawanna and Western railroad company. The defendant is represented by Attorneys Major Everett Warren and C. P. O'Malley and the plaintiff by City Solicitor John M. Harding, of Wilkes-Barre, and his son Attorney John M. Harding, of the Luzerne bar.

The case was called early in the afternoon in No. 2 court room before Judge Albright and until adjournment the question of jurisdiction was argued with much ability by Thomas Major Warren and John M. Harding. The action was for the taking of a culm dump ten or twelve years ago in Old Forge township and the suit is brought under the railroad act of 1848.

The defendant takes exception to the suit on the following grounds: (1) That it is not within the statute; (2) That the suit was taken by permissu; (3) That it was taken more than six years before the beginning of the suit, and is therefore barred under the statute of limitations. The evidence will be heard today. William Repp, of Old Forge township, sits at the plaintiff's table and S. B. Stillwell at the defendant's.

Shiffer Took His Coat Off.
 The first case called for trial was that of Benjamin Freely against Frank Shiffer for \$50.00 wages alleged to be due him from the defendant. Shiffer's attorney was in court when the case was called and the plaintiff proceeded to prove his case. Attorney John J. Manning represented Freely. While Freely was on the stand telling how he worked four months for Shiffer and got no pay for it, the latter blurted out a forcible denial in the shape of a profane term. He was then ordered to get up and leave just as he left in his shirt sleeves. Tipstaff Ritter came forward and assisted him in getting back into his coat. THE SUIT OF ARTHUR CHARLAWORTH AGAINST CHARLES M. PUTNAM FOR FARM WORK

The suit of Arthur Charlsworth against Charles M. Putnam for farm work was tried before Judge Albright. Attorney Richard H. Holgate represented the plaintiff and Attorneys D. W. Brown and Horatio N. Patrick, the defendant. The allegation was that Charlsworth, who is a young man, worked on the farm of the defendant from the month of August, 1894, and earned \$15.75. The jury brought in a verdict for the plaintiff in the sum of \$13.39.

Heard in Court Room No. 3.
 In No. 3 the suit of Simon H. Yearke against Contractor Mathias Stipp was being tried all day. Attorneys Patterson and Wilcox represent the plaintiff and Attorney A. D. Dean, the defendant. Stipp bought seven cars and 3,000 feet of rails for use in a brick yard, but the plaintiff and gave him a judgment note for the amount, \$1,071. The note was not paid when due and an execution was issued, but Stipp has since sold the property and the goods he received were not what he contracted for.

COURT HOUSE NEWS NOTES.

Magdalen Chronogouski, by her attorney, E. C. Newcomb, yesterday filed a new report against the Delaware, Lackawanna and Western Railroad. She claims damages in the sum of \$5,000 for defamation of character. They reside in Potosi, Mo.

An opinion handed down yesterday in equity court dismisses the appeal of Sarah J. Kelley, Bernard L. Kelley, Mary E. Kearney, and Margaret Garney and Margaret Thomas against John E. Thomas for the partition of a lot of ground on Water street, Carbonado.

The county commissioners yesterday filed exceptions to the bill R. H. Blair and W. H. Sturdevant charged for their services as surveyors. In a day, and the other exception is that it is a proper case for the petitioners and not the county to foot the bill.

An opinion handed down in court yesterday in the suit in which the borough of Blakely was plaintiff and the Delaware and Hudson Railroad company defendant. The borough fathers wanted the court to compel the company to remove the obstructions of the gravity railroad bridge as to widen the street. The obstructions have been in that position for fifty years and the bill was dismissed and the plaintiff must pay the costs.

In the suit of George Duh, Dimmick against the Wyoming Manufacturing company the rule was discharged because only a part and not the whole of the record of the circuit court of Kanawha county, West Virginia, where judgment was obtained, had been filed in this court. Suit where Dimmick and J. Weller, jointly, and J. W. Taylor were plaintiffs and the same company defendant, were disposed of in a similar manner.

COMING ATTRACTIONS.

Comic opera is one of the most popular forms of amusement and when well presented is sure to draw full houses. In the engagement of the Macray company, that opens at the Academy next Thursday, critics and the management claim to have one of the best popular priced opera companies that has ever visited Scranton. The leader of the troupe is the well known tenor, Meridian Wolford. Miss Martie is a veritable "sunshine of Paradise valley" when compared to the usual street singer. Her songs well repay the price. The scenic effects of the show are suitable. A repetition will be made today and tomorrow, with regular nightly performances.

"The Fatal Card," which is to be the attraction at the Frothingham Saturday, Jan. 18, will be interpreted by a thoroughly competent company under Julius Cahn's management. The play is the best of its kind and met with instantaneous recognition in New York last season at Palmer's theater, and will be given here in its entirety with all the special scenery and effects.

Melodrama predominates; it is the ruling quality, but there is much that is genuine drama, and, certainly, there are interesting, even stirring moments in the performance of a "Social Highwayman," which will be seen at the Frothingham Thursday, Jan. 23.

OUT IN CHICAGO.

How Waterson Was Received When He Lectured There.
 Colonel Henry Waterson, of Louisville, whose fame as orator, editor and patriotic American extends throughout the country, will lecture Friday night in the Frothingham theater for the benefit of the Pennsylvania Oral school. His topic will be "Abraham Lincoln." He will be accompanied by a number of the Inter-Ocean of that city; say, or nearly two hours 5,000 representative Chicagoans sat in the great Auditorium last evening to listen to one of America's most gifted orators, versatile writers and profound thinkers. This great audience had gathered to hear the brilliant words of that silver-tongued son of the South, Hon. Henry Waterson.

In a successive scene America is discovered, the Pilgrims land and worship as in "ye early days." William Penn makes his famous treaty with the Indians and a glimpse of the Boston massacre is given. The second act has for a beginner the "Boston Tea Party" with Paul Revere's immortal ride and a reading of the Declaration of Independence, by Assistant District Attorney John M. Harris. A representation of Washington crossing the Delaware is followed by the finale of "The Birth of the Stars and Stripes." Act third is devoted to the secession of the Southern states, each state being represented by a young lady residing in this city. A picture of the return of troops from the war will bring out various effective scenes. During the performance Company B, of the Thirtieth regiment, will exhibit an exhibition drill. Solos will be sung by Misses Susan Black and Eldia Carragan. Miss Black and Alfred Wooler will sing a duet.

ALLEGORY OF AMERICA

The "Allegory of America" an entertainment which appeals to American patriotism, will be given this and tomorrow evening at the Academy of Music for the benefit of the Lackawanna hospital. The allegory has been well rehearsed and a good attendance is all that remains wanting to make the performance will open with "A Glimpse of Hospital Life" as a curtain raiser. Then comes the allegory.

SERIOUS CHANGE PRESENTED.
 Owing to the Subletting of Contracts, They Say, Buildings Have Not Been Well Constructed and Handships Have Resulted Therefrom.

The board of control was given a little surprise party last night when a committee of mechanics presented themselves at a meeting, and submitted to the board a petition for the school buildings which the district has been building. The petition is signed by the mechanics and is for the benefit of the Scranton workmen; and more surprising than all, the schools have not been built in such a manner as to cause the communication in full is as follows:

To the Scranton Board of Control, Gentlemen:—We, the representatives of the Scranton Building Trades Council, representing the mechanics employed in the building trade of our city, would respectfully call your attention to the fact that we are not being treated fairly by the contractors of Scranton and vicinity, and we think it is in your power to ameliorate the present condition of affairs.

We should call your attention to the fact that under the present method of letting contracts, the original contractor has the right to sub-let all or any part of said contracts to a second or sub-contractor for a low price. When upon the original contract, the said sub-contractor often times subletting again to a third party (which we can prove to you), thereby making three contractors to draw upon one contract before the men who do the work are paid. The said second and third contractors, to get any profit from their work, must cut the wages to the lowest possible figure, and wear the men all the hours they can; therefore you will see, gentlemen, it is we, the mechanics and workmen, who have to suffer for a few unscrupulous contractors who will take work at any price; yes, and even at the price of their own health. We would ask you, gentlemen, to look at the rate of wages paid their men and ascertain the number of hours they work, and about all things closely examine the quality of the work done. It may look all right to the contractor, but it will not stand the test of a honest examination by an expert. Do not let the contractor and the expert be deceived.

Sometimes Do Not Get Their Pay.
 And again, there are times when we are left without our pay altogether. The laws of the state (thanks to Governor Pattison) make it impossible to collect the money due us. We would ask you, gentlemen, to insert in all future contracts for school buildings, the following clause: "The contractor shall be held responsible for the payment of all wages to the men employed on all contracts let by your honorable body."

First—That all contracts must be carried out by the original contractor. Second—That the contractor who will any contract be allowed to sub-let all or any parts of such contract. Third—That the contractor who constitute a day's work on all contracts let by your honorable body.

Fourth—That all contractors shall pay a fair rate of wages for all work done, the said rate to be fixed by a joint meeting of workmen, mechanics and others interested.

You may say, gentlemen, that the foregoing suggestions are not to be carried out by the original contractor, but we know that the original contractor, gets his bids from the carpenter, painter, plumber, electrician, bricklayer, mason, etc., and that he, in turn, sublets his brickwork to a bricklayer, and so on. All work done by the contractor, we know that the original contractor, gets his bids from the carpenter, painter, plumber, electrician, bricklayer, mason, etc., and that he, in turn, sublets his brickwork to a bricklayer, and so on. All work done by the contractor, we know that the original contractor, gets his bids from the carpenter, painter, plumber, electrician, bricklayer, mason, etc., and that he, in turn, sublets his brickwork to a bricklayer, and so on.

We would earnestly call your attention to the foregoing suggestions, for it is a deplorable fact that the contractor has entirely ignored the fact that the men employed on his contracts have any responsibility at all in the matter. There is no likelihood of wages with them; their object is to get his pay down to the lowest possible rate, while we, as intelligent mechanics, citizens and taxpayers, are being cheated, and our children are being educated, and enjoy a little comfort and amusement of life, as every honest working American citizen is entitled to.

Therefore, gentlemen, we hope that in the interest of justice and fair play you will give this matter your immediate and careful attention.

We have the honor to be gentlemen,
 Yours respectfully,
 Philip J. Thomas,
 P. J. Snyder,
 J. H. Williams, J. H. James,
 Committee of Building Trades Council of Scranton.

Referred for Consideration.
 The matter was referred without a word of discussion to the Finance committee in conjunction with the attorney of the board.

Mr. Jennings introduced the following resolutions touching upon the death of the late Thomas H. Collins, of the Eighteenth ward, which were adopted:

Resolved, That we deplore his loss as a member of our community, and in recognition of his memory and in recognition of his earnest and efficient services on the board for the past eight years, we hereby resolve that his death be draped for a period of thirty days, that these resolutions be spread upon the minutes of the board, and having found several suitable places, one of which will be selected soon.

The building committee approved of Henry O'Malley's resolution to trade the lot upon which it is proposed to erect No. 22 school in the Third ward for the "Lotus lot," owned by the Cumberland Hose company. Mr. Welsh, chairman of the committee, explained that the "Lotus lot" was the most suitable, but was rejected by the committee because of a statement that it was undermined. This has since been disproved and the board would do well, Mr. Welsh stated, to make the trade.

Solicitor H. A. Knapp reported that the title of Mrs. Elizabeth Phillips' lot adjoining No. 10 school was found to be good and the board decided to purchase it for \$3,000, paying \$500 down and the balance at the board's convenience. In the matter of the proposed site for a new school in the Second ward, Mr. Welsh, for the building committee, reported having looked over the ground and having found several suitable places, one of which will be selected soon.

Will Advertise for Bonds.
 Secretary Fellows was, on motion of Mr. Welsh, authorized to advertise for bids for building the new No. 10 building. In order to settle all doubt in the mind of Mr. Mitchell the board agreed to accept proposals for any plan of building, be it steam, hot water, electricity, hot air or hot drinks.

The salary list for the latter half of December was approved as follows: Teachers, \$5,844.65; substitutes, \$239.50; janitors, \$661.75; night schools, \$205.10; total, \$7,782.20.

MINISTERIAL TACT.

Subject of a Paper Read by Attorney John F. Scragg.
 At yesterday's meeting of the Methodist pastors in the Elm Park church, Attorney John F. Scragg read a paper on ministerial tact which invited from the meeting a vote of thanks. It may be considered a coincidence that Mr. Scragg was the attorney for Lieutenant of Police Davis and Patrolman Block, who figured so prominently in the recent police investigation of the charges brought by Rev. Dr. Robinson, of the Second Presbyterian church. Rev. G. T. Price, president of the association, Mr. Scragg reviewed the position of the ministry from a lawyer's standpoint and argued that clergymen should pay less attention to technical theology and become more in touch with the world. It was considered an able discourse, showed careful preparation and was a splendid literary effort. The paper was thoroughly discussed and the vote of thanks was unanimous.

HE DIED LAST NIGHT.

The Young Hungarian Who Was Injured Saturday at Peckville in the Mines.
 Andrew Gaydos, a Hungarian 20 years old, died at 8 o'clock last evening at the Lackawanna hospital from a perforating intestine, sustained in an accident last Saturday in the Hillside mine at Peckville. He was a native of Hungary, a big fall of rock and a sharp flint penetrated the abdomen. The doctors at the hospital performed an operation on him yesterday and hoped that it would prove successful from the better condition that resulted after it.

He lived in Peckville, but his home is in Shepperton, Pa. A telephone message was sent last night there and his mother is expected to arrive this morning. The body is at the hospital morgue awaiting her coming.
