JOHN HOLLERAN BENEVOLENT

He Met a Terrible Death in No. 5 Shaft at Dunmore.

John Holleran met with a terrible death in the No. 5 shaft of the Pennsylvania Coal company at Dunmore yesterday morning.

He was engaged in transferring mules from the barn in the second vein to the third vein where they were used in hauling cars and after getting a load of mules off the carriage at the third vein gave the signal to hoist.

What happened then is not exactly known but it is supposed that he attempted to get off the carriage while it was in motion and was caught between the cage and the siding.

His head was severed from the body and remained on the carriage while the trunk fell down into the sump.

The first intimation his fellow workers had of the awful death that overtook Holleran was when the carriage reached the surface and they saw his head resting on the carriage floor in a pool of blood that flowed from the severed veins and arteries.

In a few minutes the trunk was recovered from the sump and the remains carried to Holleran's home on Pine street. He is survived by a wife and two children.

Mine Inspector Blowitz was notified of the accident and went to the mine and made an investigation which satisfied him that death was accidental.

POULTRY THE FAD.

Many Well Known Persons Attend the Poultry and Fat Stock Exhibit in Samter's Hall.

If the increased attendance from Wednesday to yesterday is any criterion, the show of the Scranton Poultry and Fat Stock association in Samter's hall yesterday morning was a most curious and interesting one.

Before the doors were opened yesterday morning the confusion apparent on the preceding day was not apparent, and hundreds admitted, whether fanciers or not, were attracted by the many breeds and choice specimens of poultry, pigeons, ducks, turkeys, rabbits and other stock and were loth to leave the building.

During the afternoon the inmates of the Pennsylvania Orphan school and the Home for the Friendless visited the show, each in a friendly way. They were escorted to the exhibit by the association, before the doors were opened.

An idea of the extent of the exhibit may be had when it is considered the fact that the coops occupying the entire hall on the second floor and three large rooms on the upper floor if placed in single tiers would occupy the entire floor space of the armory, if allowance is made for the aisles and other incidental space.

It is the first show of the association and is a success far beyond the expectations of the officers. As a means of amusement for the school and the Home for the Friendless it is a most successful one.

It might be supposed that an exhibit of the kind would attract only the attention of men and women whose pastime hours are usually devoted to such avocations, but in yesterday's throngs were noted many persons well known in social circles, and their manner and the length of time they occupied in calling on the exhibit indicated more than ordinary amusement.

CAPTAIN MOIR WILL WRITE.

His Intentions Will Be Made Known in a Letter for Publication Tomorrow.

Just what action is contemplated by Messrs. Moir, Davies and Westphal is still a matter of doubt. It was expected that something definite would be taken last night but no action was taken as far as could be learned.

Mr. Westphal told a Tribune reporter last night that he had decided upon "It all rests with Captain Moir," he significantly remarked as he bade the reporter good night.

"Not tonight. When I make known my mind I will try to go with it. I will give you a letter for publication tomorrow night."

"Can't you give an intimation of what you will do?"

"Well, I am no seer," and with this the captain tore himself away in order to prevent further questioning.
