Too Much Dynamite Used in Blasting Rock on Chestnut Street—Caused Much Excitement. Workmen engaged in blasting the excavation for the new No. 16 school on Chestnut street caused a little damage yesterday by carelessness in exploding a charge. The rock is exceedingly hard in this place and a large amount of dynamite was used. The blast exploded and the flying rocks fell upon several houses in the vicinity.

Searching for the Vein. The vein of coal underlying the northern extremity of Hyde Park which will be soon worked by the Delaware, Lackawanna and Western company is receiving attention from a prospecting corps of engineers who wish to ascertain the "lay" of the vein. Near the mine barn of the Mt. Pleasant shaft the coal is but 40 feet below the surface. The men engaged in boring a hole under the barn of City Engineer Phillips on Swatland street have gone down 40 feet and they only struck a small ledge at that distance. It is thought that the main vein is about twelve feet further down. The vein takes a downward dip from the mine barn. A hole will also be bored on Gammon's hill. The company will push the opening of the new supply as soon as possible.

The members of the lodge meet at 7.30 sharp in the lodge room, from whence they will proceed to the church in a body. The public is at liberty to attend.

Flood the Brick Yard. Chief of Fire Department Ferber has it in his power to please several hundred skaters on the West Side. It has been suggested that one of the West Side fire companies attach hose to the fire plug at the top of Eymon and Hampton streets and allow the water to run down to the old brick yard site. There is a small and murky body of water at the place now, but a fine skating pond could be formed much to the benefit of the younger element on the West Side.

News Notes and Personal. Harry, a son of Richard Allen, of Lafayette street, secured powder from the new No. 16 school. A burned face and

GAS COMPANY OF SCRANTON. Application to Be Made to the Governor for a Charter for It. On Friday application will be made to Governor Hastings by Henry S. Paul, John J. White, John W. Baker, Edward T. Taylor and Talbot L. Hibbard, of Philadelphia, for a charter for The Gas Company of Scranton, the character and object of which is to manufacture and supply gas for light to the public in the city of Scranton. In financial circles in this city nothing is known concerning the proposed company or the men at the head of it. The supposition is that they believe, they have discovered a new and improved way of making gas and are organizing companies in various cities of the state for the purpose of disposing of their patent right of manufacturing gas. Color is given to this story by the fact that the same men have applied for charters for a number of other cities.

Found on a Street Car. Two Polanders got off Conductor Adam Pantie's car at Elm street at 8.30 last evening and when they were sitting was a pocketbook after they had got off. The conductor turned the purse into the office where the owner can have it by proving his property. A stout, good-natured looking passenger picked the pocketbook up and handed it to the conductor with the simple remark made in a matter of fact way that he did not want to keep it when it did not belong to him.

CLERGYMEN IN SESSION.

Scranton Archdeaconry's Winter Meeting Began Last Night.

BISHOP RULISON IS PRESENT. Conferences, Discussions and Services Continuously Until Tomorrow Night. Outline of Today's Programme. Clergy at Hotel Terrace.

The Scranton archdeaconry of the Protestant Episcopal diocese of central Pennsylvania last night in St. Luke's church began its winter session, which will terminate Wednesday night. There were in attendance the Rt. Rev. Nelson Somerville Rulison, D. D., bishop of the diocese; the Venerable Dr. Webster Cox, archdeacon, of Allegheny; Rev. E. J. Baisley, Carbonate; Rev. F. S. Hallentine, Scranton; Rev. V. H. Berganus, Athens; Rev. J. E. Broadhead, Susquehanna; Rev. J. W. Burras, Pittston; Ven. D. W. Cox, Alden; Rev. William Coney, Tankanock; Rev. W. E. Daw, Towanda; Rev. C. H. East, West Pittston; Rev. J. H. Griffith, Sayre; Rev. H. E. Hayden, Wilkes-Barre; Rev. C. A. Howells, Jermyn; Rev. G. P. Hopkins, Stevensville; Rev. Rogers Israel, Scranton; Rev. W. de F. Johnson, Wilkes-Barre; Rev. W. L. Jones, S. Milford; Rev. N. Lewis, jr., Honesdale; Rev. F. Marshall, Forest City; Rev. M. H. Mill, Scranton; Rev. E. J. McHenry, Great Bend; Rev. C. L. Sleight, Wilkes-Barre; Rev. A. L. Urban, Dunmore; Rev. J. P. Ware, Plymouth; Rev. E. A. Warriner, Montrose.

Last night's service was the regular evening prayer with two addresses on parts of a common topic, "Manifestation of the Works of Christ," that pertaining to "Service to God" was treated by Rev. H. S. Lauster, rector of the Good Shepherd parish, of Milford, "Ministry to Man" was the subject of Rev. J. N. Lewis, jr., rector of Grace parish, of Honesdale. In Accord with Modern Thought. Mr. Lewis' views might be termed those of the most modern thought and as the clergyman contended in his personal ministrations as the best way of making Christ's works manifest. Mr. Lewis' arguments must have been very favorably received by St. Luke's rector and parishioners, who are in the midst of an effort to build a parish house, as the clergyman contended in an emphatic and convincing way that the parish house with its guilds, clubs and brotherhoods is one of the surest means of keeping the young element loyal to the church and of reaching the poor. "The Church is sick of philanthropy; it is hungry for fraternity," were the closing words of the speaker, and well illustrates the basis of his theme. Preachers, said Mr. Lewis, are too prone to give advice which has to be regarded in order to be intelligible to the poorly educated. Another common error is the cultivation of lowly mien, of shamefacedness, a relic of medieval idleness. Many a girl and boy has had Christ revealed through ministering to others as a representative of a Girls' Guild or of a Boy's Battalion. The club of the parish house is the saloon's worst enemy. "The Poor" is the one great problem which clergymen too often fail to solve because there is too much sense preaching and too little living, he said. The church does not do well litigated and well heated interiors will not overcome a poor man's pardonable objection against showing himself in tattered clothes, but the parish house and its week-day religion will attract him. He will see in the parish house a sign of friendly sun or boy's battalion in the world today; he will see one of the many answers to the often-repeated question of the disciples "Master, we would have a sign from thee." A union is wanted between God and the world; it can be better brought about by ministering than by preaching.

During the service Bishop Rulison announced that beginning today a bell will be sounded three minutes before the time assigned for the conclusion of each address and again at the expiration of the period when the speaker will close his remarks whether he is prepared or not. Entertained at the Rectory. The clergymen were entertained after the service by the rector, Rev. Rogers Israel, and Mrs. Israel, in the rectory, where many of the parishioners met Bishop Rulison in response to the general invitation extended by the rector at the close of the service. Instead of being entertained at private houses the clergy is located at the Hotel Terrace, the expense being provided from a fund raised in St. Luke's church. Members of the Brotherhood of St. Andrew and the clerical and lay delegates will dine together at the hotel at 12.30 o'clock today and tomorrow.

At the arrival of this morning's trains the session will be attended by those of the clergy not present last night and by a large number of lay delegates. Holy communion will be celebrated at 7.30 o'clock this morning. At 9 o'clock a business meeting in the rectory will be like all the rectory meetings, not open to the public. At 10.30 o'clock will begin a common service which will include a sermon by Bishop Rulison. After a business meeting in the rectory this afternoon, the archdeacon's report will be read at 3.30 o'clock in the church. At 8.30 o'clock, a critical explanation of Genesis III., "But of the fruit of the tree which is in the midst of the garden, God hath said, Ye shall not eat of it: neither shall you touch it: lest ye die," will be made by Rev. C. A. Howells, of St. James' church, of Jermyn. The creed and collects will be said at 5 o'clock. Evening prayer will begin at 7.45 o'clock and will contain three addresses as follows: "The Church Militant in Central Pennsylvania;" Rev. Edward H. Eckel, of West Pittston, "Objects of Parish Organizations;" the Venerable Dr. Webster Cox, of Alden, "Development of the Scranton Archdeaconry;" Rev. Henry L. Jones, D., of Wilkes-Barre, "Diocese of Central Pennsylvania."

The services tomorrow will be communion at 7.30 o'clock, morning prayer at 9 o'clock, communion at 10.30 o'clock, a general conference beginning at 2.30 o'clock and evening prayer at 7.45 o'clock. The last three periods will include addresses and will be under the auspices of the Brotherhood of St. Andrew. A conference, restricted in attendance to clerical and lay delegates, will be in session in the rectory from 9.30 o'clock in the morning until noon, after which service is made at each session for church extension in the Central Pennsylvania diocese.

OLD TIME SEWER.

One Now Being Repaired in Breck Court Is the Oldest in the City. Street Commissioner Kinsley's men are now dividing their attention between the Wyoming house break in the sewer and another which has occurred in the sewer in Breck court, near the new Gould factory. This latter is not so serious a break but it may yet develop such serious consequences as to necessitate that this sewer will have to be entirely replaced.

It is one of the first if not the very first sewers built in this city, having been laid in 1857. It is made of what is known as cement pipe. This material is not so substantial of course, as the modern terra cotta and it is expected that it will not last much longer. The Linden street sewer was in course of construction when this sewer was built. It was during the time of the panic when the borough of Scranton built the sewer to give employment to the many idle men and for the secondary purpose of saving the swamp on which the court house now stands.

MAYOR'S HAND AND SEAL. Affixed to a Number of Councilman's Measures Yesterday.

Mayor Connell yesterday signed the ordinances providing for an electric light from the corner of Perry avenue and Laurel street and another on Raymond court at a point to be designated by Select Councilman Zeldner. Resolutions which provided his approval provide for plans and an estimate of cost of opening Price street, between Sumner and Bromley avenues, and plans for grade crossing street, from Twelfth street to the Delaware, Lackawanna and Western land at the foot of the mountain. The mayor has also concurred in Solicitor Torrey's opinion which holds that the Traction company is liable to the extent of \$88.10 for paving and repaving Franklin avenue where an attempt was made to lay double tracks.

SHE ASKS HER FREEDOM.

Mrs. Dickinson Wants a Legal Separation from Her Bizarre Husband. Anna M. Dickinson, by her attorney, John F. Spragg, instituted divorce proceedings against her husband Alexander M. William Dickinson yesterday afternoon in the office of Prothonotary Pryor. She was married to him on Feb. 22, 1857, at Pottsville, and on March 3, 1858, he married Alice J. Roberts, and became a bigamist. He was arrested on the charge of bigamy and was located by the constable somewhere near the depot. When the case was called in court Dickinson plead guilty and was sentenced to five months in the county jail. His term expired last September.

THE MUSCULAR SYSTEM.

Of every weary, thin or thin blood, the muscular system does its work with constant difficulty and fatigue. They feel nervous, tired out, "run-down" or nervous. Feeble people who are dyspeptic, find that exercise after a meal is sure to cause indigestion, and what there is, is carried off from the gastric organs to the muscles. Every one should have a certain surplus of flesh to resist the emergencies of sickness; to resist the attack of consumption, grip, malaria and fever. This bloodless state is always getting sicker and none of the organs of the body can get along without the food they require for work, which is, pure blood. To gain and to keep strength and fresh in the secret of health, food and happiness. With new blood and refreshed nerves a confident feeling of returning health comes also. Nervous manifestations, such as sleeplessness, nervous debility and nervous prostration are in nine cases out of ten the cry of starved nerves for food. If you feed the nerves on pure rich blood the nervous system will cease. It is bad practice to put the nerves to sleep with so-called sedative mixtures, coca compounds or morphia, which is merely a blood maker. The "Discovery" is composed of vegetable ingredients which have an especial effect on the stomach, liver, and blood making glands. It cures indigestion, dyspepsia, indigestion, liver complaint, weakened vitality, and for purpy, pale people. Dr. Pierce's Golden Medical "Discovery" cannot be equalled. Thousands have testified to its merits.
