EARLY ADJOURNMENT.

the First of June-Speaker Reed Anxious That This Be Accomplished, as it Would Be Beneficial to His Presidential Con didnes.

Washington, Jan. 26.-If the plans of the Republican leaders of the house do not miscarry, congress will adjourn not later than the first of June, Everything is being done with this in view. Speaker Reed himself is particularly anxious that this should be done. As the Republican convention meets the middle of June, it will be decidedly advantageous to have completed the work of congress before that assembles, and it would be regarded as a feather in his can.

Chairman Cannon, of the house committee on appropriations, said today that the work on the appropriation bills was being hurried as rapidly as possible, and that as there is "no hope for legislation of an economic or of any other kind, in view of the condition of the senate and of the attitude of the president, the interests of commerce and business demand an early adjournment." Mr. Cannon states that it will not be the fault of the house if congress does not adjourn early.

It can be said that there will be little any change in the appropriations made by this congress. They will be smaller if anything. There does not seem to be much hope of any great increase in the appropriation for the construction of new ships, or for coast defenses. Up to the present time the house has made noticeable progress with its appropriation bills, three having already been passed by the house making the best record known.

TO RACE THE EXPRESS.

Sextuple Road Machine Matched for Half

a Mile With the "Flier." New York, Jan. 26.—Among the more interesting exhibits at the bicycle exposition this week is a splendid specimen of the sextuple oad machine. This particular machine, which weighs about 150 pounds, and is geared to 152, is to figure in the decision of a wager that has been made during the week between certain exhibitors in the garden. The maker and some of his friends have bet a sum of money that they can select a crew of six men who can beat the Empire express train on the New York Central railroad in a run of half a mile. The attempt is to be made some time in May. A level stretch of about three miles along the railroad track will be selected and carefully laid out, track fashion, to a width of five feet, and some fine day, when the engineer of the train least expects it, the sextuple will start on its task, of course with a fly

New York, Jan. 25.-After a slight hesitation at the opening the railway and mis-cellaneous stock market developed con-siderable strength. The pause in the un-ward movement in the early dealings was the result of lower prices from London which disconcerted operators who had expected heavy buying orders from abroad to follow the sharp rise in the local mar-ket at the close yesterday. Soon after the opening, however, local operators turned buyers again and in a little while under the influence of these purchases, the entire list moved up rapidly. A trader who in the past has been credited with im-portant movements in the Industrials was said to be at work again on the bull side of the account, and this led to covering of short contracts allaiong the line. There was little news affect to affect values although the bank statement in some quarters was accepted as an indication of the success of the new government loan. The particularly strong stocks were the Industrials, the Grangers, Baltimore and Ohio, Jersey Central and Western Union. The advance in prices ranged from 1, 10 114 per cent, and was well distributed. Speculation closed firm with prices at or near the best of the day. Total sales were 114,571 shares, including 17,100 shares Su-
