GOLD NEAR CHEYENNE.

Rich Belt Discovered and Prospectors Rush Into the Ore-Producing Section. Cheyenne, Wyo., Jan. 29.—A discovery of gold-bearing quartz assaying from \$200 to \$400 a ton has been made at the Mountain, twenty-five miles northwest of here, and a rush of prospectors and claim-seekers at once commenced for the new district and is still in progress. The discovery was made two weeks ago by Cheyenne men, who have quietly had the district surveyed and today file claims upon six miles of the gold-bearing belt. The ore is said to be in large quantities. Salt Lake, Utah, Jan. 29.—The discovery of free gold in some of the ore recently taken from the Mercur mine in the Camp Floyd district has created considerable excitement in mining circles, as it is said to be the first free gold that has been found in that section. It will have a tendency to enhance the value of all mining properties in that camp. Mercur stock was bid up to 87 1/2, the mining exchange today without any sales.

LONG TROLLEY LINE.

Electric Road One Hundred and Three Miles in Length Projected. Wabash, Ind., Jan. 29.—An electric line, one hundred and three miles in length, said to be the longest electric road in the country, is projected through Northern Indiana, originating at Celina, O. It is planned to build northwesterly through Geneva, Montpelier, Warren, Lincolnville, Wabash, Roann, to Rochester. It is the intention of the builders, a wealthy syndicate, to handle both freight and passengers at extremely low rates, and the line will be laid with seventy pound steel and finely equipped. Charles Everett of Port Wayne, representing the syndicate, last night made a large number of Wabash business men and said that a subsidy of \$70,000 would be asked from this county. The capitalists will put a million and a half in the property, and it is hoped to have the road in operation in one year.

TOWN WITHOUT A WOMAN.

Aliceton, Wis., Population Made Up Entirely of Men and Boys. Palmyra, Wis., Jan. 30.—Aliceton, a hamlet in this county of about 100 inhabitants without a woman among them, is receiving attention from all over the country. Every mail brings letters from women matrimonially inclined who write tender epistles to these bachelors. One eastern lady proposes starting a boarding house there, while a man from Philadelphia, already three times married, wants to know if it would be possible for him to spend the balance of his life there in peace. Two little boys living there lately became tired of the town and determined to start out into the world to seek their fortunes. Accordingly they ran away from school, leaving a letter bidding the teacher and schoolmates good-bye, and have not been heard from since.
