Tracks of a Bear Said to Have Been Seen in the Snow Near the Sloan Woods.

A well-known hunter came to The Trib A well-known hunter came to The Trib-une office yesterday with a tale that will set local sportsmen agog. He claims that in walking through the little patch of shrubbery known as the "Sloan woods." he saw the foot prints of what he thinks is a bear. The marks were plain to be seen. He followed the trail until it was lost in the Taylorville woods. Here he stopped, having no weapon suitable for the exter-mination of the woolly animal.

Elsteddfodic Matters.

Robert Morris Lodge of Ivorites will meet this evening. A large attendance of the members is desired, as matters pertaining to the coming eisteddod will be brought up. Tickets for the big event will be distributed among the members. The chances for success are in the ascendancy, although they were never in doubt. The Hyde Park Glee club, Lewys Watcyn, leader, will rehearse tomorrow evening at the First Weish Congregational church. Dr. Richards and E. E. Robathan were in Wilkes-Barre Tuesday in the interests of the eisteddfod. The time for the handing in of the literary compositions has been extended from Feb. I to March 1. The number of contributions already received by the adjudicators warrants good competition. An adjudicator for the recitations has not been selected as yet.

SOUTH SIDE NEWS.

Pittston Avenue Between Hickory and Birch Streets Is in a Very Bad Condition-John Kennedy Injured.

Pittston avenue in the Nineteenth ward is at present in an awful condition and auch consequent damage has resulted rom the choking up of the gutters w.i.a now and ite. Hetween Hickory and Birch treets the avenue is the worst. Pedadrians go knee deep in water crossing a many points, particularly on the cornatof Alder street. The water from all the land above Pittston avenue flows down and for want of an outlet into a sewer stagnates on the street.

The street commissioner is doing his best to remedy the matter by cleaning the gutters as fast as it is in his power. It is a pressing argument for a sewer. That is the only change from which any benefit can be derived.

Top of His Finger Cut Off. While at work at 8 o'clock last evening in the Lackawanna Knitting mills oiling the machinery, John Kennedy, 15-year-old son of Michael Kennedy, of South Wyoming avenue, got the index finger of his left hand caught between two cogs and the top of it was cut off. The boy looked at his injury and very composedly bandaged it himself, then went home. He afterward went with is father to Dr. Manley's office, where the wound was dressed.

CERTIFICATE

Judge Edwards So Decides in Nineteenth Ward Case.

CAUCUS NOT A REGULAR ONE

There Was No Call Issued for It and It Was Not in Any Sease a Cancus of the Republicans of the Nineteenth Ward.

In the exception filed by Edwin Frable. Democratic candidate for select councilman in the Nineteenth ward, against the certificate of nomination of Joseph P. Kramer, nominated by the Republicans of the ward for the same office, a hearing took place yesterday morning before Judge Edwards, and in the afternoon an opinion was handed down decreeing that Mr. Kramer was not regularly nominated and is not entitled to a place in the Republican

titled to a place in the Republican column on the official ballot. This leaves the Republicans in a po-sition simply to vote for Mr. Kramer in another column. He has filed nomi-nation papers and will come before the voters in that way. At the hearing yesterday the petitioner was represented by Attorney C. C. Donovan and Mr. Kramer by Attorney A. J. Colborn, Jr. The opinion of Judge Edwards is as follows:

The contest in this case is over the right of Joseph P. Kramer to have his name on the official hallot as the regular nominee of the Republicans of the Macteenth ward for the office of select councilman.

cilman.

A caucus of the Republicans of the ward was called to meet on Jan. 16. The call was made by means of printed posters put up in several places through the ward. This call appears to be signed by the vigilance committee of the four election districts, constituting the ward. This call was made regularly and in accordance with the rules of the Republican party governing such matters. Two Resolutions Adopted.

At this caucus nominations were made for the offices of assessor and constable. As to the office of select councilman two resolutions were passed—one endorsing Mr. Frable, the Democratic nomines; the other declaring that notwithstanding the endorsement, Mr. Frable's name should not go on the official ballot as Republican nomines for the office in question. The reason for this action of the caucus was that as between Mr. Frable and another probable candidate, who it was said intended to file nomination papers, the majority of those attending the caucus preferred Mr. Frable and therefore endorsed him.

ferred Mr. Frable and therefore endorsed him.

But whatever reasons may have existed to induce this action in the caucus the legal effect unquestionably was a failure to nominate a candidate for the office of select councilman. The action of the caucus is officially declared in the certificate of nominations filed in the proper office, Jan. 17. According to this certificate the only nominations made were for the office of assessor and constable, leaving that of select councilman vacant.

Nothing further was done by the Republicans of the ward ustil Jan. 21. matters remaining in statu quo. This date was the last day for filing certificates of nomination. On the 21st it was ascertained that the candidate who intended filing nomination papers had changed his mind. In this emergency Republicans agitated the question of securing a Republican nominee for the office of select councilman. Messengers were sent here and there and from theat to thirty. Republican vaces nominee for the office of select councilman. Messengers were sent here and there and from twenty to thirty Republican voters met in a hall during the afternoon of the 21st and nominated Joseph P. Kramer for the said office. The same day a certificate of nomination was filed in the commissioners' office. It is the validity of this certificate that is now called in question.

Certificate Cannot Stand..

It needs no argument to convince us that this certificate cannot stand. The calling of the voters together their action in the hall and the filing of the certificate were all done within the compass of a few hours. The meeting of the voters was not in any sense of the word a caucus of the Republicans of the Nineteenth ward. It was not called by anybody: there was no notice to anybody, and it was attended by only a few of the voters. The certificate and the proceedings it represents are absolutely without vitality in law or fact. For these reasons we adjudge the certificate of nomination for the offices of select councilman and other offices of the Nineteenth ward of Scranton, filed Jan. 21, 1896, to be wholly void. Certificate Cannot Stand ..

Why They Are Attached.

The Democratic certificates of nomination are attacked on the ground that the caucus was held before the borough was divided into wards by a decree of the court. The other exceptions are that the caucus was not according to the rules of the Democratic cording to the rules of the band non-party; that aliens voted at it and non-residents, and that many voted in one control of the rules of the band of the rules of the band of the rules of the band ward after voting in another. Manager George Kuntzsch, of the Syracuse club, has written to the members of his feam to report at Syracuse for preliminary practice on April 7. He has arranged two games with Cornell, which will be played at Ithaca on April 13 and 14. Take the second basemen for instance.
Dan Shannon, the Wilkes-Barre player,
leads all others in this position, yet no one
who knows what ball playing is will
claim that Shannon, good fellow that he
is personally, is the equal, let alone the
superior of Eagan, McDonaid and Siricker. The averages show that Shannon was
inclined to indulge in record playing. In
73 games he had 373 chances altogether
or an average of 5-19 to a game. In 25
games Paul Radford, who was almost tied
with Shannon, had an average of 5-3-5

chances to a game or exceeding that of Shannon by more than two chances. Mc-Donaid's average was \$ 1-4. Stricker's, \$ 1-4. Ward, \$ 1-3. Wise, \$ 7 1-8 and Shinnicks \$ 1-10. Of course Dan accepted a greater-percentage of the chances he is credited with, but it is probable that if he had had attempted many of the seemingly safe hits which Eagan and others turned into outs, he would have many more errors charged against him and consequently a lower fielding average. However, it is quite possible, nay probable, that Shannon, despite his fielding slackness would be more valuable to a team than an Eagan, as he is a good batter and a heavy coacher.

INVENTIONS FOR BICYCLES.

They Tend to Bring the Steel Steeds Closer to Absolute Perfection. New inventions continually add to the excellence and usefulness of the bicycle and the comfort of the rider. An apparatus which, although not necessa for speed or comfort, adds to the com-pleteness of an outfit, has been invent ed by a French engineer, M. Rahon; he styles his invention a declivograph. Its object is to announce to the rider whether he is on a level surface, or upon whether he is on a level surface, or upon a grade, and at the same time gives exactly the number of feet in hundred he is climbing or descending. Of course an instrument which will inform the rider that he is on a hill is wholly un-necessary, but it is a great satisfaction to know just exactly the grade of a hill he has just mounted.

necessary, but it is a great satisfaction to know just exactly the grade of a hill he has just mounted.

One of the most radical innovations of wheels exhibited at the last cycle show in Paris is the cyclet. This wheel suppresses the chain and all other indirect connections between the driving gear of the rear wheel and the crank axle of the pedals. The pedals are mounted on a large sprocket wheel, within the inner periphery of which cogs are provided on both sides; these cogs engage in a small cog wheel, so that the treading of the pedals acts directly upon the rear wheel through the intermission of one cog wheel only. The shape of this bicycle is quite crude, the wheels stand together much closer than ordinarily, and the rider is seated perpendicularly above the pedals. The frame is quite rigid and strong.

Another novelty is the invisible brake; this brake goes through the steering head proper, and the only parts which indicate its presence are a small lever at the ton and a thin handle immediate.

New York Journal. A well-known wholesale dry goods merchant doing business on Worth street, this city, complained recently of the loss of a letterissu ed from his office containing a certified check for \$5,000. Finally an expert from the postoffice department called upon him, at his request

"Believe me, sir," the expert said, "I have an object in what I ask. Wii you kindly sit at your desk and recall

cach operation in connection with the missing letter?"
"With pleasure. I sit here. I take a sheet of this note paper and one of these envelopes. Then I write my letter and fold it up so. Next I go to my safe and take out the notes, enter their numbers, fold them, put them in the letter, and the letter into the envelope. Then I seal them all up, as you

ope. Then I seat them all up, as you now see me do."
"Just so; and what next?"
"Why my clerk comes in and clears off my desk for the post."
"But you wrote this one at noon, and the post does not go out before night." night.' "Oh, yes; of course! I quite forgot to say that a money letter, for greater security, I put in a left hand drawer." "Which one?"

"Which? Why, this one. I open it so, and I—bless my soul! Goodness mer I am very sorry for the trouble I've given. Here is the letter!"
