DAMAGE BY STORM.

The Heavy Rain Causes Great Damage. No. 3 Shaft of the D. & H. Flooded.

The very heavy rain, combined with the melting snow, has caused much damage in and around the city. Cellars of private and business houses have been flooded and inconvenience and damage has been the result. But the greatest misfortune has been the flooding of the shaft No. 3 of the Delaware and Hudson Canal company. The ground being only slightly covered by snow and there being no frost in the ground, the hard rain pierced through the earth like into a sieve, and the mine was quickly filled with water. In some instances the miners were compelled to suspend work Thursday afternoon. By Friday morning at 5:30 the water was thirteen inches above the rail top at the foot of the shaft and the great inroads of water was so much that the men could not get to work, and by 11 o'clock it assumed a more serious character and was rising, despite the fact that the pumps had been kept at their utmost capacity. There are 150 men employed in the shaft and they may have a rest of from one week to a month. It will depend upon the state of the weather. Nothing will be left undone to pump the water and further efforts will be made in order to get the mine ready for the men.

The silk mill was also flooded. The water descended in torrents from the water shed just above the fire building, and the cellars so filled up that work was suspended Thursday afternoon, but work was resumed again yesterday. Very little damage was done.

G. W. Morris, the grocer of Belmont street, suffered a loss by the overflowing of an 18-inch pipe, which carries a stream by the side of his premises, and the water flowed freely into his cellar.

Special Council Meeting.

There was a special meeting of the select council held Thursday night at the council chamber, when the following members were present: Messrs. Spencer, president, Gilhood, Thomas, Husted and Ellis. The clerk proceeded to read the bond ordinance for bridges over the Lackawanna the third time and the ordinance was unanimously adopted. This being the only business the council adjourned.

At the Opera House.

Friday night "The Land of the Midnight Sun" was presented at the Opera House to a very fair audience. The play was well sustained and the audience showed their appreciation by their cheering and curtain calls. The production was a success.

Know Hood's Cured

Because it Made Pure Blood. "It was all run down and could not sleep at night on account of the continuous and severe pains through my body. I had also stomach troubles and catarrh. After taking Hood's Sarsaparilla a short time I commenced to improve, and after using three bottles in all, my complaint entirely left me. I now have an appetite, sleep well and am free from all stomach troubles. I know Hood's Sarsaparilla has cured me, and I cheerfully recommend its use by all women who are run down and need a building up medicine." Miss ALICE WEAVER, W. Bridgeville, Pa.

UNIONDALE.

Mrs. Beverly Sherwood and Miss May Evans, of Vandling, spent Monday night at the home of Mrs. E. J. McKelvey, of Uniondale. Mrs. Charles Ellis and Miss Frank Lewis, spent a few days with friends in Scranton this week.

Prof. Max Frankel, the well known pianist and composer, now of New York, has been calling on friends in this city the past week. During his residence in the metropolis Mr. Frankel says, he has written several new songs which are finding a ready sale. Mr. Frankel is best known in Scranton as the author of "Ujiji" a comic opera, the libretto of which was written by Charlie Hartley, the ventriloquist.

The Chicago Marine band, a great popular musical organization, conducted by T. P. Brooks, is now playing a series of concerts at the Schiller theater in Chicago with such success that the "standing room" sign has to be used regularly, and people are almost every concert. This is a most pleasant fact to note in the present times of general amusement uncertainty.

An elaborate programme is being prepared for the grand testimonial to be given to the late Mayor, Robert W. Fisher, on February 21. Many of the best known musicians of the city and valley have kindly consented to take part in the entertainment.

Miss Sands, of Peckville, a graduate of the New York conservatory of music, will sing with the First Presbyterian church choir tomorrow. Miss Sands, it is said, possesses a fine soprano voice which has been well cultivated.

FACTORYVILLE.

The destructive east wind and heavy rain of Thursday caused the streams here to rise rapidly. Nakomis creek rose eighteen inches in thirty minutes, and the water was running over its banks. The ice on the Nakomis lake was broken up and carried out. As the ice passed down the creek it swept away the lumber company's foot bridge which had just been erected, it having met with a like fate from the high water of December 31.

F. M. Reynolds and wife expect to order a new house in the near future. Mrs. H. N. Capwell passed the day at Nicholson Wednesday.

Experts have discovered indications of wealth upon earth surface and a test hole is to be put down. The drill arrived Wednesday. Work will begin as soon as the derelict and machinery are put up. In a few weeks we expect to know whether mother earth contains oil, black diamonds or other deposits of untold wealth that will make millions of us all.

F. A. Reynolds is putting up a new single dwelling on Syracuse street.

Mr. and Mrs. Wallace Warner, of Nicholson, visited friends here Wednesday.

Mr. and Mrs. William Baker and son, of Scranton, are spending a few days here with Mr. Baker's parents.

George DeGraw and wife, of Scranton, were circulating among old friends and acquaintances in this vicinity this week.

The interior of Dr. Heller's new residence is finished and he will occupy it with his family the coming week. Dr. Heller has a visitor in Benton during the week.

Keystone Union of Christian Endeavor societies were in session at the Baptist church yesterday afternoon and evening. The meetings were very interesting and well attended. Those from out-of-town were served to supper in the dining room of the church.

AVOCA.

A very interesting feature in connection with the coming election, is the fact that several citizens have filed objections to the regularly nominated Democratic ticket, claiming that in the act of nominating seven councilmen as required by the act of assembly approved June, 1895, they only nominated three, and the cause and afterwards the board, consisting of a chairman and three clerks in conjunction with others, in order to fulfil the requirements of the statute placed the names of four other citizens on the ticket.

For this reason a petition was filed in court to restrain the county commissioners from printing the Democratic ticket on the official ballot. Notice was yesterday served on the Democratic candidates to appear before the court at 2 o'clock today when a hearing will take place and the technical point decided.

It is claimed by the board of the caucus and many who were present at the meeting to the dispute which arose with regard to the propriety of nominating seven councilmen, that a resolution was carried authorizing the board of officers to fill all vacancies, which might occur on the ticket. The outcome of today's proceedings will be watched with interest.

PECKVILLE.

George Doyle has started to take a course at the Scranton Business college.

Edward Dougherty, of Carbonate, spent Sunday with his mother, Mrs. Joseph Dougherty.

Mrs. A. H. Jenkins is lying quite ill at her home on Main street. Her trouble is the result of putting iodine on a corn on her toe.

The heavy downpour of rain Thursday caused quite a havoc in the vicinity of Peckville. With the exception of the flooding of a few cellars and business places and several wash-outs on the street car tracks, preventing the cars from coming further than Mot Haven, no other serious damage was done.

Another meeting will be held this evening (Friday), at the hose room to consider the war question.

The henery of Z. P. Tinkelpaugh was visited one night this week and several of his choice fowls were taken.

MUSICAL MATTERS.

Miss Anna Koch, soprano, has accepted an invitation to sing in this city and will appear in the concert at the Frothingham on Monday evening, February 17. Due announcement of the programme and the other features of the entertainment will be made. Miss Koch's sweet soprano voice, it is said, has developed remarkably under the training she has received in New York city, her present home.

Prof. Max Frankel, the well known pianist and composer, now of New York, has been calling on friends in this city the past week. During his residence in the metropolis Mr. Frankel says, he has written several new songs which are finding a ready sale. Mr. Frankel is best known in Scranton as the author of "Ujiji" a comic opera, the libretto of which was written by Charlie Hartley, the ventriloquist.

The river is rising rapidly.

A boys' brigade is soon to be organized in town.

N. O. Major was in Binghamton on Thursday.

INDUSTRIAL.

It is estimated by good authority that in the aggregate the orders for steel rails on the books of the mills figure up between 250,000 and 300,000 tons. This the Iron Age thinks is a good showing when the fact is borne in mind that the mills delivered about 1,000,000 tons in all of standard rails in 1895. The fact that the orders of railroads have placed their requirements, but a good many must still be heard from. Aside from the 18,000-ton Pacific coast order, there has been nothing to speak of from new roads. With fairly good earnings 1896 ought to be a much better year than that of 1895. A few hundred thousand more going into that channel would do much to steady the situation.

Philadelphia Stockholder: The point is made that betterment of the anthracite coal trade means much of benefit for other railroads than those carrying anthracite coal. The rates on anthracite coal are followed by not only higher tolls on anthracite coal but almost always on bituminous coal as well. It has been found, moreover, that the two trades go together ordinarily; when one is prosperous, the other is also. The recent agreement among the anthracite coal producing and carrying companies has already borne fruit in the bituminous coal field. A plan for better conditions in the latter has been formed and is now under active consideration. The Huntington and Broad Top Mountain Railroad and Coal company will profit considerably by this development. The Broad Top bituminous coal tonnage being largely increased over the previous year 323,019 tons, and this year the gain should be relatively more. On this head President Janney, in his latest annual report to stockholders, says: "It is reasonable to expect that the natural increase in the consumption of bituminous coal will cause even larger shipments during the year 1896 than during the year 1895, and as an effort is now being made to increase the output of the Cumberland and West Virginia coal to tidewater points have been extremely low, and it has only been by the strictest economy in movement, from employment of powerful motive power, and the good condition of the roadbed and tracks, together with the very large amount of tonnage moved, that this business has been at all lucrative."

RAILROAD NOTES.

Atchison officials have recently been turning their attention to the efficiency and earning power of their locomotives. A report was called for by the board the other day, showing what one additional loaded car on each freight train could do for the road. The reply was that if each freight train carried one more loaded freight car there would be additional earnings amounting to \$1,500 per locomotive for the year. The importance of this is in the fact that the Atchison has something like 1,000 locomotives, and with the additional loaded freight car on each train there would be \$1,500,000 in all earned. Moreover, it would cost no more to haul the extra loaded freight car, because it would cost no more to haul the extra than it costs to haul the present load.

Secretary Hoke Smith, in a conference with the house committee on Pacific railroads Thursday, advocated foreclosure of the government mortgage on the Pacific railroads and a resale of the water rights thereon. He said there would be no difficulty in doing this without government ownership of the roads to which he was opposed absolutely. He recommended that the government should forfeit the lands granted the two companies with an exemption in favor of bona fide purchasers from the railroad. He said he would revoke his suspension orders and patent the lands to the roads.

Judge Hicks, of the United States district court, has rendered a decision at Cleveland which is of interest to every railroad man. Harry Shallen sued the Pennsylvania company for \$25,000 for personal injuries received as a brakeman. He was a member of the voluntary Relief association of the Pennsylvania company, and received benefits from it. Membership involves the waiving of the right to hold the railroad company liable for any injury for which benefits are received. The attorney tried to show that it was illegal. Judge Hicks overruled a motion which had that proposition as its basis.

The numerous electric railroads in Northern Ohio are causing the steam roads a great deal of anxiety by taking them from the short-haul freight and passenger lines. The Erie company has taken the bull by the horns and decided to reduce the passenger rates in the region of Youngstown and Warren to the level of the electric lines. The Cleveland, Canton and Southern railroad has already made a reduction of two cents per mile on certain round-trip tickets.

W. H. Davis, who has had charge for several months of the Erie and Western motive power at Carbonate, has returned to Middletown, N. Y., and F. G. Stoutenger again resumes his old position there. Mr. Stoutenger conducted the motive power department very ably and he will be welcomed back by the company and his many friends outside of the company.

There is temporary slackness in the coal trade in this vicinity. There were ten Delaware and Hudson trains in this vicinity. The Erie and Ontario and Western are not rushed. A cold snap would very materially stimulate the local trade.—Carbonate Herald.

It is stated that the Erie, which has recently received 1,900 new cars, will soon be in the market for 2,000 more.

TOBACCO-TWISTED NERVES

The Unavoidable Result of the Continued Use of Tobacco.

There is a Sure, Easy and Quick Way of Obtaining Permanent Relief from the Habit.

Millions of men think they need stimulants because their nerves are set on fire by tobacco. The person who has used tobacco since childhood is not likely to give up the habit until he has tried the No-To-Bac.

West who had used tobacco since childhood to make the at a young man. Chewing and smoking destroy manhood and nerve power. What you call a habit is a nervous disease.

To tobacco in the majority of cases deadens the feelings. You may not think tobacco hurts you, but how are you ever going to tell how much better you would feel without it, unless you follow the advice of Postmaster Holbrook:

Cured 49 Cases out of 50. Holbrook, Nev., June 13, 1895. "The effects of No-To-Bac are truly wonderful. I had used tobacco for forty-three years, a pound a week. I used two boxes of No-To-Bac and have had no desire for tobacco since. I gave two boxes of No-To-Bac to a man named West who had used tobacco for forty-seven years, and two boxes to Mr. White-man, and neither of them have used tobacco since and say they desire for it. Over fifty that I know of have used No-To-Bac through my influence, and I only know of one case where it did not cure, and then it was the fault of the patient.

I was 64 years old last week. I have gained seventeen pounds in flesh since I quit the use of tobacco. You can use the No-To-Bac, or any part of it, as you wish. Yours respectfully, E. H. Holbrook, P. M."

You say it is wonderful. Indeed it is. No-To-Bac cured over 300,000 cases just as bad. You can be made well and strong by No-To-Bac. Your own druggist guarantees a cure.
