WEST SIDE EVENTS.

Statisties with Regard to Number of Persons, Vehicles and Cars That Cross the D., L. & W. Tracks.

Here is an interesting computation of the amount of traffic that crosses the beloware. Lackawanna and Western tracks at West lackawanna avenue during a specified time. A public-apprised cittizen of the West Side hired a man to stand at the crossing and count the number of persons who passed and the number of venteles, etc. The result is as follows:

Feb. 11, 6,575 pedestrians crossed the tracks. Vehicles passed to the number of 1,697. This was between the hours of 6 a.m. and 7 p.m. On the following day, from 5 a.m. to 11.20 p.m., 245 street cars crossed, and the gates were lifted 100 times from 7 a.m. to 6 p.m. These are interesting figures and are an argument for the viaduct. The facts will be used during the rest of the campaign by the viaduct working committee. Posters will likely be printed bearing the figures.
