RAILROAD NOTES.

The law providing for the equipment of all freight cars with uniform draw bars went into effect Saturday, and that one providing for the use of grab from went into effect December, 31, 1895, so that now it is unlawful for any rail road company to use freight or coal cars not supplied with grab irons and cars not supplied with grab from and uniform draw bars. This law has been compiled with by all of the companies running into this city, so that they can be affected in no way by it. The ex pense, however, for making these im-provements was enormous, being about \$25 for the equipment of a single car The companies are also all at work fitting up their cars with automatic couplers. The law compelling this to be done does not, however, go into effect until January, 1898, at which time brakemen can handle their cars with a far greater degree of safety than they can do at the present time. All the roads throughout the country are adopting a standard height for cars and building only the most improved patterns both in coal and freight cars. Nearly all the shops are turning out nothing but the best equipped cars. having both automatic couplers and air brakes. The day of the old coal jimmle is gone. Few are now in use and none are being built. The Delaware, Lackawanna and Western com-pany has not built a "jimmie" in years and neither has it repaired one. As soon as one becomes a cripple it is dis-mantled and the iron goes into the scrap heap.

The Baldwin engine "Columbia." which was tried on the Lehigh Valley railroad with a view of buying it to draw the Gilt Edge flyer that the Valley will shortly put on the road, having falled to come up to the requirements the company will now, it is said, give the large Rogers locomotive a trial. The shops are at Paterson, N. J., and the largest engines made by the concern weigh nearly a hundred tons equipped. Some of them are used to draw the fast freights on the New Jersey Central railroad.-Mauch Chunk

A meeting of the Transcontinental Passenger association has been called for next Tuesday in Chicago. Among the more important matters to be considered are the restoration of commis-sion payments, the control of Trans-Atlantic and Trans-Pacific rates, a proposed advance in rates from California to Duluth, and a change in the 2,000-

On the 28th inst., representatives of he Pulman and Wagner companies will have an opportunity to appear beshould not regulate the cost of berths in sleepers and chairs in parlor chairs.

CRIMINALLY RESPONSIBLE.

Canton Bridge Company Blamed for Fatal Accident.

Cleveland, Ohio, Feb. 17.—Coroner Arbuckle this afternoon rendered a de-cision holding the Canton Wrought Iron Bridge company, of Canton. Ohio, criminally responsible for the collapse of the Akron, Bedford and Cleveland Electric Railway bridge across Tinker's

creek.
The bridge fell about a month ago, when an electric car was precipitat-ed seventy-five feet into the creek, killing two men and badly injuring

"How to Cure All Skin Diseases." Simply apply "Swayne's Ointment."
No internal medicine required. Cures tetter, eczema, itch, all eruptions on the face, handa, nose, etc., leaving the skin clear, white and healthy. Its great healing and curative powers are possessed by no other remedy. Ask your druggist for Swayne's Ointment.

THE WORLD OF BUSINESS

Wall Street Review New York, Feb. 17.—The transactions at the Stock Exchange were light today, only 109.302 shares changing hands, of which 57.300 were Sugar, 18,300 St. Paul, 13,100 Tobacco, 12.100 Leather Preferred and 12.000 Manhattan.

and 12,000 Manhattan.

At the start the market was inclined to weakness, chiefly on account of an unexplained break in Manhattan to 102. The weakness of this stock made timid holders lighten their loads and at the same time room operators and sold-out bulls contributed their share to bring about lower prices. But little success attended their combined efforts and in the afternoon trading the entire list was on the advance once more. The main cause for the confidence prevailing in she late session was the ease with which the successful bidders to the new government meet advance once more. The main cause for the confidence prevailing in Sie late session was the ease with which the successful bidders to the new government meet their obligations and the announcement from Washington that the Morgan syndicate had filed a claim for all defaults allotments at 10,6877. The syndicate has deposited in the sub-treasury here sufficient gold to cover all defaults. The fact that the first settlement has been met without the slightest disturbance to the money market and that funds on time are to be had at 5 per cent. for all dates, emouraged the buils also, The particularly strong stocks in the late trading were Lake Shore, Tobacco, Louisville and Nashville, Jersey Centra, Sugar, Chicago Gas and Manhattan. The last-named jumped to 106%. Sugar first declined to 112%, and then rose to 115% and closed within a fraction of the best of the day, It was again rumored that the directors intended declaring an extra dividend. The meeting for dividend purposes will be held early in March. Leather Preferred dropped to 64% on the revival of the talk about the passing of the dividend, but later rose to 80% on covering of shorts. In the Grangers, St. Paul rose to 75%; Rock Island to 72%. Burlington and Quincy to 20½ and Northwest to 10½ Speculation closed strong in tone. Net changes show gains of hards per cent., closing at 29%. It was stated that the trouble between the Panama road and the company has broken out afresh. The street had it that freight is being diverted from San Francisco to the Southern Pacific. President Simmons, of the Panama, declined to talk about the matter.

Furnished by WILLIAM LINN, ALLEN & CO., correspondents for A. P. CAMP-

CENTERVILLE'S CRIME.

Jess Jones Stoots a Mother and Daughter

and Kills Himself. Centerville, In., Feb. 17.—Jess Jones. 20 years of age, went to the home of W. J. Martin, the county coroner, this evening, and asked to speak to Miss Lea Martin, the daughter of the fami-ly. He had been keeping company with her for some time, but recently there had been some time, but recently there had been some misunderstanding between them. When he came this evening she stepped into the parlor, and almost immediately the family heard two shots and the screams of the young

Mrs. Martin, the girl's mother, at once rushed into the room and was shot down. Jones fled from the house, but had scarcely gone a block when he turned his revolver upon himself, send-ing a bullet into his brain that stretched him lifeless in the street. The two wo-men are not dead, but it is hardly possi-

CLAWED BY A LION.

Gertrude Charlotta Planka's Narrow Escape from a Horrible Fate.

Minneapolis, Feb. 17.—Gertrude Char-lotta Pianka, whose faculty of cowing into submission monster denizens of the forest has been demonstrated in many cities, was clawed and seriously hurt during an act at a museum in this city this afternoon. Nero, the aged and ferocious beast who has killed three trainers during his exhibition ca-

reer, was the assaliant.
The affair caused pandemonium in the auditorium, and the curtain was rung down upon the scene, which struck terror into the hearts of eye witnesses. Prompt action upon the part of assistants in rescuing Mme. Pianka from the den was all that deprived the brute of a fourth victim. The injured woman will recover unless blood polsoning sets in.

WOMAN WIELDS A RAZOR.

She Tries to Kill Her Husband and Herself The Man May Die.

Rock Island, Ill., Feb. 17.—Seized with sudden insanity. Mrs. William Moore, of Rural township, in this county, at-tacked her husband with a razor yesterday, and before he could overnowe her she inflicted four severe gashes in his neck, two in the top of his head laying the skull bare, and one in his

She then attempted to kill herself with the same razor, but falled. Mr Moore is in a precarious condition, and his wife has been taken to an insannsylum. He is 65 and she is 62. They have lived in this county forty years and have five children.

THE PACE THAT KILLS.

Bettina Girard Dying in a New York Sanitarium.

New York, Feb. 17.-For ten years Bettina Girard has lived the pace that kills. As the talented daughter of wealthy parents, as the divorced wife of a multimillionaire and as a favorit of the footlights, she was courted. Now she is in a sanitarium in West Forty-third street, only a shadow of her former self, while two physicians are trying to save her life. She will probably die, or, if not, will be a mental and physical wreck for life.

RESULT OF A CHURCH WAR.

One Minster Snes Another for Damages Alleging Sinnder Belvidere, Ill., Feb. 17.-The little town of Capron, north of here, is all excite ment over a church war and as a re-sult the Rev. Mr. Best, pastor of the Christian church, has commenced two slander suits in the Boone county cir-

cuit court. One is for \$5,000 damages against the v. W. H. Tuttle, paster of the Methodist church, and one for a like amoun

against Mrs. Flora Young, a member of the Methodist flock. INDUSTRIAL.

Pittston Gazette: The Lehigh Valley Coal company has started work on ex-tensive improvements that are to be made on its West Side coal property. Some years ago, during the manage-ment of the late Mr. Moreur, a shaft was sunk in Exeter borough, about 1,660 feet from the Exeter colliery. It was intended to put it down to the Red Ash vein, but for some reason or other was never sunk lower than the Marcy, was never sunk lower than the Marcy, a distance of 400 feet. During the years that have passed since the work of sinking the shaft was stopped it has remained flooded with water. Since W. D. Owens was appointed to the superintendency of the Pittston district he has been endeavoring to have the company resume work at the shaft, and has at last succeeded. The company has decided a free the shaft from water has decided to free the shaft from water and then sink it 100 feet lower, through the Marcy and Ross veins, to the lowest or Red Ash vein. Preparations are now being made to pump the water out of the shaft, steam pipes being haid from the Exeter colliery to operate the pumps. The old wooden cribbing will also be taken out, and a fine new cribbing of concrete built from the surface to the rock, a distance of about thirty feet. This is done for the pur pose of keeping surface water from gatting into the shaft. The shaft will be sunk to the lower vein by contract, though the contract has not yet been awarded. When these improvements are finished the shaft will be placed in operation, and the coal will be contract. veyed by a small locomovive to the Exe-ter breaker to be prepared for market. The recent enlargements and improvements to the Exeter breaker and the new washery will enable the coal from both the Exeter and the new shaft to be prepared here, the capacity of the breaker being now about 2,500 tons a day. The present output of the break-er is 9,000 tons a week, and when the new shaft is in operation this amount will be more than doubled. An idea of the importance of the new shaft to the company may be gained when it is stated that through it, the company will be enabled to reach every foot of coal which it owns on the West Side. It will, in fact, be one of the most ex-tensive of the company's underground workings, and its opening cannot but

prove very beneficial to the community.

The Railway Age in its preliminary statement in December estimated the railway construction in this country in 1895 1,782 miles. The final report in-creases the mileage to 1,803 miles.

The American Manufacturer as usual makes a weekly capacity of pig iron furnaces in blast on Feb. 1 217,327 tons, which is 20,000 tons greater than the Iron Age's figures.
