PECULIAR POISONS. GENERATED IN THE HUMAN BODY

The Result of Imperfect Digestion of Food. Every living thing, plant or animal, contains within itself the germs of certain decay and death.

The stomach, from abuse, weakness, does not promptly and thoroughly digest the food. The result is a heavy, sodden mass which ferments the first process of decay poisoning the blood.

Poor digestion poisons the kidneys, causing Bright's disease and diabetes. And this is so because every organ, every nerve depends upon the stomach alone for nourishment and renewal.

The great English scientist, Huxley, said the best start in life is a sound stomach. Weak stomachs fail to digest food properly, because they lack the proper quantity of digestive acids.

The regular use of Stuart's Dyspepsia Tablets will cure every form of stomach trouble except cancer of the stomach.
