COYNE BEGINS A CONTEST. Says That Many Illegal Votes Were Cast

for William H. Fern. Attorneys C. C. Donovan and M. J. Donahoe, representing Patrick Coyne, of Minooka, Lackawanna township, yesterday morning filed in the office of Clerk of the Courts John H. Thomas a petition to the court for a contest to be instituted against William H. Fern, of the Archbaid mines, for the office of sunervisor.

At the election held on Tuesday, Feb. At the election held on Tuesday, Feb. 18, 1896, two persons were to be elected as supervisors of Luckawanna township, and the result was that James Ward, of Moosic, received 493 votes; William H. Fern, 396 votes; Patrick Coyne, 334 votes, and Adam Fasshold. 353 votes. Ward and Coyne were the Democratic candidates, and Fern and Fasshold were the Republican candidates.

dates.

The petition for the contest sets forth that Fern has been returned as having received a greater number of votes cast at the said election than Coyne, which return, it is alleged, is false, undue and illegal, for the reason that Fern was returned as having received 390 votes, whereas, according to the petition, he should not have been credited with more than 340 votes.

WOULD HAVE ELECTED COYNE. This would have elected Coyne by forty-four votes more than Fern. The specifications of fraud are more clearly set forth as follows: That Fern received certain votes in the various disly set forth as follows: That Fern received certain votes in the various districts of the township from persons not
qualified to vote for the reason that
they were not registered in the respective districts in which they voted, and
did not make or file legal proof by
means of affidavit as the law requires.
In the Northeast district twenty persons voted who were not registered nor
did they make affidavit; in the East
district there were two of this class;
in the South district there were thirteen, and in the West district, fifteen,
making in all a total of fifty persons
who were not registered and were allowed to vote without making affidavit.
The petitioner believes that the votes
thus enumerated were east for Fern
and received and counted for him and
that they should be deducted from the
return of the said election, which, if
done, will entitle Coyne to the office of
supervisor. The petition is signed by

Cry That There Was Politics Behind the Measure Shown to Be Untrue. What C. f. Chittenden Has to Say About the Matter.

The assertion of those who were instrumental in killing the ordinance regulating the depositing of city funds, that, politics was behind the measure is shown to be a very lame excuse for causing the death of this most excellent ordinance, for an examination of the minutes of councils yesterday revealed the fact that the originator of the idea was a Democrat, Victor Lauer, selectman from the Twenty-first ward. If the mere fact that the ordinance was the mere fact that the ordinance was introduced long before it was known even who the candidates would be, is not sufficient to still the cry of "poli-tics," now raised in self-defense by the ruthless slayers, this later development should certainly silence that excuse and compel the focs of the ordinance to admit the true reason of their opposition. It was way back in November that the idea of doing something to throw additional safeguards around the city treasury first occurred to Mr. Lauer. treasury first occurred to Mr. Lauer.
He gave the matter some consideration, and after laying his views before council, introduced a resolution directing the finance committee to frame and present an ordinance covering the ground reviewed by him. This was done, and in December the ordinance was presented and in due time passed with a few slight amendments without any objection being raised by the Democrats.

MATTER OF CONGRATULATION.

While the ordinance was on its way through select council Mr. Chittenden took an especial interest in the measure and frequently spoke in its favor. In one of these speeches he took occasion to remark that it was a matter of congratulation that the ordinance was introduced at a time when no one could have any grounds for saying that it had any political connection. At another time when the measure was threatened with delay by some overzealous supporters who wanted to make certain unnecessary amendments to it. Mr. Chittenden and others argued against it, saying that if the ordinance was allowed to hang fire until election time it would be in danger of death at the hands of the politicians.

Mr. Chittenden builded better than he knew. The ordinance was destined for death in case of Democratic victory, MATTER OF CONGRATULATION.

Mr. Chittenden builded better than he knew. The ordinance was destined for death in case of Democratic victory. That was decided upon many days before election. It will be remembered that the last scheduled meeting of common council, which should have occurred on Feb. 12, five days before election, did not take place owing to the absence of a quorum.

"Where are all your Democratic brethern, tonight, Mr. President?" is a remark one of the Republican members made to President Grier on that evening. The absence of the Democratic members on that night had no special significance to the uninitiated but now the why and wherefore is plainly apthe why and wherefore is plainly ap-parent. "I regret exceedingly," said he, "that "I regret exceedingly, said he, that they did not look at that matter in the proper light, and they may regret it themselves. It is only a question of time before there will be a big scandal over this thing." In referring to the excuse which the Democrats put forward for killing the measure, Mr. Chitnden said: "It has only been during the last few

SAY SO WITHOUT HESITATION FINDS IN Paine's Celery Compound the Greatest of All CIRCUMSTAN Remedies.

President Charles Dole is not the first great college president or great educaor who has been outspoken in praise of

Paine's celery compound. The detailed and convincing testimonial of President Cook of the National Teachers' Association, is fresh in

the public mind. One of the foremost educators in America, Principal L. L. Camp of the Dwight School, New Haven, has called Paine's celery compound the greatest

invigorator in existence. Such men as State Treasurer Colvin of New York, Mr. Carlisle's private secretary, Mayor McShane of Montreal, Rev. Fr. Ouellet, Commodore Howell, Rev. Fr. Ouellet, Commodore Howell, ex-Minister to Austria, John M. Francis, Edmund Russell, and a host of others whose character and learning are recognized by the world, have publicly stated that when they were sick it was Paine's eelery compound that made them well.

Thousands of equally responsible, though perhaps less widely known, men and women, whose word in their own cities and towns is as good as the best in the land, have testified to the merits of this, the greatest of all remedies.

President Dole was born in 1843. He graduated from Norwich University in he class of 1869, and became professor political science in the university. 1895 he was unanimously elected president, to succeed ex-Secretary of State Hon, George Nichols.
