"I cannot re-member the time when there was quite so much apathy preceding a presiden-tial campaign. This is owing doubtiess to the fact that the Democrats have given up the contest in advance. The number of candidates for offices under the incoming Democratic city ad-ministration is increasing daily. STONE SIX INCHES THICK. Then again, considering the large area that had to be covered by the stones over the mouth of it, and the fact that they were only six inches thick, it is a greater surprise that the massive granite blocks in the ap-proaches did not break through the covering. The stone did not reach all the way across the opening and left the space, which dropped in yesterday. A Tribune reporter visited the well in the afternoon and afterward called at the Platt residence, where he re-celved the information that it was dug in 1856 and abandoned on not yielding Taken in Churge by the Police and

That a systematic traffic in young girls is carried on to supply the immoral houses of this city has been known to the police for some time, but owing to the care which these fiends exercise to cover their tracks and prevent de-tection the principals in the trans-actions have so far succeeded in some in 1856 and abandoned on not yielding any water. They did not know that it was left in such a negligent condi-tion until it caved yesterday. They had intrusted it to be covered up when the road was opened up four years ago and the ground to the east of the road was sold for building lots.

Now, however, a case has come to light which, if the police do not become lax, should result in the appre-hension of at least two of these bar-terers in human souls. About 10 o'clock Saturday night two girls neither over 17 years of age were picked up on Lackawanna avenue and given shelter at the police station. To the officer in charge they told that their names were Nellie Carroll and Phoebe Newzie and that their homes are in Stroudsburg. They said that they had heard other girls telling how they went to Scranton and got good places to work and earned money to buy nice clothes and the like and they had about made up their minds to go to Scranton and hunt for a position when they fell in with a young man who agreed to send them to Scranton and provide them with positions as waltresses in a boarding house. They knew their pa-rents would not consent to their leav-ing home so they decided to run away and after getting settled to write and tell their folks where they were. WERE SENT TO THIS CITY. on Keepers of Disorderiv Houses. Two minions of the law who are charged with levying tribute on pro-prietors of disorderly houses, will have their alleged blackmailing exposed in court. They are James Clark, con-stable of the Eighteenth ward, and P. F. Ryan, deputy constable of the Twelfth ward. One night last week a man went be-fore Alderman Millar and told him that he had engaged Clark and Ryan to re-cover 317 which he had lost in a disor-derly house; that they had secured the money from the proprietress, who paid it out of her own pocket rather than have any trouble, and that the con-stables refused to turn the money over to him, thinking that he would not dare to make any fuss about the matter.

THE ALDERMAN'S MOTIVE. When they are arraigned. Alderman Millar intends to have them also prose-cuted for blackmail. His motive is not, he explains, to discourage legal prose-cution of such places, but he is deter-mined that blackmailing persecution shall not be carried on in his bailiwick, at least.

He took them to the house of Mad-ame Harris in Oakford court and left them. They were not in the place over fifteen minutes before they discovered the nature of the place and beat a hasty exit. A couple of railroad men who had followed the trio from the depot, sus-pecting that all was not right, were about to enter the house to make some inquiries about the two little girls when they saw them coming out. Not wish-ing to be mixed up in the affair any more than was necessary they went to the police station and reported the case as they knew it. This led to the girls being picked up as soon as they appeared on the prin-cipal streets. Yesterday morning they were sent back to Strondsburg on the milk train. GIRLS VERY INNOCENT. at least. Some time ago they had Lou Shannon and Lil Henry before Alderman Millett and Clara Welchel, of "Drug Store" fame, and Cora Oliver, of Center street, also suffered from their attentions. It is needless to say that Clark and Ryan did not prosecute any of their charges in court.

AN OLD WELL DISCOVERED.

It Is Close to the Roaring Brook Bridge

Forty years ago a well forty feet deep and ten feet in diameter was dug on the Platt homestead, but it gave no water and was abandoned the same summer. For a while the family used it as an overflow from the cistern and it was also turned to account as a place of ice storage; but a year or so after it was dug, it was covered over with a large flagstone six inches thick.

and it remained forgotten and unused until yesterday about noon. Some one passing up Platt place observed an opening, resembling the seg-ment of a circle, in the side walk which runs along the masonry of the anproach to the Roaring Brook bridge. His curiosity was attracted, for the

cavity in the street was not an ordin-ary one. As he peered down into the depth he was convinced that a sub-terranean cavern had been formed be-neath the bridge approach by the water of the rains of the last three days. He communicated his discovery to others and in an hour the place was

lined with people, anxious to view the havoe, which they had been led to benavoc, which they had been led to be-lieve was wrought by the elements with the great structure that cost so much of the taxpayer's money.
