New No. 13 School on Bellevue Heights Is One of the Prottlest in

Not only the cheapest, but in the opinion of many the prettiest and most commodious in the city is the new No. 13 school on Bellevue Heights, which will be completed and ready for occu-pancy before the end of this month. The school is situated on the top of a natural bluff in what was formerly known as the "clover field," which, dur-ing recent years, has been divided into building lots. From the turret of the building, which is eighty-five feet from the foundation, and at least fifty feet more from the level of Lackawanna avenue, the finest possible view of the city and valley is offered. Not a section of Scranton is excluded but the whole is offered in an astonishing pan-

The building is architecturally hand-some. It is built in the form of three squares, each square being smaller than the one immediately in front. The first division faces easterly and is built in two different styles; one square and one circular. Over the main entrance are two allegorical figures and the in-scription in stone, "School No. 13." There are five entrances in all, two on each side of the building beside the main one in front. The external makeup of the building is of brick veneer with a wooden frame. Over the win-dows are arches of buff brick, and the foundation is of best mountain yellow stone. The rest of the trimmings are of red stone from the West Mountain. The interior is finished in natural wood. Every room has from seven to nine windows, and the building is unusually well lighted throughout. There are twelve rooms for pupils each, measuring 24x32. The seating capacity of the entire building is 600 pupils. There are twenty-six small closets and three spe-cial teachers' rooms, each being ten-foot square in size. The halls of the two stories are handsomely finished. Upstairs in the attic a 98 by 128 foot

apartment is designed for the pleasure of the pupils during the period vor recreation. Smead & Wills had charge of the ventilating and heating. There are four furnaces, with one large fan for distribution of the hot air, and two smaller ones for discharging the use-less. The building cost \$28,573. Edwin S. Williams, who built the structure. obtained the contract for \$28,373. Smead & Wills bid \$3,200 for the ventilating, and were successful. John E. Duckworth was the architect. A QUIET WEDDING.

At the residence of Mrs. Reese, on La-fayette street, last Wednesday evening. Richard Reese, a popular young man of Hyde Park, was married to Miss Cas-sle Evans. Meeting of Wheelmen in the Interest o Better Roads-Rev. Father Feeley's Sermon at St. John's Church.

An enthusiastic meeting of the South Scranton Wheelmen's club was held at Germania hall last evening, the principal feature being the discussion of road improvement. The committee consisting of Charles G. Rosar, D. P. Murray, D. F. Crolly, H. P. Austin and Philip Scheuer, which was appointed to make arrangements for a public meeting, was instructed to fix a date within a month for the meeting, it to be at Germania hall. The streets and highways' committee of the board of trade consists of C. W. Westpfahl, M. P. Judge, S. S. Spruks, Christian Storr, and P. A. Cavanaugh, and both committees are working in conjunction to make the undertaking a success. Prominent speakers will be invited to

deliver addresses. One who has signi-fied his willingness to speak is A. H. Dunning, ex-county surveyor. He is an enthusiast in force an enthusiast in favor of better roads and has given the subject a good deal of thought. The Wheelmen's club, the board of trade and the firemen are determined that the road problem will not fall through for want of earnest agitators. They propose to carry the matter out until fruition crowns their

REV. FATHER FEELEY'S SERMON. Rev. J. J. B. Feeley, of the cathedral. preached the sermon of the Lenten devotions at St. John's church last eve-ning. His subject was on this season of penance being an acceptable time for renewing our favor with Almighty

God. He said that it was superfluous to preach to devout Catholies and ex-hort them by instructing them in the requirements the church expects in Lent. These are already prepared in the work of doing what is pleasing to the Savior. The speaker wished to ad-dress himself to those who have been delinquent in their duties, and he urged them to embrace this time of grace as a most acceptable one in which to become re-established in the pursuit of the salvation of their immortal souls.

Wall Street Review. New York, March 3.—There was a ma-terial falling off in the volume of busiterial falling off in the volume of busi-ness at the stock exchange today, and dealings in stocks dwindled down to 201,578 shares. The decrease in busi-ness was due chiefly to the fact that operators in stock have recovered from the scare produced by the Baltimore and Ohio receivership and the action of congress on the Cuban question. Find-ing the supply of stock small recent short sellers endeavored to cover, and short sellers endeavored to cover, and this with moderate buying for the long account led to an advance near the account led to an advance near the opening of 1/2a2 per cent. In the rise Cotton Oil preferred, Louisville and Nashville, Laclede Gas preferred and Tennessee Coal were most conspicuous. An incident of the day was the rise in St. Paul to 771/4 and the decline in Burlington and Quincy to 761/2. This is the first time in the history of the stock exchange that St. Paul stock has exchange that St. Paul stock has crossed Burlington and Quincy. St. Paul now stands second to Northwest in the Granger group. In the afternoon trading Tobacco dropped to 76 on re-ports from St. Louis that the outside companies intended to g) into the cigar-ette business. This gave rise to a ru-mor which could not be confirmed that the American Tobacco had sold 1,000,000 new preferred stock. The break in the stock exerted an unfavorable influence on the general list, but the decline, except in the case of Rubber, was unimportant. The stock named dropped 3 per cent to 24½ on the revival of the reports of internal dissensions. Toward the close a steadler feeling obtained in the general market. St. Paul at this the general market. St. Paul at this time exhibited considerable strength. Baltimore and Ohio securities were less active and if anything, somewhat steadier. The market closed steady to firm. Net changes show advances of Lal per cent., General Electric leading Tobacco lost %, Burlington and Quincy %. Rubber preferred 14 and do. common 1% per cent. Tobacco, which was the most active stock, figured for 70,400 shares. Burlington and Quincy came next with 24,800 and St. Paul third with

21,500 shares,

RAILROAD NOTES.

A record of train acidents in the United States for January shows that there were 50 collisions, 78 derailments, and 50 other accidents. Forty-seven persons were killed and 11 injured.

Old railroad men reported yesterday that they never had experienced such heavy winds as those which blew durneavy winds as those which blew dur-ing Monday night. All the night trains bound North were more or less delayed by the wind and several of them report being almost completely stalled on the mountain. Brakemen also relate some hard experiences with the wind and cold.

The risk taken in running "flyers" on trial trips against time is realized by the railroad companies as the
concluding sentence of the quoted paragraph below will indicate: "The Lehigh
Valley flyer made the run from New
York to Buffalo, a distance of 449 miles
in nine hours and forty-seven minutes,
which is considered pretty fast running,
especially since the train gained an
hour over its schedule time. Another
flyer will be run shortly the cars for
which are now being built by the Pullman Palace Car company at Pullman, man Palace Car company at Pullman Ill. There are to be two trains, each one of which will be made up of a dining car, day coach, chair car, and observa-tion car weighing, with the engine 359,-000 pounds. In order to be prepared for any emergency that may arise on ac-count of accident or other cause, the company is having three dining cars built." car, day coach, chair car, and observa

INDUSTRIAL. The Jeanesville shops are crowded with work at the present time and in order to reduce the heavy strain, a number of employes have been put or the night shift. The general dulness in the manufacturing trade throughout the country does not affect the ness at these shops in the least. Several large orders for pumps are or hand to be filled, principally for the mining region.

The new supply house, which has been in course of erection at Yorktown. by the Lehigh and Wilkes-Barre Coal company is now completed. future all miners in the employ of this company will secure their supplies at this place instead of the Yorktown store, as heretofore.

Inflammatory Rheumatism Cored in : Days.

Morton L. Hill, of Lebanon, Ind., says: "My wife had Inflammatory Rheumatism in every muscle and joint, her suffering was terrible and her body and face were swollen almost recognition; had been in bed for six weeks and had eight physicians but re ceived no benefit until she tried the Mystic Cure for Rheumatism. It gave walk about in three days. I am sure it saved her life." Sold by Carl Lorenz, Druggist, 418 Lackawanna avenue, Scranton.
