Member from Montana Resents the President's Missionary Speech.

WARM DEBATE IN THE HOUSE

Senato Considers Cuban Resolutions Mr. Hawley Points Out the Nation's Weakuess and Counsels Modern tion-Twenty-Five Bills Passed.

Washington, March 5.-In the senate Washington, March 5.—In the senate today Mr. Mitchell (Rep., Oregon), chairman of the committee on privileges and elections, continued and finished the argument begun by him yesterday in support of the committee's report declaring Henry A. Dupont, a duly elected senator of the United States from the state of Delaware. The matter wast over till Monday next, when ter went over till Monday next, when Mr. Turple (Dem., Ind.), representing the minority of the committee, is to present an argument on the opposite

The conference report on the Cuban resolutions was presented by Mr. Sher-man (Rep., Ohio), chairman of the committee or foreign relations—the report being that the senate recede from its disagreement to the house resolutions and agree to them as a substitute for its own resolutions. The report was made a special order for Monday next

The full text of the concurrent resolu-

The full text of the concurrent resolution is as follows:

Resolved, By the senate (the house of representatives concurring therein) that in the opinion of congress a state of public war exists in Cuba, the parties to which are entitled to belligerent rights, and the United States should observe a strict neutrality between the belligerents.

Resolved, That congress deplores the destruction of life and property caused by the war now waging in that island, and belleving that the only permanent solution of the contest, equally in the interests of Spain, the people of Cuba and other nations, would be in the establishment of a government by the choice of the people of Cuba, it is the sense of congress that the government of the United States should use its good offices and friendly influence to that end.

Resolved, That the United States has not intervened in struggles between any European governments and their colonies on this continent; but from the very close relations between the people of the United States and those of Cuba, in consequence of its proximity and the extent of the commerce between the two peoples, the present war is entailing such losses upon the people of the United States and tongress is of the opinion that the government of the United States should be prepared a protect the legitimate interests of our citizens by intervention if necessary.

MR. HAWLEY'S ADVICE.

In a brief discussion that took place while the report was before the senate, Mr. Chandler (Rep., N. H.), said that a his judgment the resolutions were not strong enough, and that he was in favor of action for the recognition and maintenance by the United States of the independence of Cuba, "at the risk of war with Spain." Mr. Hawley (Rep. Conn.), who had voted for the senate resolutions, intimated that there were considerations which should make senators stop and think before voting. The United States, he said, had exposed itself to unfriendly criticism in Europe, and it was within the bounds of possi-bility that this country would find itself involved in war, not with one nation, but with more than one. He ridiculed the talk about an American army of five or ten millions, and asked what those men would do without coast defences. Would they march down to the sandy beach of New Jersey and offer themselves as food for the enemy's canon? They could do nothing

The senate passed some twenty-five bills on the calendar that were unobjected to, and at 4.35 p. m. adjourned until Monday next.

The dry routine of debate upon the question of fixing the salary of a fed-eral marshal was interrupted today by a rather violent scene in the house, preman (Rep., Mont.), resenting President Cleveland's remarks in his Carnegle hall missionary speech, Tuesday night, in which he spoke of "corrupt and unsafe states and undesirable territories" in the west. Mr. Hartman denied the right of the president, as he said, to in-sult these sections of the country and the citizens thereof. He had not proceeded far ere he was called to order by Mr. Powers (Rep., Vermont), who

had admitted he had no religion, and therefor Mr. Sulzer contended he was not qualified to discuss the matter. Mr. Grosvenor responded, denying that he had said he had no religion, but he believed he would rather stand under that imputation than not to possess the slightest modicum of common sense. This was greeted with great laughter on both sides. Mr. Hartman finally concluded his remarks, resenting both on behalf of the maligned and slandered states the president's statements and asserting they demonstrated that the greatest need of school master and missionary was in the white house. and missionary was in the white house The Republicans gathered around Mr feet and applauded him loudly, while

frequently chew and smoke immense quantities of tobacco and wender all the time why then loot: so bad, feel so mean. Try under an absolute guarantee of benefit and final cure, or money refunded, the taking of a single box of

NO-TO-BAC

the Democrafs encouraged Messrs. Miles and Sulzer in their efforts to pre-vent him from continuing his criticisms

upon the president.

Early in the day the senate's request for a conference on the Cuban's resolutions was presented and agreed to and Speaker Reed announced Messrs. Hitt, Adams and McCreary as managers on the part of the house. The bill making the national military parks public fields for military maneouvres and drill by the regular army and state milita, under regulations fixed by the secretary of war was passed.

RESOLUTIONS ACCEPTED. The house and senate conferees on the Cuban resolutions were not in session over twenty minutes, and there was no dissenting voice in accepting the house resolutions. During the discussion it was stated by a prominent member of the senate committee that the second clause of the senate resolutions which asked Spain to recognize the independence of the island was a wanton affront to the Spanish government and her people and that by adopting it the senate had gone out of its way to insult Spain. The house resolutions, it was pointed out, went further and in addition to granting belligerent rights, declared the only solution of the trouble to be found in an independent government, of the the Cuban resolutions were not in sessolution of the trouble to be found in an independent government, of the choice of the people of Cuba and con-cludes with the significant words that the United States government should be prepared to protect the legitimate interests of American citizens by in-tervention, if necessary. This is looked upon as of more importance than any-thing to be found in the senate reso-lutions and it took no argument to per-suade the managers on the part of the suade the managers on the part of the senate to accept the house resolutions.

### NEWS FROM NANSEN.

of the Letter Sent by Peter Ivanowitch Kuchnareff. St. Petersburg, March 5.-Major Gen-

eral Svotlitsky, the governor of Irkutsk. eral Syothesis, the governor of tracast telegraphs here in reply to queries re-garding the reports as to Dr. Nansen's return, that Peter Ivanowitch Kuch-nareff, who trades at Ust Yansk, under date of Nov. 16, wrote to the merchant Kuchnareff at Yakutsk as follows:
"We learn that Dr. Nansen has
reached the pole, has dicovered hitherto unknown land and has now returned. Consequently the Arctic ocean has now been explored."

Governor Syotlitsky adds that there is no confirmation of this news from other sources, but he has instructed a member of his administration in the Verhoyansk district to proceed to Ust Yansk to verify the news and to aid the expedition if necessary.

The above dispatch will serve to clear

up several obscure points in the news that first came of Dr. Nansen's return and goes far to corroborate the report. The fact of there having been two Kuchnareffs involved in transmitting the first report has led to some confu-sion and to skepticism as to the report having been received from a really rehaving been received from a really re-liable source. It was pointed out that if the report came from the merchant Kuchnareff in Yakutsk there would be no ground for regarding it of special importance, as he would have no spe-cial facilities for getting news at first hand of Dr. Nansen's return. But the above dispatch asserts that the news came to Kuchnareff of Yak-

the news came to Kuchnareff of Yakutsk from the trader Peter Ivanowitch Kuchnareff. Now Peter Ivanowitch Kuchnareff is the accredited agent of Dr. Nansen and has been intrusted with a supply of Eskimo dogs for his expedition. His trading post at Ust Yansk is on the Arctic ocean at the mouth of the Yana river, just south of Liskov Fork. Island, one of the New Siberians, and less than 200 miles east of the Lena delata. Beyond the fact that the date of the trader Kuchnareff's letter is fixed at Nov. 10 there is little additional information in the dispatch from the governor of Irkutsk over that contained in the dispatch bringing the first report

## INDUSTRIAL.

The Reading company will build a new breaker at Treverton, Pa.

John Fahey, president of the United Mine Workers of America, has established ninety lodges of the Union in the Ha-zleton, Pa., district.

The Lehigh Valley company is putting electrical machinery into its Malthy colliery. All the machinery is being furnished and erected by the General Electric company of Schenectady, N. Y. It is estimated that it will not be in operation before the first of June.

Philadelphia Inquirer: The return of anthractic coal sales in the Schuylkill region in February do not show that the new coal combination is very oppressive to the consumer as yet. In fact the reanthracite coal safes in the Schuylkill receeded far ere he was called to order
by Mr. Powers (Rep., Vermont) who
said he did so because there was nobody on the Democratic side related to
the president by affinity or consanguinity who seemed sufficiently interested
to act. The chairman, Mr. Hepburn
(Rep., Iowa), ruled that the speaker
was proceeding within the rules and
Mr. Hartman proceeded. Inspired by
Mr. Powers, Mr. Hartman's further remarks were loudly opposed by Messes,
Miles (Dem., Md.), and Sulzer (Dem.,
N. Y.), but they could not head him off
The former appealed from another decision by Chairman Hepburn, holding
that Mr. Hartman's remarks were not
obnoxious to objection under the rule
requiring debate to be germane to the
subject under discussion, but all the
Republicans and some Democrats voted to sustain it, the appeal being overwhelmingly defeated.

In the course of the accident, Mr.
Grosvenor (Rep., Ohlo) who was endeavoring to get time in which Mr.
Hartman could finish his remarks, became involved in a colloquy with Mr.
Sulzer. The latter objected to Mr.
Grosvenor taking part in the affair,
because in a speech the other day he
had admitted he had no religion, but he
held valued admitted he had no religion, but he
held admitted he had no religion, but he
held valued to discuss the matter. Mr.
Grosvenor responded, denying that he
had said he had no religion, but he
held valued to discuss the matter. Mr.
Grosvenor responded, denying that he
had said he had no religion, but he
held valued to discuss the matter. Mr.
Grosvenor responded, denying that he
had said he had no religion, but he
held valued to discuss the matter. Mr.
Grosvenor responded, denying that he
had said he had no religion, but he
held valued to discuss the matter. Mr.
Grosvenor responded, denying that he
had said he had no religion, but he
held valued to discuss the matter. Mr.
Grosvenor responded, denying that he
had said he had no religion, but he
held valued to discussible one
will be held.

RAILROAD NOTES.

RAILROAD NOTES.

The impression is now abroad that it will not be necessary to forchose the Baltimore and Ohio property. A heavy assessment of the preferred and common stocks and the raising of a large collateral trust loan will be tried so as to avoid the forcelosure. Steps are already being taken to improve the condition of the road. Private dispatches from Baltimore state that the repair shops in that city have been placed on a new schedule of coeration, running ten hours a day instead of eight, and that the utmost efforts will be made to put the rolling stock in heiter condition at once, in order that it may as soon as possible begin to show in the earnings returns.

At 6 o'clock Tuesday Lehigh Valley freight engine, No. 33, was thrown into the Lehigh river at Gap Junction, north of the Allentown furnace. The engine was drawing a west-bound train and when it reached Gap Junction on the main line the target was turned against it for a passenger train that had just left Allentown on the loop line. The mognenium of the freight train was so great that the engineer could not stop and the engine was thrown off the track at the derailing switch. She did not stop there, but went down the steep embankment into the Lehigh river. Fortunately, the couplings broke and no cars followed the engine. Several box cars were, however, thrown off the track. RAILROAD NOTES.

Several box cars were, however, thrown off the track.

The danger that railroad men have encountered during the last few days is shown by the experience of E. L. Bullock, superintendent of the Beaver Brook colliery near Hazleton on Wednesday, Mr. Bullock was traveling on Lenigh Valley passenger train No. 255 just east of Buck mountain and in passing from one car to another, a gust of wind blew off his hat. He reached for it, and just then another heavy gale of wind carried him off the train, which was running at the rate of about thirty miles an hour. One of the trainmen noticed Mr. Bullock falling and quickly signaled the engineer, who brought the train to a stop. The train was run back to pick up the body of the man, whom everybody expected to find dead, but strange as it may seem, they found him walking toward the train. The injuries sustained are principally about the head, but nevertheless very painful and sufficient to confine him to the house for several days.

Wall Street Review

New York, March 5.—During the early trading at the stock exchange the market was in the main firm. The improvement in prices ranged from ½ to 2 per cent, and was most pronounced in the case of Tobacco and Burlington and Quincy. The short interest in these tracks has assumed large protestrions. and Quincy. The short interest in these stocks has assumed large proportions of late and as usual in a limited market speculators are nervous. It was but natural for the shorts to rush into cover when the stocks referred to began to give evidences of strength. The bears in their efforts to cover put up Tobacco to 78 and Burlington and Quincy to 77%. When the demand from the short interest abated the market weakened. Baltimore and Ohio then sold down to 15%, the lowest point ever touched. The weakness of the stock finally affected the general list, and in the last hour the whole market was heavy. The weakness of Baltimore and Ohio was due to the general belief that the slock will be heavily assessed in the proposed reorganization. It was the stock will be heavily assessed in the proposed reorganization. It was announced today that President Fitzgerald of the Mercantile Trust company is to be the chairman of the reorganization committee. August Belmont, of the Louisville and Nashville and Henry Budge, of Hallgarten and company have been added to the committee. In the industrials Sugar and General Electric were strong and Rubber and Laclede Gas irregular. The resignations of President Bannigan and Director Hollins, of the Rubber company, kept this stock féverish. In the pany, kept this stock feverish. In the closing hour the market was weak on realizations. Net changes show losses of 1441 per cent. Baltimore and Ohio. however, lost 3% per cent. Total sales were 193,734 shares.

however, 10st 37g per cent.

were 193,734 shares.

# RUPTURE CAN BE CURED.

Many people say no: that is because they have heard of so many failures where the truss or the knife have been relied upon. Science has developed a new and better way—a system of treatment that positively cures and does away with the truss entirely afterwards. Dr. A. P. O'Mailey, Rupture Specialist, 20 South Washington street. Wilkes-Barre, administers this new treatment. There is no detention from business and persons from out of t.wn can receive treatment and return home the same day. An absolute cure is guaranteed. There is no charge for examination. A visit once a week for four to eight weeks will usually be sufficient for the most stubborn cases.

N. P.—These not wishing treatment can be fitted with the celebrated O'MALLEY TRUSS, guaranteed to hold any rupture that can be returned giving ease and comfort.
