SHOT AT A CONSUL.

An Attempt is Made to Murder a United States Official. New York, March 19.-Felix Taussig, who represents a New York importing house, arrived today on a steamer from St. John, Porto Rico. He asserts that an attempt was made on the life of United States Consul Hall by a soldier on March 4. It seems that the consul's residence adjoins the county prison. The consul was fired upon by a soldier who whizzed close to his head. The shooting created excitement. Hall has written the facts to Secretary Olney. It was reported that the shooting was accidental and the soldier was firing on an escaping woman prisoner, but Taussig asserts that it was a deliberate attempt on the life of Hall. The news that congress is about to recognize the Cubans reached St. John on March 3 and caused considerable comment. When Consul Hall asked Governor General Martin for an explanation of the occurrence, said Mr. Taussig, the governor told him with a smile upon his face that the shot was fired at a woman who was looking over the wall at the side of the public highway into the prison. Martin asserted that it was the rule of the prison for the guards to fire upon any person looking over the wall. The wall is but four feet high, and a person passing along the street could not well help seeing the prison yard, so the explanation vouchsafed by General Martin did not satisfy Consul Hall, who thinks the shot was fired at him intentionally.

CHASED BY SPANISH SHIP

Experience of a Fruit Vessel on the High Seas. Boston, March 19.-An officer of the British steamer Ethelred, Captain Hopkinson, which arrived this morning from Jamaica ports, reports that on March 11, on the outward passage from this port to Jamaica, the steamer was chased by a Spanish cruiser for an hour and a half by a Spanish vessel. The Ethelred was steaming about eight miles off Cape May, the eastern end of the island of Cuba, on her destination. She was going westward, and the Spanish vessel, a Spanish cruiser, was sighted, evidently on the lookout for a supposed filibustering steamer. The cruiser hoisted a flag and fired a shot which was answered by the Ethelred. The latter continued on her way, but the warship started in pursuit and kept it up for a considerable time. The Spaniard could not make over nine knots and was no match for the fruit vessel. When first seen by the Ethelred another cruiser was in company with the proscribed vessel. The latter had no interest in the proceedings. No shots were fired from the warship, as the distance was too great for any display of gun power. It is claimed that as the Ethelred was within three miles of the coast she had no right to attempt to stop her. The Ethelred obtained considerable notice last summer in a gun duel with the Cuban coast by the Spanish gunboat.

A SPOOK LUNCH.

Ghastly Manner of Celebrating a Wedding Anniversary. Akron, O., March 19.-A few nights ago the anniversary of the wedding of a gentleman was celebrated by a "spook lunch." Each guest was handed a divided skeleton with the request to make a complete one, and repair to the incinerator. The guests brought suitably arranged for such an occasion. Numerous skulls and crossbones decorated the walls, ceiling and chandeliers, and several large skeletons of other regions with messages to prominent physicians among the guests, were placed in frames of black and white. Seated on a raised dais a ghastly company of interested and disinterested music-suitable to the occasion. A feast, unique in character, was served by goblins in wild fantastic dress. The entire scene was illumined by red light. As the feast proceeded the lights were extinguished one by one by a gust of the wind from "spook-dom." All the guests were left in total darkness. Each change was strange and bore its impression of ghostliness.

It clothes the attorney general of the state with greater power than he now possesses in proceeding against such combinations. The bill is accompanied by a lengthy report from the judiciary committee endorsing an opinion from attorney general Stockton, upon whose suggestion the measure was based.
