ADJOURNMENT RESOLUTION

Mr. Platt Offers the First Suggestion to Close the Talking Bee.

THE DATE IS FIXED FOR MAY

Mr. Gallinger's Bill Regarding Uso of Public Moneys Is Laid on the Table-Personal Encounters in the House-Other Topics.

Washington, March 25 .- A movement in the direction of an early adjourn-ment of congress was made in the sen-ate today by Mr. Platt (Rep., Conn.). who offered a resolution to fix the time of final adjournment for the second of May next. In offering it Mr. Platt remarked that it was time to consider the subject. The resolution took the usual course. In reference to the committee on appropriations. It will probably be not reported back until all the ably be not reported back until all the annual appropriation bills have passed both houses. After the legislative ap-propriation bill, which has been before the senate for the last three days, shall have been disposed of there will be only two others left for action by the senate. These are the Indian and the postoffice appropriation bills, another of which is likely to come than which is likely to occupy more than one day. Nearly all the discussion to-day was on the subject of changing the fee system of United States district attorneys and marshals to a salary sys-

were agreed to.

A joint resolution to amend the constitution by prohibiting congress and state legislatures from using public moneys in aid of any institution controlled wholly or in part by any sec-tarian of religious association, was in-troduced by Mr. Gallinger (Rep., N. H.,) and laid on the table for the pres-

HOUSE PROCEEDINGS.

There was a slight reminder of yesterday's proceedings in the house today when Mr. Boutelle (Rep., Me.) rising to personal explanation, stated that the colloguy between himself and Mr. Wheeler (Dem., Ala.) regarding the at-titude of ex-confederates toward the bill to retire General Grant had been changed. He said it did him an injus-tice, for as printed it left his statement resting upon nothing, where as, as it actually occurred, it was based on the record of the house.

Mr. Wheeler explained that he had changed the copy in order to correct a mistake in his statement, having been denied an opportunity to make the cor-rection in open house in the course of the debate, when he had discovered it yesterday. The record was ordered corrected so as to accurately report what had occurred.

what had occurred.

Before this incident Mr. Bartlett
(Dem., N. Y.) as a matter of personal
privilege, denieds the truthfulness of
an item in yesterday's Washington Post stating that he had furnished to Mr. Sulzer (Dem., N. Y.) the copy of the circular letter to his constituents written by Mr. Gibson (Rep., Tenn.) which had formed the subject of the rather amusing passage between those gentle-men in the course of the debate on the Bayard resolutions of censure.

These personal matters being out of the way, the house addressed itself, in committee of the whole, to the consideration of the naval appropriation bill. All of it, save the paragraph providing for new ships, was disposed of by the committee, with a single amendment, appropriating \$60,000 for building the quay and wing walls of the Brooklyn dry docks. The only incident of interest in the discussion was the renewal of the old fight to transfer the naval observatory from the jurisdiction of the navy department, introduced by Mr. Cannon (Rep., III.) There was a rather Cannon (Rep., III.) There was a rather warm exchange of sarcastic compliments between Mr. Cannon and Messrs. Boutelle and Robinson (Rep., ra.) on the subject, but nothing was done with

CUBAN CONFEREES.

After a session of three quarters of an hour this afternoon the conferces on the Cuban resolutions adjourned until tomorrow without reaching a conclusion. The drift of the discussion showed, however, that there was a firm intention on the part of the committee to report resolutions that resolutions tee to report resolutions that would meet the approval of both houses. There appeared to be a more favorable feel-ing toward the senate resolutions this afternoon, it having been made plain to the managers on the part of the house that the house resolutions could not pass the senate. It is believed that ultimately the house will accept the senate resolutions. The conferees hope to settle the matter finally tomorrow.

VARIOUS NOTES. The president today sent to the senate the nomination of W. H. Klie to be

postmaster at Cambridgeboro, Craw-ford county, Pa.

The following fourth class postmas-

ters were appointed in Pennsylvania today: B. F. Dock, Dry Valley Cross Roads; T. C. Kane, High Lake; G. M. Ellis, McLallen Corners; Miles Endress, Union Church

FATE OF THE RESOLUTIONS.

House Managers May Yet Agree to the Senate's Cuban Programme.

Washington, March 25.—When the matter of accepting the senate resolution was being discussed by the conference committee today, one member of the committee today, one member of the committee took the ground, that this government had no right to ask another government to recognize the independence of one of its colonies, which was in insurrection and it was insisted that this would be a causus belli. In answer to this it was shown that when the Cubans were in insurrection before, our minister to Spain, General Daniel Sickels, was instructed to exercise his good offices to secure such a recognition at the hands of Spain, and that at that time, Spain took no offense at the action.

All things considered there appears to be a desire to accept the senate resolutions, and if this is done there is no doub; but that the house would agree to such a report. Washington, March 25.-When the

is no doubt but that the house would agree to such a report.

The condition of affairs in the senate was discussed this afternoon very frankly. It was made plain that there was a small, but determined minority, headed by Senator Hale that did not propose to permit the Cuban resolutions to ever come to a vote if they could prevent it. In fact the committee on foreign relations had been tee on foreign relations had been warned that a quiet but effective sys-tem of fillbustering had been mauguattorneys and marshals to a salary system, the amounts proposed in the bill-being assalled as extravagant by Senators Allen (Pop., Neb.), and George (Dem., Miss.) In all cases, however, the propositions for the higher amounts were agreed to. from the senate to the house, where fillbustering could not, under the rules, be engaged in. It is believed to be the most probable outcome of the confer-ence, and it would not surprise the members of the house tomorrow if the house managers recede from the house resolutions and accept these originally passed by the senate

Wall Street Review.

New York, March 25.—Speculation at the Stock Exchange today was of a midsummer character, the dullness having been extreme. Only 16,500 shares were traded in and in this meagre total Sugar was the most active. Notwithstanding the dullness the tendency of prices was in the direction of Improvement. London bought moderate amounts of its favorites and this with slightly higher prices from abroad and the belief that the political situation of the United States as affecting the outside world had improved and assisted the rise which took place in the general list. The greatest gains were made in the Industrials. Chicago Gas advanced a point to 67% on the reports that the directors intende to resume the payments of dividends. Tobacco, after an early decline from 83 to 82½, rose to 81 and closed at 83½. The story in the board was that the directors at their meeting on Wednesday mext will declare a dividend on the common stock. Nothing official could be obtained. The reports about a consolidation with the outside manufacturers were again revived and vigorously denied by the western people who are not in the combination. It has been remarked that the American Tobacco directors are singularly quiet about the matter. Sugar first fell % to 114 and rose to U55, all5. General Electric was firmer and ranged between 35 and 35%. The railway list was firm, but the variations were marcly fractional. St. Panj was strengthened by the increase in its carnings for the third week of March of nearly \$115,00, Louisville and Nashville advanced within a fraction of 50 on burchases by £ondon houses. Speculation closed firm with prices anywhere from ½ to ½ per cent. higher.
