ELECTRIC LIGHT POLES.

There Were 803 New Ones Erected During the Fiscal Year 1895.

Chief Simpson yesterday completed his count of the telegraph, telephone, electric light and trolley poles and sub-mitted copies of it to the treasury and street commissioner's departments, as is required by the pole tax ordinance.
Upon this count the city treasurer assesses the fifty cents tax imposed on each pole. The street commissioner takes note of the poles not properly painted, numbered or labeled and it is his duty to compel the company owning the pole to live up to the law. In case a company falls to observe the provisions of the ordinance the street commissioner has power to cut down the pole. Altogether there are 6,947 poles in the city, of which 522 are not properly labeled. There are also 95 poles that could not be identified at all.

None of these poles, however, will es-cape taxation as the street commissioner proposes, after a reasonable length of time, to remove every pole that remains unclaimed.
On April 1 of last year, according to

On April 1 of last year, according to the police count, there were 6,144 poles in the city. During the year 803 new poles were erected. HOSPITAL IS SUED.

Patient Who Glaims Dr. Rudasill Kicked Ilim Wants \$10,000 Damages.

A suit for damages was brought in court yesterday against the Lackawanna hospital of this city. Theodore Phillips is the plaintiff and he asks the sum of \$10,000 on account of great pain, anguish of mind and humiliation he claims he suffered by being willfully. claims he suffered by being wilfully and maliciously kicked, beaten and abused by Dr. James E. Rudasill, who was senior house surgeon in February

1895. Mr. Phillips states that he entered the hospital as a paid patient on Feb. 23, 1895, to be treated for an injured hip. One of the conditions of his admittance was that he should be cared for and treated as a private patient and he should pay for such at the rate of \$5

a week.

After he was there a short while Dr. Rudasill, one day, he alleges, subjected him to a severe castigation, of such a nature that he was confined to his bed until May 2, of last year, during which time he underwent the sufferings complained of.

BAYLOR IS THE DELEGATE

Third District Democrats Have Endorsed His Selection.

VERY SWEEPING RESOLUTION Ex-Mayor Loftus Did Not Like It, but He Finally Gave It Ills Vote and

Named Mr. Baylor as a Legie-

Intive Possibility. At a meeting of the Democratic standing committee of the Third legislative ing committee of the Third legislative district, held yesterday afternoon in the St. Charles hotel, the action of the Democratic county committee in electing W. W. Baylor as the Third district's delegate to the state convention was endorsed. Another resolution was adopted, requesting that the rules of the Democratic party be changed so as to permit legislative districts to chose their own representatives to state conventions.

The meeting was called to order at 2 m. by E .H. Fisk, of Dalton, the chairman. Other members of the com-mittee present were E. H. Reed, of Glenburn, secretary; William Knight. Benton; E. H. Bailey, Waverly; J. L. Keough, Old Forge; E. J. Ward, Moosic; M. W. Loftus, west district of Lackawanna township: Thomas Sca-hill, east district of Lackawanna township; J. J. Lynch, north district of Lackawannna; James Dunn, Sixth ward, Scranton; G. L. Timlin, Taylor, W. W. Baylor was substitute for George Johnson, of Ransom; E. E. Sweet for George W. Cramer, of Greenfield, and Frank R. Coyne for John Haines, of

Frank R. Coyne for John Haines, of Spring Brook.

Immediately after the meeting was rapped to order and before the roll was called 'Squire Keough, of Old Forge, arose and addressed the delegates, He said that they met to harmonize the party, not to divide it. In his opinion to would be to be a second assertion. it would look bad to send a contesting delegate to the state convention from the Third district and he therefore moved that the action of the county committee in naming W. W. Baylor as the state delegate for the Third district

THOUGHT HIM "TOO PREVIOUS." Mr. Loftus, of Moosic, an ex-mayor of this city, claimed the attention of the delegates as soon as Mr. Keough fin-ished. He thought the preceding speak-er was "too previous," and that the roll should be called and business pro-ceed in a regular way. "We may elect Mr. Baylor," said Mr. Loftus, "for he is a clean man, and I have no objec-tions to what the gentleman said about him. It is our right to elect a delegate and I don't think we should surrende that right to the county committee."
The roll was then called and the cre

dentials of proxies received, after which Mr. Coyne offered the following resolutions and moved its adoption: Whereas, The Democratic committee of the Third Legislative district of Lackawanna county, having met pursuant to a call by the chairman for the purpose of electing a delegate to the Democratic state convention, to be held in Allentown on the 29th day of April, 1895, therefore be it resolved:

it resolved:
First—We recognize that the right to elect delegates to the Democratic state convention is vested in the Democratic county committee, under the rules of the barry.

county committee, under the rules of the party.

Second—We deplore the actions of certain persons of the Democratic party, who for personal reasons wish to override the rules of the party, thereby causing dissatisfaction and strife in our ranks, which will surely bring disorder to the organization and defeat the party at the polis.

Third—We hereby indorse the action of the Democratic county committee of March 10, 1896, electing delegates to the Democratic state convention, to be held in Allentown on the 25th day of April, 1896, PROTEST AGAINST RESOLUTION. Mr. Loftus did not admire that reso-

lution and he said so very plainly. "We say a good deal about having our rights as representative men of this district." he declared, "but we will never again get in the position we once occupied with reference to electing state delegates if we adopt this resolution. If we do this we endorse the county committee in doing just what we don't what it to do. It appears to me that we should elect a delegate here instead of endorsing the action of the county committee. That's what we came together for and if we don't do it we might as well not have met. I think we should serve notice on the county committee not to elect delegates hereafter for we cannot get harmony by this sort of action. This resolution will pass but I don't think it is right that it should."

Mr. Coyne read the rule of the party governing the election of state delegates rights as representative men of this

governing the election of state dele-gates which gives that duty to the county committee. While they might think that was not the best way to elect state delegates, still that was the rule and what could they do but make an effort at some future time to have an effort at some future time to have it changed. Mr. Loftus said that his belief was that the rule had been changed at a county convention held since the adoption of the rules read by

Mr. Baylor then explained that the change referred to by Mr. Loftus was intended to be made by a resolution introduced by W. J. Burke but that the county convention had no power to act upon it when it was presented, a fact that Mr. Burke has since admitted. No one has paid any attention to the resolution because it was known to have no binding effect. In concluding Mr. Baylor said that the only thing they could do was to endorse the action of the county committee on this occasion and then begin an agitation in favor of having the rules amended at

the next county convention.

Mr. Keough made a short address in which he pleaded for harmony and the endorsement of the county committee's action.

The resolution was put to a vote and was carried even Mr. Loftus favoring it. In deference to the wishes of that gentleman Mr. Coyne offered the fol-lowing resolution which was adopted after which the committee adjourned: We recommend that at the next Democratic county convention the rules of the party be so changed and amended that each legislative district shall have the power to elect its own delegates to the Democratic state conventions.

After the meeting the members of the committee discussed politics in an in-formal way and Mr. Loftus suggested the name of W. W. Baylor as the next Democratic nominee for legislature in that district.

The Influe 102 of Aries.

The supposition that a child born on this day will be an April fool is entirely erroneous. The sun entered the sign of Aries on March 21 and will remain until April 19. All children born between these dates will therefore belong to the class of natural brain workers, thinkers and reasoners. They will be independent characters and can be controlled only by reason. If planetary influences are evil they are apt to be headstrong. They will need to do everything their own way, and if required to work after rules of another will be liable to become confused. They are not apt to be mechanics, but will generally be most successful in educational pursuits, as Aries is the highest intellectual sign in Zodiac.

The ancient astrologers say that "the sun being in Aries maketh them who are born neither very rich, neither very poor. Also angry, but soon pleased, studious, eloquent, diverse proud and luxurious; promising mountains of gold and performing nothing. He will be in danger of being cast off a horse, and in danger of being hurt by four-footed beasts, as being cast off a horse, and in danger of being wounded by sharp instruments or ilrearms. In other things he will be more fortunate and happy and also long-lived. Also, if it be a girl that is born, she will be given to lying, quick tempered, fair, curious, delighting in new and strange things, envious and fruitful in children. She will be in many perils and dangers whereby she will receive a scar on the head, or else be naturally marked there or in the feet. Children of Aries being born in the day will be fortunate, and of great reputation and renown amongst great men and princes; contrary wise they who are born in the night will be unfortunate and of no reputation."

Children born under Aries are usually fond of music and dancing, and have much electrical fire in their nature. They are more liable to brain diseases than others, and ever exertion and excitement will usually produce headache. Harmony and out-door exercise is absolutely necessary to the health of persons
