I cannot say enough in praise for what they have done for me. I am using two bottles of Hood's Sarsaparilla and Hood's Pills occasionally. I feel almost like a new person. The dealers are beginning to realize the importance and the benefit to be derived from belonging to the organization. Under the present delegate system, if every officer holder claimed and received the Montrose delegates for re-nomination simply because he was obliged to live in the town, it would be a great disservice to which he was elected. Montrose could never have a choice of an officer, except as he voted for re-nominations.

The bond of High Constable Smith, \$1,000, was read and referred to the burgess. Treasurer Turner's bond was fixed at \$6,000, which was also referred to the burgess. To the Tribune representative E. H. True made the following statement: "The only proposition ever passed between Mr. Van Wormer and myself other directly or indirectly was made by myself to him that we should each take one delegate, and the question of their voting for Mr. Wright without any return from his own political home was to be submitted to arbitration. In case I win this fight I am willing, as I have been all through, that Mr. Van Wormer should have the support of one delegate. There has never been any question between Mr. Van Wormer and myself on this point, except as he has raised it by entering this fight with Mr. Wright, against myself. Under the present delegate system, if every officer holder claimed and received the Montrose delegates for re-nomination simply because he was obliged to live in the town, it would be a great disservice to which he was elected. Montrose could never have a choice of an officer, except as he voted for re-nominations."

A FEW FRIGID FACTS ABOUT REFRIGERATORS

Did you ever stop to consider how many \$'s worth of meat, milk, butter, etc., you throw away every summer for want of a good Refrigerator, to say nothing of the inconvenience and extra cost of being compelled to buy all perishable articles in dribbles. Now a really good one will save enough of those \$'s in one season to pay for itself, and that is the title we claim for the New National.

Peruse These Pointers:

To obtain best results a refrigerator must be thoroughly cleaned once a week—a difficult task ordinarily, but so easy with The National. You simply remove ice chamber, drip pan and waste pipe, and there you are. (See cut.) An ingenious little device enables you to remove waste pan and drip cup from front, thus avoiding the old back breaking method. These new points, coupled with a finely polished oak case, carved panels and Roman gold trimmings make this the simplest, most ornamental and economical refrigerator on the market. Call or write for catalogue.
