LEBECK & CORIN

HONESDALE.

The 4-year-old son of Fletcher Bennett was drowned in Egan's pond at 10 o'clock yesterday afternoon. The boy was swimming near the pond and finally discovered that his boy was missing. He at once began looking for him and soon found the body floating on top of the water.

On Wednesday of this week the London Assurance Corporation paid to J. B. and L. B. Egan \$200, the amount of the policy of insurance held by them in that company on their hotel property at Beech lake, which was destroyed by fire in October last. It was reported soon after the fire that the Egan brothers had settled with the company for \$200. This was not so. The company made them a proposition to settle for that amount, alleging a defective title as a defense to the claim for insurance. This proposition was refused and the matter placed into the hands of an attorney, with the result above stated.

Richard Oswald, of Scranton, made a hurried trip here yesterday.

The engagement of Miss Margaret Lacey, of West Pittston, to Irving Stanley White, of Honesdale, Pa., has been announced. Mr. White will be known here.

As the roads begin to dry up the fact that there are many new wheels already in town becomes more prominent.

DISEASE GERMS IN STAMPS.

Philatelists Run Great Risks with Microbes and Such.

Having successfully disclosed the hygienic dangers inherent to the kind of the telephone receiver and the towel, medical science has now turned its attention to the perils that beset the philatelist's art. According to Dr. Cima, a patient was recently attacked by a peculiar parasitic growth in the beard. On making a minute examination of some of the hairs the doctor recognized the disease as "hidrad," which is chiefly met with in British Columbia.

The doctor's friend had never been in Columbia, but he frequently received letters from correspondents there, and being a collector of postage stamps, he was in the habit of removing them from the letters. In Dr. Cima's opinion the germ on a postage stamp is an excellent material for retaining any disease germs that it may receive from the application of the tongue, and in removing stamps when the moistening is done with a sponge--there is always a danger that the collector's fingers may receive and communicate the contamination.

Seemed Sufficient.

RUNAWAY YESTERDAY.

Bashes Down Lincoln Avenue at Frightful Speed.

Not a little excitement was caused yesterday afternoon on Lincoln avenue when a horse attached to the single cart wagon of the Columbia Horse company came dashing down the street at frightful speed.

The horse was driven by James King and at the head of Lincoln avenue became frightened at some object and started off. King endeavored to control the frightened animal but it was of no use. At Church street a street car was passing, and was narrowly shaved by the horse. It turned at the intersection of the street, and the collision checked the speed of the horse somewhat and it was captured. The driver, however, neither the horse or driver were hurt.

AT BICYCLE ROOMS.

The Sages Give a Private Performance of an Enjoyable Character.

Quite a number of persons assembled in the Carbondale cycle rooms yesterday afternoon by invitation, to witness a performance given by Hyponotist Sage. Nearly every one in the room was tried and several very susceptible persons found they were unable to move their limbs. Sage covered a stick of dynamite with the command of the hypnotist. Several were made to forget their names and it was very amusing to see them go to various people in the room and ask them to tell their name.

The entertainment lasted about an hour, and when the firm finally dispersed they were all firm believers in hyponotism.

NEW DISINFECTANT.

An Effort Will Be Made to Start a Plant Here.

The subject of electrozone for a disinfectant is again brought before the council by the visit of Joseph Deeks, of New York, who represents the manufacturers of Wolfe's electrozone for the treatment of sewers.

Last year Mayor Hendrick took an interest in the matter and a visit of the inventor to the island plant. Nothing was done, however, and the subject will probably be dropped until the extension of the main sewer.

Loyal Knights of America to Debate.

The regular meeting of Franklin lodge, No. 32, Loyal Knights of America, will be unusually interesting, this evening. Besides the regular meeting there will be a debate between members of Rose of Lackawanna lodge, No. 32, of Jersey, who will be present, and members of the local lodge. The question of debate will be "Shall a boy have a dollar before he earns it." Those from the Jersey lodge who will take part are: Wm. Lewis, D. P. Morgan and Richard Friend.

Lotus Club to Banquet.

The annual banquet of the Lotus Social club will take place next Wednesday evening and from the preparations made the affair will be an enjoyable one. The arrangements are under control of the following committee: F. A. Dyer, F. P. Lavin, J. E. Clune, M. F. Neary, J. E. Beegan, R. J. Malone, J. J. Seaton, L. O'Grady and James Hamilton. Ladies Receive the Veil.

They were addressed after the ceremony by Bishops O'Hara and Huban. The relatives of the candidates as well as a number of clergy-men from various parts of the diocese were present.

Mr. Sewell Resigns.

Another change occurred yesterday in the Carbondale traction company when James Sewell, who was lately appointed superintendent of the road, resigned his position. The place was formerly held by D. J. Duncan who is the resident of Newell, was immediately appointed to his old position. Mr. Sewell has made no definite plans as yet.

His Leg Squeezed.

A very severe accident occurred to James Gallagher, the son of John Gallagher, of Brooklyn street, while at his duties at No. 1 street. The boy had his leg caught between two cars and his knee was badly crushed. He was removed to his home where Dr. John Jones attended him.
