lief in Ten Minutes by the Use of Dr. Agnew's Catarrhal Powder. A busy man like the Bishop of Toronto can ill afford to have his capacity for work broken into by catarrhal trouble, or its simpler but yet serious phase of cold in the head. And yet, to use a vulgurism, there is hardly anything that knocks a man out more quickly than what we or-dinarily term, "Just a cold in the head." There is a way out, however, of this trou-ble, and the Bishop does not hesitate to say, over his own signature, and for the good of thers, that he has used Dr. Ag-new's Catarrhal Powder, and derived in-stant relief in catarrhal troubles. One short puff of the breath through the blower, supplied with each bottle of Dr.

BISHOP OF TORONTO, CAN.

The Rt. Rev. A. Sweatman, D.D., D. C. L., Lord Bishop of Toronto, Secures Re-lief in Ten Minutes by the Use of Dr.

tion at the Stock Exchange today at intervals was exceedingly dull, yet on the whole the dealings were charactered by greater confidence and strength than on any previous day of the week. The advance in prices was quite gen-eral, and the improvement was mainly due to a change of sentiment in regard to the probable action of President Cleveland on the Cuban belligerency matter. The fact that the foreign markets for American securities are undis-turbed by the action of the house undoubted by has a good effect. Still an-other factor in the day's speculation was the reduction in the rates of ster-ling exchange which prevented gold shipments by tomorrow's steamers and render exports of the yellow metal im-probable for at least some days to come probable for at least some days to come The bears attempted to check the up-ward movement in prices by attacking American Tobacco and one or two oth-er specialties which happened to be without effective support. Tobacco was sold down from 84% to 82% and closed at a merely fractional recovery. Despite the selling of Tobacco the gen-eral market continued strong in the late trading. Manhattan scored the are trading. Mainattan scored the greatest rise, selling up from 109 to 111½ on the movement by the city authori-tles to accord the company increased facilities to extend its lines. The stock left off at 1104. Sugar was conspicu-ous for strength throughout and rose to 119a1181/2 on purchases by houses identified with officials of the trust. The Grangers, Chicago Gas, General Electric, Louisville and Nashville Tennessee Coal and Iron advanced 4a1 per cent., but there was nothing in the remainder of the list calling for special remainder of the list calling for special comment. Speculation closed firm in tone. Net changes show advances of ¥a1% per cent. outside of American Tobacco, which declined %. Total sales were 103.892 shares.

DUNN'S REVIEW OF TRADE. Stocks Extremely Dull, Yet Railroad

Traffio lins Been lie avy-A Glance at the Business Situation. New York, April 10.-R. G. Dun & Co. will say tomorrow in their weekly

review of trade: Failures for the past week have been 209 in the United States against 207 last year, and 33 in Canada against 27 last year.

The volume of business has not on the whole increased, nor have prices ap-preciably advanced since April 1, when the range for all commodities was the lowest ever known in this country. Breadstuffs and iron products have risen slightly, but some other articles have declined, and the root of the matter is that the demand for consumption

is still below expectations. The injury done to winter wheat by storms and frosts at the west would appear from reports of state officers

to have been considerable. Remark-ably low estimates of condition are published by some state authorities and while there may be the customary exaggretation, there has evidently been much actual loss, which tends at pres-ent to lessen purchases of farmers and of dealers in farming districts. But the reports are not more gloomy than a year ago, and the quantity of wheat which has come from farms since Aug-ust 1st. has been 163,781,594 bushels, against 129,076,460 to the same date last

year. Stocks have been extremely dull, and yet railroad traffic is heavy. Reports of earnings have not improved, the of earnings have not improved, the March statement covering practically all the roads usually reporting shows an increase of 4.2 per cent. over last years, but decrease of 11.2 compared with 1893, and is less satisfactory than returns of January of February. Do-mentic business reflocted by closely mestic business reflected by clearing house exchanges continues about 20 per cent. smaller than in 1893, though slightly better than last year, the oc-currence of Good Friday preventing exact comparison. Foreign trade shows a decrease of nearly 10 per cent. in exports from the week, though as much exports from the week, though as much increase in March, while imports gain nearly 20 per cent, though in March the decrease was 14 per cent. The bil-let pool and other combinations have raised prices of pig iron and steel, but as yet finished products have gained scarcely anything, nor has demand for them increased. them increased. Prices of boots and shoes do not

change, though leather is lower. Hides are a little stronger at Chicago, re-ceipts being small. Wool is weaker, with sales of the week the smallest for many years. Prices tend lower, ex-cept for fine washed fleece and manufacturers are rapidly reducing produc-tion. There is fair demand in the dress goods branch, but it is estimated that chinery is at work. There have also been cotton mills stopping or reducing time this week. Further reduction in shirting prints, to the lowest point ever touched, failed to increase the demand materially.

materially. When you think of the Nickel Plate Road it brings to mind that delicious meal you had in the Dining Car, and the fine service and Low Rates, and you wonder why people will travel via
