WEST SIDE EVENTS.

Busy Evening in Alderman John's Court Prisoners Who Were Arraigned for Breaking the Law.

Afterman John was busy last even-ing. Case No. 1 concerned gentlemen and ladies of color. Annie Armstrong. of Scranton street, testified that her husband had beaten her severely. He was placed under \$200 bail and as he could not get that amount of security.

could not get that amount of security, spent last night in jail.

Case No. 2 was also one of assault. David Dougherty, also of Scranton street, convinced the alderman that his son Darby, who is puglistically inclined beat the father in a shameful that the state of Two teeth was missing. Darby placed under \$300 bail. He, also, spent last night in the station house through default.

Then there was another case which immediately followed the aforementioned two. This was of an Italian nature. For a period the air of the sanc-tum rippled with continuous jabber. Joseph Patti and wife, of Ninth street. were charged with assault by Dominica Munn and wife. Five dollars and one quarter was paid by both defendants and pregutors. Constable John Davis was responsible for the appearance of the prisoners in each case

CHAIN, YES; WATCH, NO. Viola Haldeman, a fifteen-year-old miss, living at 437 South Ninth street. lost a gold watch and chain while walking on Robinson street toward Hyde Park yesterday afternoon. Three Arabian women who were behind the girl presumably picked up the jewelry. When Miss Haldeman discovered her loss she retraced her steps and upon meeting the women asked for her prop-erty. The chain was handed to the girl to know nothing of it. Quite a large crowd was attracted to the place where the disputants stood. There was no testimony in evidence to prove that the pack peddlers had found the watch and the matter was allowed to drop. The but as to the watch the women claimed women answer to the exceedingly eu-phonious names of Amena Abraham, Amora Abelle, and Mary Simon.

BASE BALL NOTES.

Ward began to get his voice in trim. Who said Hess' wing was awry? It Who said Hess' wing was awry? It didn't seem to be so.

The grounds and buildings will be finished when the club returns home.

When is the new park going to be named and what is it going to be named and what is it going to be named and what is it going to be named? The partially finished bleachers back of first base contained a large bunch of finis. Chiles created a favorable impression. He is big, strong, quick and can hit the bail.

He is big, strong, quick and can hit the ball.

There was nothing new about Pete Esgan. He seemed the same as last year, and that's all right.

Flack will do. The infield isn't his stamping ground, but on third he showed that he knows how to play the game.

McAndrew, who played left field for the Y. M. C. A., will bear watching. He has the car-marks of a coming player.

Herr, Getts, Cronin and Stemmell are all tall, and Herr and Cronin are broad big fellows. The two latter seem to be hitters.

all tall, and Herr and Cronin are broad big fellows. The two latter seem to be hitters.

H. P. Simpson and W. G. Parke, of the base ball association, witnessed yesterday's game. They afterward visited the dressing rooms and were introduced to the players by Manager McDermott.

Senator Ward wore a sweater of flaming red color, the same hue which distinguished the owner from the other players list year. He was the first man up to the plate and reached first on four balls, a good omen of the approaching struggle.

The players want Tom Power for captain and first base. They seem more anxious about the silence of the Californian than is Manager McDermott. There is no doubt that Power's enegetic leadership and knowledge of the game would help in any close contest, but what is more important he is a good field player and sticker and did as much toward landing Syracuse in the first division last year as did any player on that team.

The players will practice at the grounds today, It had been intended to leave at noon for Hartford, but Barnle telegraphed last night that his grounds would not be in condition for a game on Wednesday and cancelled the engagement. Consequently, McDermott will leave with the team tomorrow noon for Thursday's opening game in New Haven. After that, games will be played in Paterson, New Bedford, Newark, Brockton and Fall River before returning home to meet the Cuban Giants on Monday and Tuesday, the 27th and 28th, and Carbondale on the 28th.

THE SEASON'S FIRST GAME

Scranton's Professionals Defeat the Lively Y. M. C. A. Team.

The Amateurs Used Two of the Professional Pitchers-Grounds Were Not in the Best of Condition. Seven Innings Played.

McDermott allowed his coal heavers McDermott allowed his coal heavers to disport@hemselves for seven innings yesterday afternoon with several of the Young Men's Christian association youths whose prowess last year made all the amateurs who went against them bite the dust. The professionals won by a score of 7 to 4. But that wasn't the only joyful part of it; the coal heavers showed themselves to be candidates for places on a team that

as it gives a line on the revived inter-est in the game and in the enterprise of the young men whose pluck is going to give real, live baseball to a long-suffering people. Toward the close of last senson it was a good average day when 500 of the faithful dared go to the grounds and run the risk of seeing Barnie's menagerie run loose. But if 600 persons will go to see a humble and mixed up practice game before the exhibition season has opened there are some reasons for saying that the pluck of H. P. Simpson, the Brooks brothers and W. G. Parke is appreciated and that the game will be raised from the

Neither the grounds nor the condi-tion of the men was such as to warrant any trustworthy criticism of the play-ers. The space back of the plate was much like a dry country road after a spell of wet weather; the base lines were not marked; the diamond was uneven, and the outfield resembled a

uneven, and the outfield resembled a mountainous stretch of country. The crowd, however, appreciated the fact that the game was hastily arranged and judged it accordingly.

For the professionals Mullarkey and Cronin pitched five and two innings respectively. Mullarkey permitted only one hit, and struck out two men, but he was as wild as an untrained Zulu warrior and made five gifts of first on balls. Cronin hurried them over in the sixth but in the last inning purposely gave the amateurs a julcy assortment of lobbs which the youngsters hit for two 2-baggers and out of which softment of 10008 which the youngsters hit for two 2-baggers and out of which Stemmell, who was pitching for them, selected one to his liking and pushed it into left territory for three stations. Getts twirled five innings against his colleagues, and Stemmell two Innings. Getts has the advantage of possessing long hair, a long body and a long pull out-in Waterloo, Ind., where his father is postmaster. In the box he works on the jack-knife and telescope prin-ciple, and he did it well, considering that he has done no training whatever. He permitted seven hits for nine bases, gave two bases on balls and hit a bats-man. Stemmell in two innings faced only six Scranton men and kept the ball back of the base lines excepting a fly-out to Eagan. He is built like a pair of scissors, can run like the mis-chief and may contain some hitting

ability if his three-bagger in the seventh is any evidence. His work was the best of the quartette.

THE RUN-GETTING. An elaborate story of the combat is of little value this early. The Young Men's Christian association scored first. In the second inning Tom Brooks and Williams walked to first, and each advanced a bag on a wild pitch. Moore forced Brooks at the plate and Wil-liams cantered in on McAndrew's out

to Eagan.
Scranton made two runs and put one on velvet in the third. With two out Eagan walked to first and began mak-ing the circuit with Chiles on the lat-ter's hot grounder which made a hole through Tom Brooks at second. Reese fielded the ball to Getts who threw it wild in his attempt to stop Eagan at the

ond. Chiles was given four wide ones. Hess made a lively single to right which scored Eagan. Hess stole and got to third on Herr's out at first which scored Chiles. Cronin singled and Herr came home. Cronin stole second, reached third on Sweeney's single and scored on Mullarkey's hit. This gave the professionals their total of seven. The Young Men made three of their four tailles in the seventh. Williams got four wide ones. Barrett was thrown out at first. McAndrew made a double, scoring Williams, and came in on the triple of the long-haired Stemmell. Malott fanned. The latter scored on Swanny's grounder Lebe scored on Sweeney's grounder. John Brooks made a double and Reese was thrown out while trying to steal home.

of all cases of consumption can, if taken in the earlier stages of the disease, be cured. This may seem like a bold assertion to those familiar only with the means generally in use for its treatment; as, nasty codliver oil and its filthy emulsions, extract malt, whiskey, different preparations of hypophosphites and such like palliatives. Although by many believed to be incurable, there is the evidence of hundreds of living witnesses to the fact that, in all its earlier stages, consumption is a curable disease. Not every case, but a large percentage of cases, and we believe, fully of percent, are cured by Dr. Pierce's Golden Medical Discovery, even after the disease has progressed so far as to induce repeated bleedings from the lungs, severe lingering cough with copious expectoration (including tubercular matter), great loss of flesh and extreme emaciation and weakness.

Do you doubt that hundreds of such cases reported to us as cured by "Golden Medical Discovery" were genuine cases of that dead and statilizerae. Von need not take

reported to us as cured by "Golden Medical Discovery" were genuine cases of that dread and fatal disease? You need not take our word for it. They have, in nearly every instance, been so pronounced by the best and most experienced home physicians, who have no interest whatever in misrepresenting them, and who were often strongly prejudiced and advised against a trial of "Golden Medical Discovery," but who have been forced to confess that it surpasses, in curative power over this but who have been forced to confess that it surpasses, in curative power over this fatal malady, all other medicines with which they are acquainted. Nasty codliver oil and its filthy "emulsions" and mixtures, had been tried in nearly all these cases and had either utterly failed to benefit, or had only seemed to benefit a little for a short time. Extract of malt, whiskey, and various preparations of the hypophosphites had also been faithfully tried in vain. The photographs of a large number of those cured of consumption, bronchitis, lingering coughs, asthma, chronic nasal catarrh and kindred maladies, have been skillfully reproduced in a book of 160 pages which will be mailed to you, on receipt of address and six cents in stamps. You can then write those cured and learn their experience.
