Councilman Nealis Is Going to Introduc Another Ordinance Providing for a Viaduct.

Councilman Nealis announced yester-day that he will ressurrect the viaduct movement and set it afoot again with-out delay. But for the fact that he has been giving all his spare time during the past few days to the draughting of the two ordinances for the improve-ment of Justice, Ecologon and Ninth

the past few days to the draughting of the two ordinances for the improve-ment of Jackson, Robinson and Ninth streets he would, he stated to a Tribume reporter, have the prefatory legislation introduced at tonight's meeting. Mr. Nealls' idea is to have the viaduct strung diagonally from Seventh street to Robinson street at its intersection with Nint street and Nealis court and believes that inasmuch as this will give as good if not better service than the one that was proposed and at a much smaller cost, the people will be willing to let Hyde Park have it. At all events he is determined to try for the viaduct.

### Trip Abroad.

The Scranton players left with Man-ager McDermott on the 12.55 train yes-terday noon for New Haven, where they will today begin a 9-game practice period, returning home for games Monday and Tuesday, the 27th and 28th, with the Cuban Giants, and Wednesday with Carbondale.

with Carbondale. All the players had reported and left with the team, excepting Maguire, Raf-ferty and Meaney, who were expected to be picked up in New York city: Pitcher Dick Brown, who will join the team here on the With, and First Base-man Tom Power, who, it was learned yesterday, claims he was not reserved by Syracuse and that consequently Scranton has no rights to his services. Power made his application for reing utensils at her as she took refuge in the stairway. This was soon after 6 o'clock in the evening and the large crowds of per-sons on their way home from work, congregated on the street in front of the house, attracted by the confusion within. Certain inquiring minds, who had come around after the domestic storm subsided, heard some one say The records of President Pat Powers show that Power, the player, was re-served by Kuntzsch on Sept. 20 for the present season and that the contract was promulgated and bulletined by President Powers in his official, league communication of January 4. Then it was that the wily salt boller began to slide the cards into his hold-out. Had he named \$215 as his price, The Tribune is authentically informed he would have received it. Meanwhile, the prediction is made that he will keep his hold-out up his sleeve, pass his four-flush and show his energetic self on first base for the opening game in Springfield on May 1. Power has always liked to play for a business-like and liberat ownership and management, and he would have these things in Scranton. Maybe he accession to it is not doubted. All the players left in good spirit and much improved physically by the mild training they have experienced here during the last week of time weather. It is McDermott's intention to begin the schedule of practice games by play-ing for exercise only. The men will be instructed to make the earlier contests sort of warming-up affairs until the 24th and 25th when games will be played with Fall River. Then it is proposed to show the New Englanders just what kind of bargain-day business can be done in the Eastern league in pleasant weather.
