Meekin, on whom New York places the bulk of confidence in the box, was knocked under at Washington in the second inning, Van Haltren tak-ing his place and saving the day for the Giants, and thereby preventing the the Giants, and thereby preventing the Senators from making it three straight for the first series. The Quakers beat the Bostons before an immense crowd by the score of 11 to 1. The games played yesterday resulted in an easy victory for St. Louis over Chicago at the Windy City, while Ewing's antiquated Cincinnatis had no hard time of it with the Colonels. This is the first 200-yard pub-lic rifle range ever in the vicinity of Scranton, and the large attendance and enthusiastic interest shown by the attending riflemen was very gratifying to the promoters of the range. A large number of season tickets at \$2 per year was sold, which will give the shooters a handsome medal to shoot for, which will represent the championship of Lackawanna county for '96 and '97 for 100 shots offhand at 200 yards. THE FILLED CHERSE FRAUD.—It is probable that the bill recently introduced in the house defining the product of cheese and imposing a tax upon and regulating the manufacture, sale, importation and exportation of filled cheese," become a law. The measure, which was introduced by Mr. Grosvenor, proposes restricting the trade of filled cheese, a product containing ingredients not used in the manufacture of the legitimate and pure article. It appears that the industry in this country has grown to large proportions within the past few years, there being at the beginning of this year 100 factories, with an annual product of 12,000,000. The article is manufactured by the extraction from milk of all butter fat and the substitution of what is known as "neutral lard," manufactured from the leaf lard of the hog. The cost of this product is in the neighborhood of 5 cents a pound, and it is claimed that is very deleterious to health. The ways and means committee which investigated the subject found that a large proportion of the filled cheese is the cities. It is delivered to them from the manufactures unbranded and unmarked, and is by the jobber branded to suit the taste and requirements of the customers, and is shipped to the various markets in this country where it is not prohibited, branded in this way. Large quantities of the article for shipment to the south have been discovered in the city of New York branded "New York State Full Cream Cheese" and in other fancy manufacturer of filled cheese shall pay a yearly tax of \$400 for every factory, and failure to do so will render the curb and smoked the cig-THE FILLED CHEESE FRAUD.-It is
